From the Chief of Police:

On behalf of all the members of the UT Southwestern Police Department I want to say, “Welcome!” Our department’s priority is to provide professional law-enforcement services and to provide a safe work and study environment. We are committed to assisting all members of the UT Southwestern community in providing for their safety and security.

The Annual Security Report contains information regarding law enforcement, public safety, security, and personal safety topics including, but not limited to: crime prevention, our department’s law enforcement authority, crime-reporting policies, campus disciplinary procedures and other matters of importance related to campus security.

This report contains information about crime statistics for the three previous calendar years concerning reported crimes that occurred on campus, certain off-campus buildings, property owned or controlled by UT Southwestern or the University of Texas System, or on public property immediately adjacent to and accessible from the campus.

This information is required by law and is provided by UT Southwestern. The Annual Security Report is available on the UT Southwestern Police Department website at [http://www.utsouthwestern.edu/edumedia/edufiles/about_us/admin_offices/University_Police/annual-crime-report.pdf](http://www.utsouthwestern.edu/edumedia/edufiles/about_us/admin_offices/University_Police/annual-crime-report.pdf). If you would like a copy of this report, you may stop by the UT Southwestern Police Department or you can request that a copy be mailed to you by calling (214) 633-1636.

Thomas Bickers Jr.
Chief of Police
WELCOME TO THE UNIVERSITY OF TEXAS SOUTHWESTERN MEDICAL CENTER

The UT Southwestern community offers numerous advantages to the greater Dallas community, as well as to our students, staff, and faculty. The UT Southwestern community is a great place to work, study, and receive world-class medical care. Like any community, however, our community is not immune to the kinds of problems that beset the rest of the nation. One of these problems is crime.

UT Southwestern attempts to provide a safe and secure environment for its students, staff, faculty, and visitors. However, it is only possible to maintain safety and security when every member of the community takes an active part in the effort.

The purpose of this publication is threefold:

- To inform members of the UT Southwestern community of some of the policies and programs that promote safety and security.
- To increase safety awareness by summarizing recent crime data.
- To suggest ways that the UT Southwestern community can deter criminal behavior and promote the safety of persons and possessions.

The UT Southwestern Police Department (or “University Police”) prepared this report to comply with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act. This report is prepared in cooperation with local law-enforcement agencies surrounding our campus and with the Office of Student and Alumni Affairs.

This report was prepared to help you learn more about the activities that involve our community and the University Police, and to familiarize you with the reported incidents of crime that occur on campus.

The primary functions of the University Police are the preservation of the public peace and order, the prevention and detection of crime, apprehension of offenders, the protection of persons and property, and the enforcement of the laws of the State of Texas. The University Police maintains a good working relationship with local, county, and federal law-enforcement agencies.

UT SOUTHWESTERN POLICE DEPARTMENT

UT Southwestern maintains its own police department. The UT Southwestern Police Department is one of the 14 component police departments of The University of Texas System Police, and is the law enforcement agency of record for UT Southwestern. The department consists of approximately 46 state-commissioned and armed Police Officers, 74 non-sworn Public Safety Officers, 13 state-certified Police Communications Officers, 5 Technical and Access Control personnel, and 7 civilian support staff. State law allows that Police Officers licensed through The University of Texas System have full police authority -- including making arrests and issuing citations -- in any county in which the UT System owns, operates, leases, or controls property (see Texas Education Code sec. 51.203). Public Safety Officers have the same arrest authority as any civilian, which is for felonies or a breach of the peace. Under University Police policy, however, a Public Safety Officer may not make an arrest without first being directed to do so by a University Police supervisor or Police Officer.
Besides direct efforts in crime prevention and detection, the UT Southwestern Police Department utilizes several operational strategies to foster safety and security in addition to normal vehicle and walking patrols:

- **Kawasaki Mules:** Police Officers and Public Safety Officers patrol parking lots and sidewalks with these alternative patrol vehicles. These vehicles allow the officers a unique opportunity to interact with the public while being easily visible and able to respond quickly to calls for assistance.

UT Southwestern Police Department Police Officers are trained at the UT System Police Academy, Regional Police Academy, or a combination of both where they receive over 800 hours of law-enforcement training. The UT Southwestern Police Department works closely with the Dallas Sheriff’s Department, the Dallas Police Department, Dallas Area Rapid Transit Police, and Dallas County Constable’s Offices, as well as other state and federal law enforcement agencies. UT Southwestern Police and Dallas Police have a Memorandum of Understanding (MOU) in place.

**REPORTING CRIMINAL ACTIVITY OR OTHER EMERGENCIES**

Faculty, staff, students, visitors, and patients are encouraged to report all crimes and public safety related incidents to the University Police in a timely manner. Individuals who wish to report alleged criminal actions or emergencies that occur on our campus or property owned, operated, leased, or otherwise controlled by UT Southwestern or The University of Texas System may do so by:

- **Calling (Emergencies):**
  
  From any campus phone – 911 or 8-8911
  From non-campus or cell - (214) 648-8911

- **Calling (Non Emergencies):**
  
  From any campus phone – 311 or 8-8311
From non-campus phone or cell – (214) 648-8311

- Visiting the UT Southwestern Police Department at the Bass Center (BLC.200) on the North Campus, 6333 Forest Park Rd, Dallas, TX 75390;

- Using emergency, blue-light call boxes from any parking lot or elevator emergency phones; or

- Requesting help or assistance from any uniformed officers on patrol or assigned to one of the Entry Control Booths.

Offenses occurring off campus should be reported directly to your local law-enforcement agency or the agency of record for that jurisdiction.

Offenses occurring on campus, the University Police will dispatch one or more officers to investigate suspected criminal activity. Responses include, but are not limited to:

- Investigation of the reported activity;

- Arrest and filing of criminal charges, depending upon the circumstances; or

- Referring alleged offenders to appropriate campus departments, such as deans’ offices in the Southwestern Medical School, the Graduate School of Biomedical Sciences, the School of Health Professions, or the Office of Human Resources.
CRIME REPORTING

Numerous efforts are made to inform the UT Southwestern community about campus crimes and crime-related problems. These efforts include use of Public Notice e-mail broadcasts and the campus-wide notification system.

What to do if you are a victim of any crime:

- Contact the University Police when possible. Inform the Police Communications Officer (PCO) of the description and direction of travel taken by the suspect.

- Remember all you can about the suspect and relay that information to the PCO, such as: race/sex, clothing description, height/weight, color of hair and eyes, any unusual features or jewelry, and the description of any vehicle involved.

- Stay on the phone with the PCO until the PCO tells you to hang up.

- Do not confer with other individuals who may have been involved in the incident or allow anyone in or near the area where the incident took place.

If a person does not want to give their name, possible crimes or suspicious activity can be reported to the University Police by visiting the University Police home web page and clicking on “Reporting a Crime”. This link allows a person to anonymously notify the University Police of suspicious activity.

CAMPUS SECURITY AUTHORITIES

In addition to the Police Officers and Public Safety Officers of UTSW Police Department, some of the primary Campus Security Authorities (CSA) are listed. The list does not include all CSA's.

UTSW Police Department
214-648-8311, 214-648-8911

Campus security authority is a Clery specific term that encompasses four groups of individuals and organizations associated with an institution.

