Stroke Symposium  
Saturday, November 10, 2012 • UT Southwestern

**Audience**
This course is designed for Primary Care Physicians, Internists, APNs, PAs, RNs, EMTs, and Allied Health Professionals with an interest in stroke.

**Purpose & Content**
This symposium will explain and explore novel approaches of acute clinical stroke care, including the role of glycemic management and the knowledge to date leading into the upcoming SHINE Phase III Trial; review of other recently completed trials; a detailed review of neuroimaging; current research and approaches in stroke recovery; pediatric stroke; and the importance of spiritual dynamics and community support.

**Objectives**
- **Identify** the risk factors for pediatric stroke
- **Define** common misidentification and the problems with care delay
- **Explore** treatments for pediatric stroke
- **Explain** current research and future trial questions
- **Analyze** patient and family emotional and spiritual response to stroke
- **Demonstrate** a better understanding of the challenges faced by stroke survivors
- **Illustrate** four basic questions of patients and/or caregivers
- **Examine** new treatments for stroke recovery
- **Review** of current evidence-based medicine for diabetes in acute stroke
- **Describe** upcoming Phase III SHINE Trial: identifying more strategies of care
- **Report** options for acute neuroimaging
- **Discuss** the benefits of MRI imaging
- **List** the risk and benefits of CT
- **Recognize** the different risk factors for stroke in the pediatric population
- **Identify** the sequences for multi-modal imaging in acute stroke
- **Debate** the rationale for different treatment protocols in children with stroke
- **Report** the different presentations for stroke and stroke mimics in the pediatric population
- **Discuss** the potential for improved outcomes for children with stroke compared to adults

**Accreditation**
UT Southwestern Medical Center is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Speakers have been requested to inform the audience when there may be “off-label” use discussed in the presentations.

Nurses: because this course is meant to educate providers with what may affect the speaker’s presentation(s). Each speaker should be made aware of any affiliation or financial interest. It is UT Southwestern’s policy that participants in CME activities complete and sign a conflict of interest statement. The faculty members’ relationships will be disclosed in the course syllabus.

Discussion of Off-Label Use
Because this course is meant to educate providers with what is currently in use and what may be available in the future, there may be “off-label” use discussed in the presentations. Speakers have been requested to inform the audience when off-label use is being discussed.

Stroke: The Full Spectrum Agenda
November 10, 2012

7:30-8:00 am Registration & Continental Breakfast

8:00 am Welcome
Mark Johnson, MD

8:05-8:45 am PediStroke
Michael Dowling, MD, PhD, MScS

8:45-9:30 am The Human Side of Stroke, MS
Johnny Taylor, MRE, BCC, Tracy Dux, LCSW

9:30-10:15 am Latest in Stroke Neuroimaging
Alejandro Magadan, MD

10:15-10:30 am Break

10:30-11:15 am Translational Research Application in Stroke
Mark Goldberg, MD

11:15-12:00 pm Emerging Treatments in Stroke Recovery
Timea Hodics, MD

12:00-12:30 pm Lunch

12:30-12:45 pm Video

12:45-1:30 pm Diabetes in Acute Stroke
Christiana Hall, MD

1:30-2:00 pm Q/A Panel:
Mark Goldberg, MD; Mark Johnson, MD; Alejandro Magadan, MD; Christiana Hall, MD

Registration
The registration fee entitles the participant to admission to the conference, all course materials, continental breakfast, and refreshment break during the meeting. Enrollment is confirmed upon receipt of registration fee. We are unable to process any registration without payment. Please register early. We cannot guarantee course materials on-site to anyone registering later than November 2, 2012.

Location
UT Southwestern Medical Center
T. Boone Pickens Biomedical Building Auditorium
6001 Forest Park Road
Dallas, TX 75355

Additional Information
