UT Southwestern Medical Center

U T Southwestern Medical Center ranks among the top academic medical centers in the world. Its faculty members, who are responsible for a broad array of groundbreaking biomedical research advances, are respected for their dedication to teaching. UT Southwestern’s physicians provide patients with the highest quality of care throughout the Medical Center’s outpatient clinics and affiliated hospitals. 

Since its formation in 1943, UT Southwestern has grown from a small wartime medical college into a multifaceted academic institution nationally recognized for its excellence in educating physicians, biomedical scientists, and health care personnel.

Under the leadership of the late Dr. Edward H. Cary and Karl Hoblitzelle, a group of prominent Dallas residents organized Southwestern Medical Foundation in 1939 to promote medical education and research in Dallas and the region. When Baylor University elected to move its school of medicine from Dallas to Houston in 1943, the foundation formally established Southwestern Medical College as the 68th medical school in the United States.

When a new state medical school was proposed after World War II, leaders of Southwestern Medical Foundation offered the college’s equipment, library, and certain restricted funds to The University of Texas, provided the university would locate its new medical branch in Dallas. The Board of Regents accepted this offer, and in 1949 the college became Southwestern Medical School of The University of Texas. In 1954 the name was changed to The University of Texas Southwestern Medical School. The present campus site was occupied in 1955 upon the completion of the Edward H. Cary Building. This placed the Medical School next to the newly built Parkland Memorial Hospital.

In November 1972 the name and scope of the Medical School were changed with its reorganization into The University of Texas Health Science Center at Dallas. In approving the concept of a health science center, the Board of Regents provided for the continued growth of coordinated but separate medical, graduate, and undergraduate components, interacting creatively on the problems of human health and well-being.

In 1986 the Howard Hughes Medical Institute opened a research facility on the campus. Concentrating on molecular biology, it has brought outstanding scientists to head laboratories in their specialties. These investigators also hold faculty positions in the basic science departments of the Medical School and Graduate School.

In October 1987 the UT System Board of Regents approved changing the name of the health science center to The University of Texas Southwestern Medical Center at Dallas, reconfirming its original Southwestern identity. The Medical Center encompasses UT Southwestern Medical School, UT Southwestern Graduate School of Biomedical Sciences, and UT Southwestern School of Health Professions.

UT Southwestern is located on Harry Hines Boulevard, a 10-minute drive northwest of downtown Dallas. Since the late 1960s the institution has added more than 6 million square feet of new construction. The South Campus includes 20 buildings housing classrooms, laboratories, offices, an extensive medical library, an auditorium, a large outpatient center, and Zale Lipshy University Hospital.

In 1987 the John D. and Catherine T. MacArthur Foundation gave the Medical Center 30 acres near the South Campus for future expansion. In 1999 the University purchased additional acres from the MacArthur Foundation. The 90-acre site, named the North Campus, has five research towers plus the Bill and Rita Clements Advanced Medical Imaging Building and the W.A. Monty & Tex Moncrief Radiation Oncology Building. The Biomedical Research Building houses the UT Southwestern Graduate School of Biomedical Sciences, as well as the Dermatology, Cell Biology, and Microbiology departments, and the Rolf and Ute Haberecht Administration and Academic Center.

In January 2005, Zale Lipshy and St. Paul University Hospitals consolidated under the ownership of UT Southwestern. Two teaching hospitals, Parkland Memorial Hospital and
Children’s Medical Center Dallas, also adjoin the South Campus.

The West Campus, located across Inwood Road from the South Campus and across Harry Hines Boulevard from the North Campus, includes the UT Southwestern School of Health Professions Building; St. Paul; and several outpatient facilities, including the seven-story Outpatient Building. The West Campus also is the construction site of a new $800 million state-of-the-art clinical facility – the William P. Clements Jr. University Hospital. Slated to open in late 2014, the 12-floor, 460-bed hospital will offer patients and medical personnel world-class facilities and technologies, and will support the Medical Center’s commitment to clinical and translational research, as well as education and training, reflecting all three core missions.

In 2008 the Medical Center acquired Exchange Park, a 24-acre office complex next to the North Campus. UT Southwestern now encompasses approximately 10.9 million square feet of laboratory, clinical, educational, and administrative space and covers 390 acres.

