

Mark P. Goldberg, M.D.
Professor and Chairman
Linda and Mitch Hart Distinguished Chair

Department of Neurology
and Neurotherapeutics

A postdoctoral position is available in the laboratory of [Dr. Peter Tsai](#), <http://www.utsouthwestern.edu/education/medical-school/departments/neurology/news-and-events/news/peter-tsai-child-neurologist.html> in the Department of Neurology and Neurotherapeutics of UT Southwestern Medical Center to study mechanisms contributing to autism and neurodevelopmental disorders. Our laboratory <http://www.utsouthwestern.edu/labs/tsai/> has several exciting projects related to understanding the underlying mechanisms behind autism and other neurodevelopmental disorders.

Candidates must hold a Ph.D. and/or M.D. degree. We are looking for a motivated, industrious, and inquisitive candidate with interests and experience with circuit dissection and modulation (intracranial surgery, opto/chemo-genetics, circuit tracing, circuit function – imaging, electrophysiology) to join our research team. Experience that has led to publication in peer-reviewed journals is recommended. Interested individuals should send a CV, statement of interests, and a list of three references to:

[Dr. Peter Tsai](#)
