Molecular Imaging as a Cancer Biomarker

David Mankoff, MD, PhD
Gerd Muehllehner Professor of Radiology
University of Pennsylvania Health System

Educational Objectives:
At the conclusion of this activity, the participant should be able to:
1. Describe emerging molecular imaging methods.
2. List biomarker applications of molecular imaging.
3. Discuss future applications of cancer imaging biomarkers.

Purpose & Content:
To describe how advances in molecular imaging lead to biomarkers that can guide therapy.

Target Audience:
Faculty, Fellows, Residents, and Support Staff

Sponsored by:
The Department of Radiology and Office of Continuing Medical Education
The University of Texas Southwestern Medical Center

Course Director: Diane Twickler, MD, FACR

Accreditation: The University of Texas Southwestern Medical Center is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Credit Designation: The University of Texas Southwestern Medical Center designates this live activity for a maximum of 1 AMA PRA Category 1 Credit™. Physicians should only claim credit commensurate with the extent of their participation in the activity.