UT SOUTHWESTERN SCHOOL OF HEALTH PROFESSIONS

In 1968 Charles C. Sprague, then Dean of The University of Texas Southwestern Medical School, initiated the planning for a new School of Allied Health Professions in Dallas. Dr. Richard D. Burk, Chairman of the Department of Physical Medicine and Rehabilitation, was named the first Dean of the school in February 1969. Under his leadership and with the assistance of Associate Dean Harry J. Parker, students were first enrolled in baccalaureate programs for the 1970-71 academic year in Medical Technology, Physical Therapy, and Rehabilitation Science, and in a post-baccalaureate Dietetic Internship.

Dr. John W. Schermerhorn was appointed Dean in August 1971. He was succeeded by Dr. William J. Gonyea in November 1985. In 1988 Dr. Vernie A. Stembridge assumed duties as interim Dean. Dr. Gordon Green was appointed Dean in January 1991. In August 2006 Dr. Raul Caetano became Dean. In 2008 the school was renamed the UT Southwestern School of Health Professions.

The school originally was housed in Methodist Hospital’s School of Nursing facilities. From August 1973 until June 1983 it occupied facilities at 6003 Maple Ave. In 1983 the school relocated to the Locke Building, 6011 Harry Hines Blvd. The building subsequently was remodeled and renamed The University of Texas Southwestern Allied Health Sciences School Building (now the UT Southwestern School of Health Professions Building). Permanent facilities in the building include classrooms, clinics, laboratories, and administrative offices for most departments of the School of Health Professions.

ACCREDITATION

UT Southwestern Medical Center is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award the master’s (M.A./M.S./M.S.C.S./M.P.A.S./M.P.O.), doctoral (Ph.D./D.P.T.), and medical professional (M.D.) degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097 or call 404-679-4500 for questions about the accreditation of UT Southwestern Medical Center. The commission is to be contacted only if there is evidence that appears to support UT Southwestern’s significant noncompliance with a requirement or standard.

The Clinical Nutrition Program is granted accreditation by the Accreditation Council for Education in Nutrition and Dietetics of the Academy of Nutrition and Dietetics.

The Paramedic Program from El Centro College is accredited by the Commission on Accreditation of Allied Health Education Programs in conjunction with the Committee on Accreditation for Educational Programs for the EMS Profession.

The Doctor of Physical Therapy Program is accredited by the Commission on Accreditation in Physical Therapy Education.

The Master of Physician Assistant Studies Program is accredited by the Accreditation Review Commission on Education for the Physician Assistant.

The Prosthetics-Orthotics Program is
accredited by the National Commission on Orthotic and Prosthetic Education.

The Radiation Therapy Program is accredited by the Joint Review Committee on Education in Radiologic Technology.

The Master of Rehabilitation Counseling Program is accredited by the Council on Rehabilitation Education.

**Buildings**

**South Campus**

**The James W. Aston Ambulatory Care Center** is an outpatient facility where faculty members see patients referred by private physicians. This nine-floor clinical center provides residents, students, and faculty with access to a broad spectrum of illnesses and patient needs. Laboratory and X-ray services are available in the building so that most services can be provided during a single patient visit.

**The Edward H. Cary Building**, the first permanent building of the medical school, is a five-level structure housing facilities of the departments of Anesthesiology and Pain Management, Dermatology, Internal Medicine, Neurology and Neurotherapeutics, Pediatrics, and Plastic Surgery.

**The Dan Danciger Research Building** houses the Harry S. Moss Heart Center and the clinical laboratories and research offices for the departments of Internal Medicine, Neurological Surgery, Obstetrics and Gynecology, Orthopaedic Surgery, Pathology, Pediatrics, Radiation Oncology, and Surgery.

**The Fred F. Florence Bioinformation Center** houses Biomedical Art Services, the Division of Biostatistics, the Alfred W. Harris Faculty-Alumni Center, the Library, and the Medical Television Center. Clinical Sciences, Internal Medicine, Ophthalmology, Pediatrics, Plastic Surgery, Radiology, and Surgery have office and laboratory space in the seven-story building.

**The Tom and Lula Gooch Auditorium** seats 1,200 in a ground-level auditorium offering excellent acoustics and projection equipment. On a lower level it houses the Gallery Cafeteria with food court, additional dining-seminar rooms, and the University Store.

