1. The specific details of the equipment needed are not clear. Please provide a complete equipment list with quantities so that we can provide an accurate quote.

   a. **Section 5.3 - Total arthroscopic towers – all equipment needed to support all potential surgical modalities.**

   b. **Section 5.3 - Fully compatible with surgical services current Integration vendor – Karl Storz.**

   c. **Section 5.3 - Any additional integration options that your company can offer.**

2. The request states service agreements after warranty period. Service Agreements cover accidental damage, whereas warranty covers product defects. Service agreements are quoted in annual increments from 1-5 years and can be effective at the same time as the warranty. How many years of service agreement coverage would you like quoted?

   a. **The timeframe is not specified for length of service contract.**

3. Can you provide an approximate timeframe for when the purchase will occur? We would like to make sure it is within the dates of the applicable Premier contract.

   a. **This will not be specified. The purchase will be vetted through UTSW Capital process, which will add an unspecified amount of time to the process**

4. On the RFP document, both the submission checklist and the number of copies pages are blank. Is there missing information to be provided?

   a. **2 hard copies, 2 thumb drive electronic copies**

5. How many camera/scope sets?

   a. **3 total**

6. How many arthroscopy towers?

   a. **3 total**

7. Do you want integration options on a separate quote or included in the equipment quote?

   a. **Separate Quote**

8. The RFP said to have 3 video towers arrive at Zale by today (9/2); however, the email that was received on Tuesday (8/30) said to bring 2 video towers. I
brought and hooked up 2 video towers yesterday (9/1) ready for evaluation. Just wanted to see if two would suffice? (Won’t be a problem at all if you need an additional.)

a. 2 towers will be sufficient for the trial period.

9. When we submitted a proposal earlier this year it was for 5 video systems (2 for Zale, and 3 for the OSC.) The RFP is not specific on how many. I wanted to verify that it was still for 5 systems and the relating components?

a. 3 total