1) A campus police department of an institution. This function is performed by UTSW Police Department.
2) Any individual or individuals who have responsibility for campus security but who do not constitute a campus police department or a campus security department (e.g., an individual who is responsible for monitoring the entrance into institutional property). Include individuals who provide security at a campus parking kiosk, monitor access into a campus facility, act as event security or escort students around campus after dark. This function is performed by UTSW Police Department.

3) If you direct the campus community to report criminal incidents to anyone or any organization in addition to police or security-related personnel, that individual or organization is a campus security authority.

4) An official of an institution who has significant responsibility for student and campus activities, including, but not limited to, student housing, student discipline and campus judicial proceedings.

   - An official is defined as any person who has the authority and the duty to take action or respond to particular issues on behalf of the institution

In certain instances, a crime victim may be reluctant to file a report for fear of the process of going to a law enforcement agency and the potential loss of his/her anonymity. In such circumstances, crime victims are still encouraged to make a confidential report to one of the above designated Campus Security Authorities. At minimum, crime victims will receive important counseling and referral information. The statements made to Campus Security Authorities will be kept confidential unless the circumstances pose a continued threat to the safety of the UT Southwestern campus community.

When no threat is posed, the only information that will be disclosed will be for the purpose of collecting data to be included in the annual crime statistics. Confidential reports are important because they provide valuable information that can enhance the safety of the community-at-large and such reports will, at a minimum, provide a more accurate portrait of actual campus crime.

**TIMELY WARNING NOTICES**

To help prevent crimes or serious incidents, a Public Notice may be issued on the judgment of the Chief of Police, in consultation with the Office of the Executive Vice President of Business Affairs. The Public Notice will be sent out to the campus community via e-mail. Notice may also be issued by the University of Texas Southwestern Medical Center at Dallas Alert System through campus wide text messaging and/or phone system. Anyone with information related to a significant emergency or dangerous situation involving an immediate threat to the health or safety of students, faculty, staff or visitors should report the information immediately to the University Police.

**DAILY CRIME LOGS**

The University Police maintains a Daily Crime Log that records, by date when an incident occurred, was reported, all crimes and other serious incidents that occur on campus and within the department’s patrol jurisdiction. The Daily Crime Log is available twenty-four hours a day at the Police Communications Center located at the department’s offices at the Bass Center (BLC.200).

**SECURITY AND ACCESS TO CAMPUS FACILITIES**

Most campus buildings and facilities are accessible to members of the campus community, guests, and visitors during normal hours of business (Monday-Friday). After normal business hours, on weekends,
and on holidays, outside doors are locked to protect personnel and state property. Card access may open those doors so equipped.

Certain doors have been identified as primary-entry doors and have been equipped with cameras, intercoms, security card-readers, or a combination of these devices. By swiping your card through the card reader you will be allowed access, if you have the appropriate clearances.

UT Southwestern has strategically placed emergency call boxes (intercoms) in the parking lots and parking garages on campus, which automatically annunciate at the Police Communications Center. The call boxes are mounted on poles or walls and are equipped with signs and blue lights for ease in locating. Should an emergency or any situation requiring police services arise, go to the emergency intercom, push the button and the Police Communications Officer will answer. Campus elevators also are equipped with emergency intercoms. Open the compartment near the control panel and push the button, and the Police Communications Officer will answer.

At the student housing complex, residents may enter by using their gate opener provided by the housing management. Visitors must wait at the gate to be let in by the primary occupant of the apartment they are visiting. The Public Safety Officer assigned to the complex is located at the Entry Control Booth at the main gate and is on duty twenty-four hours per day. In addition, Police Officers make patrols through the complex. The entire housing complex is fenced and gated for both privacy and security of the residents. All apartments within the student housing complex are individually locked and keyed with mechanical locks.

UT Southwestern has instituted security services and procedures; however, the personal safety of each individual who enters the campus is his or her responsibility. Failure to take precautions or maintain an awareness of the environment and surroundings may result in increased risk. University Police will continue to develop and implement security measures, but these measures cannot succeed without the personal support of faculty, staff, students, and visitors.
SECURITY CONSIDERATION USED IN THE MAINTENANCE OF CAMPUS FACILITIES

Our University is committed to campus safety and security. The UT Southwestern Police Department’s Access Control Division works with the Department of Physical Plant to identify inoperative doors, alarms, cameras, and locking mechanisms. We encourage the community to report any locking deficiencies promptly to (214) 648-8311 or Physical Plant’s CDAS at (214) 648-3190.

Exterior lighting and landscaping is an important part of campus safety and security. The University Police conducts routine checks of lighting on campus during regularly assigned patrol duties. If lights are out, officers will initiate an immediate work order to the Physical Plant CDAS. All alarms and intercoms are checked on a regular basis for proper working order. Any community member who has a concern about physical security should contact the Crime Prevention Office by calling (214) 648-8311.

SMOKING ON CAMPUS

As a reminder, UT Southwestern is a NON-SMOKING campus. Smoking is not allowed in any buildings or on the grounds of UT Southwestern, and never inside the hospitals (Texas Penal Code 48.01). The University Police assists in monitoring compliance with UT Southwestern’s smoking prohibition in accordance with the current university policy (SEC-205).

WEAPONS

State law prohibits the possession, carrying or use of weapons or firearms on most property owned and controlled by UT Southwestern (see SEC 155).

OFF-CAMPUS ACTIVITIES

The University Police does not monitor off-campus activities. UT Southwestern has no on-campus or off-campus fraternities or sororities.

CRIME PREVENTION PROGRAMS

The programs and services listed below are designed to inform members of the UT Southwestern community about campus law enforcement and security procedures, and are based on the dual concept of eliminating or minimizing criminal opportunities. We encourage faculty, staff, students, visitors, and patients to share the responsibility of their own security and the security of others. Crime prevention programs and services offered by the University Police include but are not limited to the following:

- **Public Information:** The department works closely with the [University News Bureau](http://www.utsouthwestern.edu/newsroom/index.html) and the UT Southwestern administration to publicize crimes and related investigations. Annual reports of all reported crimes are available on-line at the following web address: [http://www.utsouthwestern.edu/edumedia/edufiles/about_us/admin_offices/University_Police/annual-crime-report.pdf](http://www.utsouthwestern.edu/edumedia/edufiles/about_us/admin_offices/University_Police/annual-crime-report.pdf)

- **Group Presentations:** UT Southwestern Police Officers present safety and security talks to campus and community groups upon request.

- **Personal Escort Service:** The University Police provides escort services for students and staff who are uncomfortable walking alone. The escorts can be walking escorts or vehicle escorts in
one of the department’s vehicles or its 7-passenger van. Anyone who needs an escort can request one by calling (214) 648-8311.

CRIME PREVENTION AND SECURITY AWARENESS PRESENTATIONS

All of the presentations described below are available upon request to any University department or any interested group of staff, faculty, or students.

Call the University Police crime prevention number, (214) 648-2220, between 8 a.m. and 5 p.m. (Monday through Friday), to obtain additional information or to schedule a presentation.

Campus and Personal Safety
This presentation will focus on personal safety issues that will affect you whether you are on campus, shopping at the mall, or at your home. We will provide some crime prevention tips that can help you to reduce your chances of becoming a victim of crime. We will discuss the different types of personal attacks that could be made on you by an assailant, and how you might best respond to them. No "hands on" physical training will be given at this presentation. Instead, we will discuss various methods of self-defense, including the use of aerosol sprays, stun guns, sirens, martial arts, etc., so that you can select the method best suited to your personal needs and abilities.

Theft Reduction in the Workplace
Workplace theft accounts for the vast majority of crime that occurs on the University campus. We need your help in eliminating the opportunities for this type of crime to occur. Emphasis in this presentation is placed on recognizing and reporting suspicious activities or persons in your work areas. We recommend some simple measures you can take to secure your property, and hopefully keep you from learning the hard way (by experience). Operation Identification and information needed by the University Police when you report stolen property or suspicious persons will also be covered.

Auto Theft Prevention and Anti-Carjacking
Unfortunately, vehicle theft remains a problem, and carjackings do happen from time to time in the greater Dallas area. This presentation will teach you some things you can do to help make your vehicle more difficult to steal, as well as how to make your car appear to be a less attractive target for auto thieves. You will also learn some important tips on how you can reduce your chances of becoming a victim of carjacking, and what to do if you find yourself in such a predicament. Topics discussed in this presentation include types of vehicle alarm/anti-theft systems, Operation Identification, and what actions to take if your vehicle is stolen.

Sexual Assault Prevention
This important presentation provides advice on things you can do to help prevent yourself from becoming a victim of this serious crime. You will learn measures you can take to deter a potential assailant from choosing you as a victim, as well as what to do if you are attacked. Other topics discussed include profiles of types of offenders, acquaintance rape, other forcible and non-forcible sex offenses, and the stages of recovery that victims commonly experience.

Home Security/Burglary Prevention
We at the UT Southwestern Police Department care about our University population, whether they are here on campus or at their homes. This presentation will discuss measures that can be taken to reduce the likelihood of your home being burglarized, whether you live in a house, an apartment, or a mobile home. We will talk about the importance of recognizing and reporting suspicious persons or activity, and you will learn common tactics used by professional burglars. You will also learn what you can do to make
your home appear less attractive to a burglar. Other topics discussed include types of locks for doors and windows, marking your property, home security systems, and psychological deterrents.

**Identity Theft**
This rapidly growing crime involves the acquisition and use of a person's identifying information to obtain some benefit, usually at the expense of the victim. This presentation shows some methods commonly used by criminals to obtain personal information, and gives some tips on how to keep your private information from falling into the wrong hands. You will also learn what steps you need to take if you become a victim of this crime.

**Personal Escorts**
Officers are available 24 hours a day, including weekends and holidays, for a personal escort. Officers will walk with anyone to any location on or near campus. To request an escort, dial extension 88311. Give the dispatcher your name, phone extension your calling from, and the location where you'd like the officer to contact you. Typically, officers walk with persons to their destinations. Occasionally, a patrol vehicle may be used for escort purposes.

**R.A.D. (Rape Aggression Defense)**
The UT Southwestern Police Department began offering a women's self-defense program called "R.A.D." in 2002. R.A.D. is a practical course designed to teach the average woman how to reduce risk by:

- Recognizing and avoiding dangerous situations
- Becoming more assertive and forcefully saying "No" when appropriate
- Learning and practicing basic, easy-to-use physical self-defense techniques

Each course consists of four three-hour sessions. Specific class locations and scheduling may vary. Please call Ricky Bostic at (214) 648-2220 or send an e-mail to Ricky.Bostic@UTSouthwestern.edu for more information, or to enroll for a course.

**ACTIVE SHOOTER PRESENTATION**
Upon request, and in addition to the videos on the UT Southwestern intranet, the Police Department provides a presentation on Active Shooter situations.

**NEW STUDENT ORIENTATION**
Each year members of the UT Southwestern Police Department, including members of the command staff meet with incoming students to discuss the roles and responsibilities of the Police Department. In addition, discussions are held on crime prevention topics and safety topics that will help the new students
have a successful education experience at UT Southwestern.

CRIME PREVENTION TIPS

Protect yourself

Stay in well-lighted, public areas, whether driving or walking. When walking in public (or even just to your parked car), walk with a friend or coworker (the University Police provide personal escorts as well). Walk confidently; your body language tells criminals whether you look like a victim.

While driving, always lock your car doors and roll up your windows. If your car breaks down, do the following:

- Raise the hood, turn on your hazard lights, and tie a red or white cloth to your antenna or side view mirror.
- Stay in the car, lock the doors, and roll up the windows.
- If you have a cellular phone, call the police or emergency roadside service.
- If someone stops to help, ask them to call the police.
- Always keep blankets, a good pair of walking shoes, a first-aid kit, and a flashlight (with fresh batteries) in your car, just in case.

When returning to your parked car, check in, under, and around your car before getting in (remember to look in the back seat floorboard or rear storage area). Be extra aware of your surroundings when using a drive-through service, such as a fast-food restaurant or an ATM; drive away if you become uncomfortable.

Beware of the "bump and rob." If a car with multiple occupants (especially young males) bumps your car under suspicious circumstances, you should motion to the driver to follow you, then drive to the nearest well-lighted public area to exchange information.

Keep your doors locked while at home, and require proper identification before admitting anyone unfamiliar to your home (such as delivery persons, utilities employees, or service personnel).

If someone on an elevator makes you uncomfortable, do not enter the elevator (or exit the elevator immediately if already on), and wait for the next elevator. You should always report suspicious people or activities to the University Police immediately. Above all, pay attention to your surroundings.

Protect your property

Lock your door every time you leave your workplace, even for just a couple of minutes (many thefts occur in a 3 to 5 minute time period).

Secure valuables in a locked drawer or cabinet (Key Control can install or repair locks, if necessary); do not leave the keys in a nearby unlocked drawer.

Operation ID: mark or engrave your driver's license number on all valuable personal property; engravers are available for check-out from the University Police from 8 a.m. to 5 p.m. (Mondays through Fridays).
You should keep a list containing pertinent information about your personal property (such as serial number, brand, color, model, etc.) in a convenient location.

Properly secure your bicycle to a bicycle rack, and register it with the University Police. Carry a wallet in a front or inside pocket; if you carry a purse, hold it close to your body.

**Protect your car**

A vehicle is stolen every five minutes somewhere in Texas. Always lock your car doors and roll the windows all the way up. You should park in well-lighted, public areas. Never leave your car's motor running while unattended. It is against the law.

Do not leave valuables in your car. If you must do so; keep them out of sight (preferably in the trunk). Never attach a tag with your name or address on it to your key chain; if the keys are lost, they could be used to steal your car.

Engrave the VIN on numerous parts of your car, such as the windows, doorframes, and bumpers; marked parts are more difficult to sell, and thieves prefer to avoid them.

Register your car with the H.E.A.T. (Help End Auto Theft) Program; peace officers are allowed to stop vehicles bearing H.E.A.T. decals between 1 a.m. and 5 a.m. if they are being operated on a public roadway. Install a theft deterrent device or system on your car, such as:

- kill switches (electricity or fuel cutoff);
- steering wheel locks/bars;
- tapered interior door locks;
- steering column collars;
- security systems (with audible alarms); or
- tracking systems

When parallel parking, turn your wheels toward the curb. This makes it more difficult for thieves to tow your car.