**The Cecil H. and Ida Green Biomedical Research Building**, a nine-story building, houses a number of specialized interdisciplinary research centers, including the Center for Human Nutrition and the Gifford Laboratories for
Diabetes Research. It also contains offices and laboratories for Biochemistry and Internal Medicine.

**THE CECIL H. AND IDA GREEN SCIENCE BUILDING** is the largest building on the South Campus. The Green Science Building houses major research facilities for the departments of Biochemistry, Cell Biology, Internal Medicine, and Molecular Genetics. A major portion of the building is devoted to individual multipurpose laboratories for use by students.

**THE KARL HOBITZELLE CLINICAL SCIENCE BUILDING**, a nine-level building, contains principal offices and laboratories of major clinical departments, including Dermatology, Internal Medicine, Obstetrics and Gynecology, Orthopaedic Surgery, Otolaryngology - Head and Neck Surgery, Pathology, Pediatrics, Radiology, and Surgery.

**THE PHILIP R. JONSSON BASIC SCIENCE RESEARCH BUILDING** adjoins the Green Science Building. The five-level facility is an important research location for the departments of Biochemistry, Cell Biology, Internal Medicine, and Pediatrics. This building also houses facilities for electron and light microscopy and the Office of Medical Education.

**THE EUGENE MCDERMOTT ACADEMIC ADMINISTRATION BUILDING**, a landmark 12-level structure, gives the South Campus a striking focal point and houses major administrative offices and departments. These include the offices of the president and vice presidents of the Medical Center and the deans of the Medical School. The campus cashier’s office is located on the first floor.

**THE EUGENE MCDERMOTT PLAZA** is the architectural center of the South Campus, affording scenic outdoor access between buildings. Below the plaza are the Medical Center’s principal teaching facilities, including four large lecture halls arranged in a circle around a central audiovisual core. A student lounge area faces a sunken garden with a pool and fountain, part of the Margaret and Erik Jonsson Gardens.

Also on the lower level are Client Services, a student snack area, and academic classrooms.

**THE ALGUR H. MEADOWS DIAGNOSTIC IMAGING CENTER**, a 1½-story facility, serves patients at UT Southwestern Medical Center and Parkland Memorial Hospital. It houses three magnetic resonance imaging units for clinical diagnosis, as well as for medical education and research. The center’s funding includes support from the Meadows Foundation of Dallas.

**THE HARRY S. MOSS CLINICAL SCIENCE BUILDING** provides office and laboratory space for major clinical departments and principal research centers. Housed in its eight levels are facilities for Cell Biology, Internal Medicine, Neurology and Neurotherapeutics, Obstetrics and Gynecology, Pediatrics, and Urology.

**THE SKILLERN BUILDING**, a one-story building adjacent to the Bryan Williams, M.D. Student Center at the west end of the Eugene McDermott Plaza, houses the offices of the Registrar, Student Financial Aid, and Student and Alumni Affairs.

**THE CHARLES CAMERON SPRAGUE CLINICAL SCIENCE BUILDING** is interconnected with two hospitals on the South Campus: Parkland Memorial Hospital and UT Southwestern Zale Lipshy University Hospital. The Sprague Building houses clinical faculty in the departments of Anesthesiology and Pain Management, Internal Medicine, Neurological Surgery, Neurology and Neurotherapeutics, Physical Medicine and Rehabilitation, Psychiatry, Radiology, and Surgery.

**THE BRYAN WILLIAMS, M.D. STUDENT CENTER** named for a longtime faculty member and former associate dean for student affairs, includes a gymnasium, multipurpose rooms, an indoor jogging track, racquetball courts, a conditioning room with weights and exercise equipment, and locker and shower facilities.
Human Resources; the UT Southwestern Police; the Department of Communications, Marketing, and Public Affairs; and programs in Biomedical Communications; Clinical Psychology; Emergency Medicine Education; and Psychiatry.

**THE BIOMEDICAL RESEARCH BUILDING** is the newest addition to the North Campus. The Children’s Medical Center Research Institute at UT Southwestern is on the top floors of the building. The tower also houses the departments of Dermatology, Cell Biology, and Microbiology, as well as the UT Southwestern Graduate School of Biomedical Sciences’ Rolf and Ute Haberecht Administration and Academic Center.

