The Department of Molecular Biology at the University of Texas Southwestern Medical Center invites applications for tenure track Assistant Professor positions. We are seeking interactive individuals with strong research programs focused on mechanistic aspects of gene regulation, cell growth and differentiation, development, and stem cell biology, including the use of iPS cells to study reprogramming during development and disease. Attractive recruitment packages, state-of-the-art core facilities, and exceptional laboratory space are available. UT Southwestern has a vibrant graduate program and an atmosphere of collegiality and collaboration.

Applicants should submit a curriculum vitae containing a summary of past research accomplishments, a statement of future objectives, and names of three references via email to:
