August 2013

This is a general information publication only. It is not intended to, nor does it, contain all regulations that relate to students. This catalog, although revised periodically, cannot always reflect up-to-the-minute changes or developments in programs of UT Southwestern School of Health Professions. Contents of the catalog are therefore subject to revision without notice. Changes will become effective whenever the proper authority so determines and will apply to both prospective students and those already enrolled.

The University of Texas Southwestern Medical Center reserves the right to withdraw courses at any time and change tuition or fees, rules, calendar, curriculum, degree programs, degree requirements, graduation procedures, and any other requirement affecting students. The provisions of this catalog do not constitute a contract, express or implied, between any applicant, student, or faculty member and The University of Texas System, The University of Texas Southwestern Medical Center, or UT Southwestern School of Health Professions.

It is the goal of UT Southwestern that its campus be accessible to people with physical disabilities and free from unnecessary physical barriers. Individual requests for accommodations will be reviewed by the program to which the student applies and, if necessary, by the campus-wide Rehabilitation Task Force, which may be contacted through the Office of the Registrar.

UT Southwestern is a component of The University of Texas System and is subject to the *Rules and Regulations* of the Board of Regents of The University of Texas System.

To the extent provided by applicable law, no person shall be excluded from participation in, denied the benefits of, or be subject to discrimination under any program or activity sponsored or conducted by The University of Texas System or any of its component institutions on the basis of race, color, national origin, religion, sex, age, veteran status, or disability.

Susan L. Kapp, M.Ed., C.P.O., L.P.O.

Program Director, Prosthetics-Orthotics

Marissa Johnson, MSRS, R.T.(T),

Program Director, Radiation Therapy

PURPOSE

UT Southwestern School of Health Professions has several leadership responsibilities within the Medical Center. Its primary function is the academic preparation of health professionals at various levels: post-baccalaureate certificate, masters, and doctorate. In doing so, its faculty also provides structured preparation for students in clinical settings, offers high-quality patient care and client services, and takes part in ongoing research and professional development.

The mission of the School of Health Professions is to:

- 1) Prepare health professionals of the highest quality to meet the needs of the health care system in Texas;
- 2) Advance knowledge of the health professions through the development and maintenance of research programs related to health care;
- 3) Consult, provide services and collaborate with other institutions and agencies to meet the health care delivery and health-education needs of the citizens of Texas through interdisciplinary education and promotion of comprehensive health care; and
- 4) Contribute to the continued growth and development of the health professions and the reduction of barriers to vertical and horizontal career mobility through the development of continuing education, retraining programs, and other appropriate means.

The Medical Center setting in which the school is located provides rich resources for achieving these goals. Highly respected basic and medical scientists are available to present special lectures and to consult and collaborate with members of the faculty. Clinical training facilities at teaching

hospitals and affiliated institutions are readily available. In the outstanding academic environment provided by the Medical Center, the faculty members of the school expand their training through research and service activities.

Since the school's administration and faculty recognize the importance of community service, they work actively to publicize career opportunities in health care, to recruit students of varied backgrounds and all races to prepare for health careers, and to respond to the changing needs of the health care workforce.

