CELL SIGNALING IN DEVELOPMENT AND REGENERATION

A postdoctoral position is available in the laboratory of Jin Jiang, Ph.D., in the Department of Molecular Biology of UT Southwestern Medical Center to study stem cell biology and adult tissue regeneration. The Jin Jiang lab has several exciting projects related to identifying and characterizing new genes that regulate developmental signaling, tissue growth and organ size, stem cell self-renewal and proliferation, tissue homeostasis and regeneration. Candidates must hold a Ph.D. and/or M.D. degree. Experience in genetics, molecular biology, cell biology, or biochemistry leading to publication in peer-reviewed journals is recommended. Interested individuals should send a CV, statement of interests, and a list of three references to:

Jin Jiang, Ph.D.
UT Southwestern Medical Center
5323 Harry Hines Blvd.
Dallas, TX 75390-9148