**Protect your home**

Keep lights on during the nighttime, both at the front and back of your home. Ensure all exterior doors are constructed of solid-core wood or metal. Install high-quality dead bolt locks, and use them.

Install secondary locking mechanisms (such as pins) on windows and sliding glass doors. If you have an interior thumb-turn lock within 40 inches of a window, consider replacing it with a double cylinder lock (check local zoning laws first, and ensure a key is always kept near to each door, so people living in your home can escape quickly in case of a fire).

Install peepholes with a minimum of a 190-degree field of view in all exterior doors.

When away from your home for an extended time, take the following precautions:
o Place cars in the garage (if you have one), and unplug garage door openers.

o Have a trusted neighbor or friend check on your home daily, and maintain a lived-in appearance (collect newspapers/mail, mow the lawn, etc.).

o Use a timer to turn lights and/or radios on and off.

o Notify your security company if you have a monitored security system.

o If you live in an apartment, notify the management.

o Keep trees and bushes neatly trimmed; overgrown vegetation provides a perfect hiding place for burglars.

Remove the small knob or handle attached to the end of the cord that detaches your garage door opener from the garage door; burglars have tools that can grab the knob and allow them to access your garage.

Mark all valuable personal property in your home and keep a list containing pertinent information about the property (serial numbers, brand, model, etc.). Such property is more difficult to sell and is unattractive to burglars. Do not keep large amounts of cash at home -- the bank is safer (and insured).

**SEXUAL ASSUALT**

If you are the victim of a rape or sexual assault, get to a safe place as soon as you can. Then you should:

- Try to preserve all physical evidence of the attack. Do not bathe, douche, use the toilet, or change clothing. This is important should the victim wish to press criminal charges. Preservation of evidence can help identify the suspect.

- Notify the University Police or Dallas County Rape Crisis Center (located at 4811 Harry Hines Blvd, Dallas, (214) 590-0430), even if you are unsure about filing charges. If the assault occurs off-campus, the University Police will help facilitate the contact with or filing of charges with the appropriate agency. If the victim does not wish to report the offense to the Police or the Dallas County Rape Crisis Center, they can also report it to one of the Campus Security Authorities.

- Get medical attention as soon as possible. The University Police can assist you with this.

- Call a close friend, residence counselor, or other trusted person who can be with you during your interview with the police.

- Use the victim-assistance services offered by UT Southwestern or community agencies. If a victim is unsure of what community agency should be contacted, the University Police or Student Health Services can assist in obtaining that information.

- UT Southwestern will try to work with a victim’s academic and living situation after an alleged sex offense if those changes are requested and are reasonably available.

- If the victim is a student and chooses not to report the assault to the University Police, UT Southwestern encourages reporting the assault to Student Health Services at (214) 645-8690. In
addition, the Southwestern Medical School, School of Health Professions, and the Graduate School of Biomedical Sciences each have a dean responsible for student affairs. A victim also may choose to report an incident to one of these officials.

- Student Health Services, located in the Aston Ambulatory Care Center, can assist a student in determining the best course of action following a sexual assault. Some of their services are free of charge; in other cases, especially if referred outside of the Student Health Services, the student may be responsible for the cost.

- Programming to include the Rape Aggression Defense (RAD) program and other Sexual Assault Prevention programs are listed in the Crime Prevention and Security Awareness Presentation portion of this document.

In Dallas County, The Victim Intervention Center at Parkland Hospital can assist you in strictest confidence to ensure your privacy, safety and well-being. The Crisis Support Center at Parkland Hospital provides services to people who have experienced family violence, intimate partner violence or sexual assault, either recently or in the past. Because the whole family can be impacted by this kind of trauma, services are also available to the victim's friends and family.

Services are available for women, men, teens, and children four years and older who live in Dallas County. Counselors can provide the following: counseling and emotional support; information on the effects or abuse or violence; help with traumatic responses to abuse or sexual assault; assistance in examining the effects of childhood abuse; or documentation and reports to support legal or civil actions. Center advocates can provide assistance with 24-hour response to victims of violence who are seen through the Parkland Healthcare system; information and referrals for protective orders; emergency shelter information; referrals to resources to help victims of abuse or violence; documenting abuse; or referrals to legal services.

DOMESTIC VIOLENCE, DATING VIOLENCE, STALKING, SEXUAL ASSAULT

The policy and procedure UTSW follows once an incident of domestic violence, dating violence, sexual assault, or stalking has been reported, are EDU-116 Sex Discrimination – Sexual Misconduct, Harassment and Violence, and EDU-116-P-01 Sex Discrimination Complaint and Resolution. The standard of evidence used in any institutional proceeding arising from such a report is a “preponderance of the evidence” standard, and that is expressly stated in the procedure. The policy and procedure, along with other information and resources can be found at: http://www.utsouthwestern.edu/education/student-services/title-ix/index.html

Pursuant to EDU-116-P-01, the Title IX Coordinator and Deputy Coordinators have wide discretion to “take steps to prevent recurrence of any sex discrimination and to correct its effects on the complainant
and others.” This would include assisting a victim of domestic or dating violence, sexual assault, or stalking, with changing his or her academic, living, transportation, and working situations if requested and reasonably available, regardless of whether the victim chooses to report the crime to campus police or local law enforcement. Options may include providing temporary or permanent on-campus housing, personal police escort services, or changes to course schedules.

DISCIPLINARY PROCEDURE DISCLOSURE

Any student who engages in conduct that violates the Rules and Regulations of the Board of Regents of The University of Texas System, UT Southwestern rules or policies, or federal, state, or local laws is subject to discipline, regardless of whether the conduct takes place on or off campus or whether civil or criminal penalties are imposed for such conduct by another authority. In any such disciplinary action, UT Southwestern will follow the Series EDU-150 Student Conduct and Discipline in the UT Southwestern Handbook of Institutional Operating Policies and Procedures.

In cases of alleged sexual misconduct, including sexual harassment and violence, involving students, trainees, or applicants, UT Southwestern will follow EDU-116 Sex Discrimination – Sexual Misconduct, Harassment, and Violence and EDU-116P-01 Sex Discrimination Complaint and Resolution. If there is a determination that EDU-116 was violated, the matter will be handled in accordance with the applicable disciplinary procedures.

Any student, trainee, or applicant with concerns about sexual misconduct, harassment or violence should seek assistance from the UT Southwestern Title IX Coordinator or a Deputy Title IX Coordinator. Any student, trainee, or applicant who believes that he or she has been subjected to sex discrimination is urged to immediately submit a request to invoke the informal resolution process or submit a formal complaint to the Title IX Coordinator or a Deputy Title IX Coordinator in accordance with EDU-116P-01.

All policies and procedures governing student conduct and discipline contained in the UT Southwestern Handbook of Institutional Operating Policies and Procedures are available on the UT Southwestern intranet, from the dean’s office or from the UT Southwestern Police Department. Students found to have committed acts constituting misconduct under these policies, including sexual misconduct, harassment or violence, may be subject to disciplinary action, up to and including dismissal. Criminal or civil proceedings may continue concurrently with the UT Southwestern disciplinary proceedings. Criminal or civil justice investigations, proceedings, findings, or outcomes are not determinative of any UT Southwestern disciplinary proceeding. UT Southwestern will not wait for police investigations or criminal or civil justice proceedings to be completed before taking action under UT Southwestern misconduct and disciplinary policies.

SEX OFFENDER REGISTRATION

Pursuant to Texas Code of Criminal Procedure Art. 62.005, the Texas Department of Public Safety (DPS) has established this web site as the official internet public access to the DPS sex offender registration computerized central database. The information can be located at: https://records.txdps.state.tx.us/SexOffender/PublicSite/Index.aspx.
PHOTOGRAPHIC IDENTIFICATION SYSTEM

All faculty, staff, students, and other non-employees affiliated with UT Southwestern must wear their issued UT Southwestern photo ID badge in a visible place, either on a pocket, a lapel, or around the neck at all times while on campus. Upon request by an officer of UT Southwestern Police Department or an administrator of UT Southwestern, persons are required to present their photo ID. Photo ID cards for faculty, staff, students, and other non-employees housed on campus are available at the “A” Building, located on south campus. Replacement costs for a photo ID badge is $40.00.

DRUG AND ALCOHOL POLICIES

Drug-Free Workplace

UT Southwestern is required by federal law to notify all employees and students that the unlawful manufacture, sale, distribution, dispensing, possession, or use of a controlled substance in or on any property owned or controlled by UT Southwestern is prohibited. A controlled substance is any substance so defined by federal or state statute or regulation.

Any employee found guilty – including a plea of no contest – or has a sentence, fine, or other penalty imposed by a court of competent jurisdiction under a criminal statute for an offense involving a controlled substance that occurred in or on any property owned or controlled by UT Southwestern, or while conducting UT Southwestern business off-campus, must report such action to his or her supervisor within five (5) days.

Any employee who unlawfully manufactures, sells, distributes, possesses, or uses a controlled substance in or on any property owned or controlled by UT Southwestern or while conducting UT Southwestern business off-campus will be subject to disciplinary action, up to and including termination, regardless of whether such activity results in the imposition of a penalty under a criminal statute.

Any student who is found responsible for the illegal manufacture, sale, distribution, possession, or use of a controlled substance on campus is subject to discipline under Series 50101 of the Regents’ Rules and Regulations.
In addition to sanctions imposed by the university on students, faculty and staff, any person who unlawfully manufactures, sells, distributes, possesses, or uses a controlled substance in or on any property owned or controlled by UT Southwestern or while conducting UT Southwestern business off-campus can be arrested and prosecuted under appropriate state or federal criminal laws.

**Possession or Use of Alcohol**

The possession or use of alcoholic beverages on UT Southwestern property is prohibited without the prior written consent of the UT Southwestern president. Except as otherwise provided by state law, no state funds shall be used for the purchase of alcoholic beverages.

Any alcohol use or possession by anyone under the age of 21 is against the law and will subject the violator to criminal prosecution or referral to the dean’s office of the school in which enrolled.

**Assistance for Students, Faculty, and Staff**

Conscientious efforts by any student to seek help for alcohol or drug problems will not jeopardize a student’s continued enrollment in school.

**Medical Students**

The Student Assistance Committee has been established to encourage and facilitate recognition, treatment, and rehabilitation of impaired medical students. The committee will play an advocacy role while giving the student an opportunity to move toward recovery and will support and monitor a student’s progress through a recovery program. The committee is dedicated to assisting the impaired student in obtaining confidential help while continuing their medical education without stigma upon recovery. A student may also contact the Student Health Services in the Aston Ambulatory Care Center for assistance with these problems. /education/student-services/student-health-service/

**Graduate Students** - Graduate students may use Student Health Services and/or their own insurance programs, as they think appropriate. Graduate students holding staff appointments also are eligible for services of the UT Southwestern Employee Assistance Program.

**School of Health Professions Students** - Health Professions students may seek treatment and rehabilitation through Student Health Services or their own insurance programs, as appropriate. /education/student-services/student-health-service/

**Faculty and Staff** - As a part of UT Southwestern’s benefits package, an Employee Assistance Program (EAP) is provided by the UT Southwestern EAP. The program is designed to assist employees who may be dealing with personal problems that affect their relationships at home and at work. /about-us/administrative-offices/human-resources/benefits-and-retirement/special-programs/eap/

**POLICY ON PERSONS REPORTED AS MISSING**

Persons concerned about the well-being of a Southwestern Medical Park Apartment resident are urged to contact the UT Southwestern Police at any time by dialing 311 from a University phone or (214) 648-8311 from a cell phone or off campus phone. You can also contact the Southwestern Medical Park Apartments management at 214-956-9300.

When a caller reports that a resident or student is missing or is suspected of being missing, Police Communications will make a record of the call with the name and number of the caller. The record shall
indicate the relationship between the caller and the resident, as well as the last time and place the caller
saw or heard from the resident or student. Concerned callers are encouraged to share any relevant
information about the student’s relationships, health, history, or overall well-being that the caller feels
may be relevant to locating the absent resident. A similar procedure will be followed for walk-up
contacts and e-mail reports.

With the information known at the time, UT Southwestern Police will take appropriate action to
investigate the report and determine whether the situation rises to the level of an emergency, including
(but not necessarily limited to) visiting the room where the resident lives. Depending on the
circumstances, additional appropriate steps may include attempts to contact the potentially missing
resident’s roommate or friends to ascertain the resident’s whereabouts, contacting the student’s
workplace, checking access card or meal plan usage if possible, or attempts to contact the missing student
via electronic mail, cellular phone, and/or room phone. In addition, the appropriate Deans or their
designee will be notified.

Contact information will be accessible only to authorized campus officials and law enforcement and will
not be disclosed outside of a missing person investigation. If a student has identified such an individual,
UT Southwestern will notify that individual no later than 24 hours after the student is determined to be
missing.

When a potentially missing resident is located, callers who reported the resident missing will be notified
in a timely manner. If the resident in question has not been located within 24 hours of the University’s
receipt of notice that the resident may be missing, University Police will enter a missing person report on
the National Crime Information Center, Texas Crime Information Center databases and notify the Dallas
Police.

In cases where the missing resident is 18 years or older, University Police shall determine within a 24-
hour period after police receive the call whether the report rises to the level of a police emergency. A
decision to initiate emergency contact procedures will be made by University Police based upon the
information known at the time. Persons contacted by University Police as part of the emergency
notification process will include the individual(s) listed on the confidentiality card filled out earlier by the
resident during the move-in process, but others may also be contacted as permitted by state and federal
law. In those cases where the resident is not yet 18 years of age, University Police will contact the minor
resident’s parent or guardian no later than 24 hours after the time the student is determined to be missing.

Definitions:

The Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act mandates the reporting
of the following statistics concerning the occurrences on campus, during the most recent school year and
during the two preceding school years of the following criminal offenses reported to campus police or
local police agencies.

Please read and understand the definitions below to best understand the reported statistics.