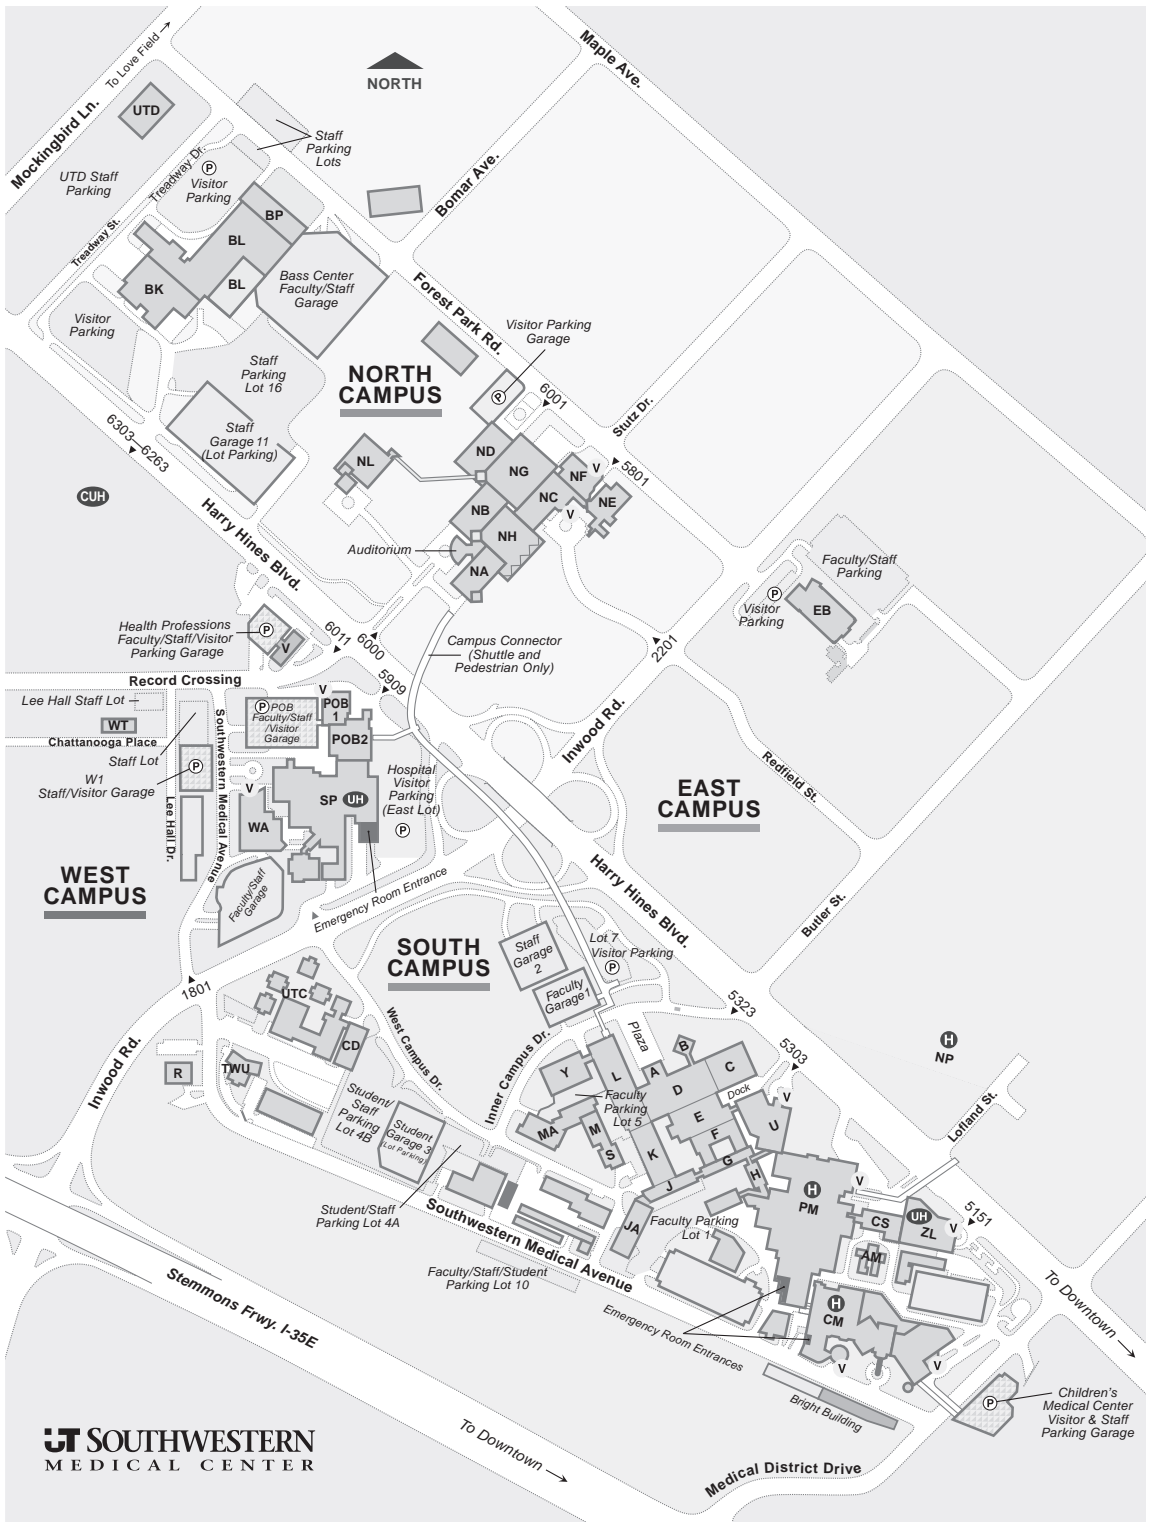

While the school seeks to provide the most suitable environment for learning, it cannot guarantee any individual's progress or opportunities for employment.

ACADEMIC CALENDAR

The academic year at UT Southwestern School of Health Professions consists of three sessions. Most commonly, clinical work is accomplished during the summer term, but some programs also schedule class work during that period.

The fall semester begins on the third or fourth Monday in August. The spring semester begins on the first or second Monday in January. The summer term begins on the third or fourth Monday or Tuesday in May. Because of their diversity, not all programs operate on the same calendar schedule, and the student is urged to become familiar with the dates for his or her program. Commencement is held in December.

The Office of the Registrar publishes a detailed calendar each August. The student is urged to refer to it for current information.