HATE CRIMES

For the categories of crime listed above and for crimes of larceny-theft, simple assault, intimidation,
destruction/damage/vandalism of property and any crime perpetrated on the basis of prejudice that results
in bodily injury, the university is required to report hate crimes by category of prejudice, geographic
location, year the incident was reported and category of crime. However, for the years covered by this
report (2011, 2012 and 2013), UT Southwestern has received no reports of crimes that fit these criteria.
DEFINITION OF GEOGRAPHICAL CATEGORIES

Emergency Management and Evacuation Procedures

The UT Southwestern Emergency Operations Plan is a guide that provides UT Southwestern executive management with an emergency and crisis management system when responding to major disasters or disturbances to the campus. All personnel designated to carry out specific responsibilities are trained to know and understand the UT Southwestern policies and procedures. The Emergency Operations Plan was created to meet the Occupational Safety and Health Administration Standard 29 CFR 1910.38: Emergency Action Plan. UT Southwestern will operate an Incident Command System (ICS) in the event of an emergency. The Emergency Operations Plan is designed to effectively coordinate the use of University and community resources to protect life and property both during and immediately following a major crisis or disturbance on or near UT Southwestern. It shall be placed into operation whenever an emergency affecting the University cannot be controlled using daily operating procedures.

The Employee Emergency Response Guide

The purpose of the Employee Emergency Response Guide is to provide an understandable and accessible reference for use in emergency situations in order to promote the safety of the UT Southwestern community. This guide addresses the most common and most likely emergencies that employees and visitors may face on the UT Southwestern campus on any given day, shows evacuation locations per building, and provides action steps for the campus to follow.

Emergency Test and Evacuation Drills

UT Southwestern shall participate in emergency tests or evacuation drills at least once per year to assess and evaluate emergency procedures and capabilities. The evacuation drills, tabletop exercises, and emergency preparedness trainings are done in partnership with various internal departments to UT Southwestern as well as affiliated institutions in the Southwestern Medical District. External agencies may include the Dallas Police Department, Dallas Fire and Rescue, Dallas Emergency Operations Center, Dallas Area Rapid Transit, as well as state agencies. The Office of Emergency Management and Business Continuity will document each test, including the date, time.

UTSW Building Evacuation Procedures and Assembly Points

The evacuation of individuals from locations of likely or imminent danger may result from a wide variety of natural and technological disasters or national security emergencies. The scale of an evacuation may range from a single business unit, to an entire department. Furthermore, the length of time an evacuation is in effect may last from a less than an hour to an indefinite period of time.

There are several types of evacuations that might take place and include:

Partial Evacuation- Partial evacuation may be considered for small chemical, biological, or radiation spills or other small event that only affects an isolated area and can be easily contained.

Full Evacuation- Full evacuation is conducted for all fire alarms in business-occupancy rated locations.

Shelter in Place- Shelter in place is considered for severe weather events or other external events like a hazardous materials incident. If asked to shelter in place, secure yourself from the hazard and stay in place until an “all clear” signal is given.
University officials have numerous tools that will be used to inform the building occupants on what to do. These include:

- Fire alarm
- Door-to-door announcements
- Building Speaker System
- Mass Notification System

**How to Evacuate a Building**

There are two types of evacuation routes available on the UT Southwestern Medical Center campus:

1. Vertical (enclosed emergency exit stairwells)
2. Horizontal (exits into adjacent building on the same level)

In the event of an emergency requiring evacuation, all building occupants should evacuate using the emergency exit stairwells. Once in the stairwell, proceed to the ground level floor and exit the building. Once outside, move to at least 100 feet away from the building to a pre-determined, designated meeting place. If unable to use the stairwell due to physical or health reasons, use horizontal exits. If located in a building that does not have horizontal exits, relocate adjacent to, or in an enclosed exit stairwell taking care not to obstruct traffic flow and wait for assistance from emergency response personnel in the stairwell.

No matter which type of exit is used, all employees should report to their department’s pre-designated Assembly Point.

**Evacuation Assembly Points**

Departments should designate a meeting location called an "Assembly Point". These locations are at least 100 feet from the buildings involved. The assembly point should be pre-designated and its location should be communicated with all staff members prior to an emergency. Because the University has pre-selected some assembly points that may be used by multiple departments and groups, it is important that staff be instructed with specific location information or know whom they should be looking for when arriving at the assembly point.

Once there, evacuees should not leave this point unless they have consent of a supervisor, instructions from Police, or the location becomes a threat to life and safety.

For extended evacuations, evacuees may be moved to an “Alternate Safe Zone”. These locations are pre-identified public areas on campus that can house large numbers of people for easier dissemination of information until the “All clear” is given. Alternate Safe Zones will only be utilized when authorized by University Officials and is determined to be safe from any threat.

**Evacuation Accountability**

On arrival at the department’s assembly area, all evacuees should check-in with their supervisor. Using the Evacuation Accountability Form (http://www.utsouthwestern.net/intranet/administration/business-continuity/doclib/dept-evacuation-form.pdf), Department leaders will document evacuee’s arrival, and determine if any individuals are unaccounted for.

Employees should not leave the assembly area without the consent of a supervisor, instructions from emergency officials, or the location becomes a threat to life and safety. Once a count of departmental
staff is taken, a department representative will report the results to the Incident Command Post or designated emergency officials who are gathering this information. The accountability forms are also used to assess preparedness for the department and buildings.

**Mass Notification System**

The Mass Notification System used at UT Southwestern broadcasts text, and voice-mail messages to faculty, staff and students. In addition email will be used for weather alerts. UT Southwestern will, without delay, immediately notify the campus community upon the confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students, faculty, or staff occurring on the campus. Taking into account the safety of the community, the University will determine the content of the notification and initiate the notification system, unless issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency. After the initial notification, follow-up information may be disseminated to the community via the messaging system or by e-mail, as needed. Minimally, the system is tested once per year.

**Policy Statement for Mass Notification**

*Mass Notification System for Emergency Alerts*

**Reason for Policy** — Establish the guidelines by which the mass notification system will be used for distribution of emergency alerts to students, faculty, and staff that would be affected directly by a critical incident which poses an imminent threat to their health or safety given their presence on UT Southwestern grounds and/or its surrounding areas.

**Policy Statement** — UT Southwestern Mass Notification System is a commercial product that will send emergency communications (via phone, mobile, text or e-mail) to members of the campus community. This service is free of charge and will be utilized in campus emergencies or situations where information must be disseminated to all members of the campus quickly. The service is designed for those conducting regular UT Southwestern related business in the immediate area.

**Definition of Terms in Statement:**

**Emergency Alerts** — Notifications regarding critical incidents that pose an imminent threat to the health or safety of UT Southwestern’s community. Examples of such emergency incidents include, but are not limited to severe weather, hazardous materials incidents, and acts of criminal violence that broadly threaten the safety of the UT Southwestern community.

**Voice Messages and E-mail** — Brief, direct voice notifications received on a cellular phone or office phone, including e-mails for weather alerts, sent to the UT account and one other non-UT e-mail account.

**Annunciator System** — Most buildings are equipped with fire panel systems that have a public address capability. Emergency personnel are trained to use these systems in emergencies in order to make announcements to the entire building regarding evacuation, shelter in place, or other direction during an emergency.

**Creation and Distribution of Emergency Messages**

Designees from the following UT Southwestern offices have the authority to approve dissemination of emergency messages.
1. Office of the President
2. Office of the Executive Vice President for Business Affairs
3. Office of Business Continuity and Emergency Management
4. UT Southwestern Police Department

Once approved, emergency messages will be distributed by a trained system administrator to the campus community. Creation of Message templates (“standard messages”) have been reviewed and are in place.

Follow-Up after a Mass Notification Message is sent:

Notifications — Immediately after sending an emergency alert message, the designee who created the message shall notify the other designated offices via the Incident Command conference call and shall describe the purpose for activating the mass notification system if not immediately apparent. Generally, the UT Southwestern Police and/or the Office of Emergency Management and Business Continuity will confirm whether a threat is viable by engaging with other departments such as Environmental Health and Safety, and Physical Plant.

HIGHER EDUCATION OPPORTUNITY ACT
CAMPUS FIRE SAFETY ANNUAL COMPLIANCE REPORT

Overview
The Higher Education Opportunity Act (Public Law 110-315) became law in August 2008. The Act requires all United States academic institutions to produce an annual fire safety report outlining fire safety practices, standards, and all fire-related on-campus statistics. The following public disclosure report details all information required by this law as it relates to the UT Southwestern.

General Statement of UT Southwestern Student Housing
All student housing (Southwestern Medical Park Apartments) is protected by automatic fire sprinkler systems and fire alarm monitoring systems that are monitored 24 hours/day, seven days/week by an off-premise monitoring company. The automatic fire sprinkler systems and fire alarm systems are tested annually by a licensed fire protection vendor.

Fire Safety Improvements and Upgrades
UT Southwestern’s Environmental Health and Safety (EH&S) Fire Safety Program conducts building inspections and reviews the fire protection systems annually. Modifications or repairs to the systems are made promptly following the identification of any deficiencies.

Residence Hall Fire Drills
In accordance with the definitions of the 2012 edition of the National Fire Protection Association (NFPA) Life Safety Code (NFPA 101), the Southwestern Medical Park Apartments are occupied as apartment buildings, not dormitories. In accordance with the code, fire drills are not required.

Texas House Bill 1284
It is unlawful for a student to report or make a false alarm. The penalty for doing so is a State Jail Felony punishable by not less than 180 days nor more than two years in a state jail and/or a $10,000 fine.

Fire Life Safety Education
All of the tenants that move into Southwestern Medical Park Apartments are given a copy of the student handbook that contains information on fire safety and are required to sign an acknowledgement sheet confirming that they have received a copy. This handbook contains regulations, tips and procedures to follow in case of a fire emergency. Below are extracts of pertinent Housing Policies.

Candles - The use of candles, oil lamps, incense, or halogen “torchiere” lamps are prohibited in the interest of fire safety. In the event of a power outage, flashlights or other battery-operated lights should be used.

Fireworks and Explosives Prohibited - No person may possess fireworks, explosives, ammunition, gunpowder or any other related materials while in the apartment or anywhere on the University campus. The presence of fireworks and such materials is dangerous and constitutes a serious fire and safety hazard.

Space Heaters – Space Heaters shall be a maximum of 1500 watt, listed by Underwriters Laboratories (UL), have a tip-over switch, and plugged directly into a wall outlet. Combustible materials shall not be stored on top of space heaters or located within three (3) feet of the space heater, even when they are not in use.

The refusal of a student to accept delivery of the notice or the failure to maintain a current address with the registrar shall not be considered good cause for the student’s failure to respond to a summons.

5. Pending disposition of the allegations against the student, the associate dean for student affairs may take any immediate interim disciplinary action as he or she determines to be appropriate to the circumstances, including
   a. suspension and exclusion from the campus if it reasonably appears to the associate dean for student affairs, from the circumstances, that the continuing presence of the student poses a potential danger to persons or property, or a potential threat of disrupting any UT Southwestern activity; or

When to Make a Complaint or Report
Complaints or reports of sex discrimination should be submitted to the Title IX Coordinator or a Deputy Title IX Coordinator as soon as possible after the conduct giving rise to the complaint. Delay in making a complaint or report can greatly limit UT Southwestern’s ability to conduct an investigation, address the conduct, or take effective action against the alleged offender, if appropriate. In no case will a complainant be required to make a complaint or report of sex discrimination to the person accused of the conduct giving rise to the complaint.

Resolution Options
Any student, trainee, or applicant who believes that he or she has been subjected to sex discrimination in violation of EDU-116 may invoke the informal resolution process and, if not satisfied with that process, initiate a formal complaint, or may proceed directly to initiating a formal complaint. The informal resolution process is not a pre-condition for making a formal complaint.
However, both processes cannot be used at the same time and once an individual has made a formal complaint, the informal resolution process is no longer available.

**Informal Resolution Process**
This process may be used to seek resolution of possible sex discrimination when the complainant does not wish to bring a formal complaint or as a prelude to bringing a formal complaint. Individuals are not required to use this option, and may elect to end the informal resolution process at any time and begin the formal complaint process. The informal resolution process is not available to individuals alleging complaints of sexual violence.

1. A complainant wishing to utilize the informal resolution process should submit a written request to the Title IX Coordinator or a Deputy Title IX Coordinator. The written request to invoke the informal resolution process should describe in detail the nature of the conduct complained of and the desired outcome. A request to invoke the informal resolution process can be made verbally, but a written request is preferred.

2. The Title IX Coordinator or a Deputy Title IX Coordinator will work with the complainant to seek a resolution informally. Strategies for informal resolution may include notification to the respondent that his or her behavior is unwelcomed and should cease, action by an appropriate University official to address the conduct, or mediation. However, UT Southwestern may take more formal action, including disciplinary action, to ensure an environment free from sexual misconduct or harassment.

3. The informal resolution process should be completed within thirty (30) calendar days from receipt of a request for informal resolution.

4. If the complainant is not satisfied with the outcome of the informal resolution process, the complainant can bring a formal complaint in the manner outlined below.

**Formal Complaint Process**
This process may be used to seek resolution of possible sex discrimination when the complainant wishes to file a formal complaint.

1. To initiate a formal complaint, the complainant should submit to the Title IX Coordinator or a Deputy Title IX Coordinator a signed, written statement setting out the details of the conduct that is the subject of the complaint, including the complainant’s name, signature, and contact information; the name of the person directly responsible for the alleged conduct; a detailed description of the conduct or event that is the basis of the complaint; the date(s) and location(s) of the occurrence(s); the names of any witnesses to the occurrence(s); the resolution sought; and any documents or information that is relevant to the complaint.

2. While an investigation may begin on the basis of an oral complaint, the complainant is strongly encouraged to submit a written complaint. If the complaint is not in writing, the Title IX Coordinator or a Deputy Title IX Coordinator should prepare a written statement of what he or she understands the complaint to be and seek to obtain verification from the complainant.

3. The Title IX Coordinator or a Deputy Title IX Coordinator is responsible for investigating formal complaints. Within ten (10) working days after receipt of a complaint, the Title IX Coordinator or a Deputy Title IX Coordinator may either dismiss the complaint or initiate an investigation.

   A. A complaint may be dismissed without investigation if the facts alleged in the complaint, even if taken as true, do not constitute sex discrimination; the complaint fails to allege any facts that suggest sex discrimination occurred; or the appropriate resolution or remedy has already been achieved, or has been offered and rejected.
B. If it is determined that a complaint will not be investigated, the Title IX Coordinator or a Deputy Title IX Coordinator will send the complainant a notification letter explaining the decision.

C. The complainant may, within ten (10) working days of the notification, appeal the decision not to proceed with a complaint investigation to the Associate Dean. The written appeal must explain why the decision to dismiss the complaint was in error. The Associate Dean will respond within twenty (20) working days of receipt of the appeal. If the decision is overturned, the complaint will be sent back to the Title IX Coordinator or a Deputy Title IX Coordinator for investigation in accordance with the procedures outlined below. The Associate Dean’s decision is final.

4. If it is determined that a complaint will be investigated, the respondent shall be provided with a copy of the complaint and allowed the opportunity to respond verbally and/or in writing within a reasonable time. If the response is not in writing, the Title IX Coordinator or a Deputy Title IX Coordinator should prepare a written statement of what he or she understands the response to be and seek to obtain verification from the respondent.

5. The complainant and the respondent will have an equal opportunity to present any documents or other information that is believed to be relevant to the investigation of the complaint.

6. Persons reasonably thought to have relevant information will be interviewed and such interviews will be appropriately documented. Both the complainant and the respondent may recommend witnesses for interview and suggest questions that should be asked. However, neither the complainant nor the respondent may participate in interviews of witnesses.

7. The investigation should be concluded as soon as possible after receipt of the written complaint. In investigations exceeding sixty (60) calendar days, an explanation for the delay will be provided to the complainant and the respondent.

8. Within five (5) working days after completion of the investigation, the Title IX Coordinator or a Deputy Title IX Coordinator will send a written report to the Associate Dean. The report shall include a recommendation as to whether a violation of EDU-116 occurred, an analysis of the facts discovered during the investigation, recommended disciplinary action if any, and any recommended remedial action. Factual conclusions shall be based upon a “preponderance of the evidence” standard, i.e., it is more likely than not that a fact the complainant or respondent seeks to prove is true.

9. Written notification of the outcome of the investigation will be sent by the Associate Dean to the complainant and the respondent within ten (10) working days of the Associate Dean’s receipt of the report. The complainant and the respondent have seven (7) working days from the date of the notification letter to submit written comments to the Associate Dean regarding the investigation and outcome. However, if the complaint is against a student, the contents of the notification letter will be in accordance with the Family Education Rights and Privacy Act’s (FERPA) restrictions on disclosure of educational records and neither the complainant nor the respondent will be permitted to provide comments to the Associate Dean.

10. Within twenty (20) working days after receiving any comments submitted by the complainant or respondent, the Associate Dean will take one of the following actions: (1) request that the Title IX Coordinator or a Deputy Title IX Coordinator conduct further investigation into the complaint; (2)
dismiss the complaint if the results of the completed investigation are inconclusive or there is not a preponderance of the evidence to support the facts that form the basis of the complaint; or (3) find that EDU-116 was violated. A decision that EDU-116 was violated shall be made upon the record provided by the investigation, any comments submitted by the complainant or respondent, and the totality of the evidence and circumstances surrounding the conduct complained of, including but not limited to the context of the conduct, its severity, its frequency, and whether it was physically threatening, humiliating, or was simply offensive in nature. Factual conclusions shall be based upon a “preponderance of the evidence” standard, i.e., it is more likely than not that a fact the complainant or respondent seeks to prove is true.

11. If the Associate Dean determines that EDU-116 was violated, he or she will refer the matter for possible disciplinary action in accordance with the applicable disciplinary procedures.

12. The complainant and the respondent will be informed in writing of the Associate Dean’s decision, which should include a final statement of findings. However, if the complaint is against a student, then the contents of the decision letter will be in accordance with the Family Educational Rights and Privacy Act (FERPA).

13. Either party may appeal the Associate Dean’s decision within five (5) working days to the Provost. The appeal must be in writing and must set forth the reasons why the Associate Dean’s decision was in error. A copy of the written statement of appeal shall then be provided to the non-appealing party, who shall have an additional five (5) working days in which to submit a written response to the Provost.

14. The Provost’s review of the appeal shall be limited to the investigation report, related documents, and any written appeal statements timely received. The Provost will make a determination within twenty (20) working days of the date the written appeal was received or the date any response from the non-appealing party was received, whichever is later. Written notice of the Provost’s decision will be sent to the complainant and respondent. However, if the complaint is against a student, then the contents of the decision letter will be in accordance with FERPA. If the Provost determines that EDU-116 was violated, the Provost will refer the matter for possible disciplinary action in accordance with the applicable disciplinary procedures. The Provost’s decision is final.

Provisions Applicable to the Informal Resolution and Formal Complaint Processes

1. A complainant or respondent may be assisted by a person of his or her choice, who may be an attorney; however, the assistant may not examine witnesses or otherwise actively participate in a meeting or interview.

2. Time limitations in these procedures may be modified at the discretion of the Title IX Coordinator, Deputy Title IX Coordinator, Associate Dean, or Provost for good cause shown by the complainant, the respondent, or UT Southwestern.

3. Criminal or civil proceedings may continue concurrently with the informal resolution and formal complaint processes outlined herein. Criminal or civil justice investigations, proceedings, findings, or outcomes are not determinative of either the procedures described herein or any UT Southwestern disciplinary procedures. UT Southwestern will not wait for police investigations or criminal or civil justice proceedings to be completed before taking action under this procedure, as UT Southwestern has an independent duty to respond to complaints of sex discrimination.

4. In both the informal resolution and formal complaint processes, UT Southwestern will take steps to prevent recurrence of any sex discrimination and to correct its effects on the complainant and others, as appropriate.
5. UT Southwestern shall document the informal resolution and formal complaint processes and their outcomes and retain copies of all materials in accord with federal and state law and UT Southwestern policy. The Title IX Coordinator shall retain such documentation separately from complainants’ and respondents’ official UT Southwestern files and will release such documentation only as permitted by law.

6. Any person who knowingly and intentionally files a false complaint or provides false information in the course of an investigation under this policy will be subject to disciplinary action, up to and including dismissal or non-renewal of appointment.

Confidentiality
UT Southwestern will attempt to find the right balance between the complainant’s desire for privacy and confidentiality and the responsibility to provide an environment free from sex discrimination. If the complainant requests that his or her name or other identifiable information not be revealed, UT Southwestern will evaluate that request in the context of UT Southwestern’s responsibility to provide a safe and nondiscriminatory environment. UT Southwestern may weigh the complainant’s request for confidentiality against multiple factors, including but not limited to: the seriousness of the alleged misconduct; whether there have been other complaints about the same individual; and the respondent’s right to receive information about the allegations, in accordance with federal and state law.

Retaliation Prohibited
Retaliation is strictly prohibited. Any person who retaliates in any way against an individual who brought a complaint or participated in an investigation under this procedure will be subject to disciplinary action, up to and including dismissal or non-renewal of appointment. Complaints of retaliation against students, trainees, or applicants should be brought to the Title IX Coordinator or a Deputy Title IX Coordinator in the manner set forth in this procedure.