**THE BILL AND RITA CLEMENTS ADVANCED MEDICAL IMAGING BUILDING** is the first structure on the North Campus houses clinical and research facilities for Radiology, Psychiatry, the Mary Nell Imaging and Ralph B. Rogers Magnetic Resonance Center and the UT Southwestern Advanced Imaging Research Center.

**THE NANCY B. AND JAKE L. HAMON BIOMEDICAL RESEARCH BUILDING** adjoins the Simmons Biomedical Research Building and the Prothro Plaza. This eight-level building houses facilities for Neuroscience, Immunology, Microbiology, Molecular Biology, the Nancy B. and Jake L. Hamon Center for Basic Research in Cancer, and the Eugene McDermott Center for Human Growth and Development.

**THE W.A. MONTY AND TEX MONCRIEF RADIATION ONCOLOGY BUILDING**, adjacent to the Seay Biomedical Building, offers state-of-the-art radiation therapy and research equipment. It also houses the Department of Radiation Oncology.

**THE T. BOONE PICKENS BIOMEDICAL BUILDING**, the largest building on the North Campus, houses offices and laboratories for Biochemistry, Developmental Biology, Neurology and Neurotherapeutics, Pharmacology, Physiology, the Cecil H. and Ida Green Center for Reproductive Biology Sciences, the Howard Hughes Medical Institute, and the Harold C. Simmons Comprehensive Cancer Center. The building also houses a food court, a store, and an annex to the Library.

**THE SEAY BIOMEDICAL BUILDING** adjoins the Simmons Biomedical Research Building and the Prothro Plaza and houses clinical facilities for Internal Medicine, Psychiatry, and Surgery. Also located in the eight-story building are Radiation Oncology research facilities, the Sarah M. and Charles E. Seay Center for Basic and Applied Research in Psychiatric Illness, the Simmons Comprehensive Cancer Center, and the UT Southwestern Center for Breast Care.

**THE SIMMONS BIOMEDICAL RESEARCH BUILDING**, in honor of Reuben Leon and Fairess Clark Simmons, was the first research tower built on the North Campus. The 11-story building houses the Excellence in Education Foundation Auditorium, the Simmons Comprehensive Cancer Center administrative offices, and research-grant support services. Major research facilities include Neuroscience, Developmental Biology, the Nancy B. and Jake L. Hamon Center for Therapeutic Oncology Research, the Komen/UT Southwestern Breast Cancer Research Program, the Cancer Immunobiology Center, and the Eugene McDermott Center for Human Growth and Development.

**WEST CAMPUS**

**THE OUTPATIENT BUILDING** is located adjacent to UT Southwestern St. Paul University Hospital. This seven-story building houses world-class facilities that include a surgical center, radiology imaging services, and overnight guest suites, in addition to clinics, physician offices and diagnostic services. Clinics and academic offices for Orthopaedic Surgery, Plastic Surgery, Physical Medicine and Rehabilitation, General Surgery, and Internal Medicine are located in the Outpatient Building.

**THE UT SOUTHWESTERN SCHOOL OF HEALTH PROFESSIONS BUILDING** houses programs in Clinical Nutrition, Radiation Therapy, Rehabilitation Counseling, Physician Assistant Studies, Physical Therapy, and Prosthetics-Orthotics, as well as the offices of the dean and...
administration. Offices for the UT Health Science Center at Houston’s School of Public Health, Dallas, M.P.H. program are also located in this building.

**Facilities and Services**

Although an open campus, the facilities and services at UT Southwestern are not open for general-public use.

**The Animal Resources Center** is responsible for the production, procurement, conditioning, maintenance, and health status of animals used for experiments throughout the Medical Center. In addition, the ARC provides experimental surgical facilities to support animal research programs.

Faculty and staff are available for consultation and guidance in the selection and use of animal models for research and teaching, and for the sources of specific species and strains.

**The Bioinstrumentation Resource Center** provides engineering and technical staff to help design and fabricate biomedical and scientific instrumentation and equipment, develop laboratory automation and data-acquisition systems, and consult on the specification and application of laboratory instrumentation. This research-support service center also offers calibration, testing, maintenance, and repair of laboratory equipment. Microcomputers and software programming for laboratory instrument control and engineering simulations also can be obtained through the center.

**The Division of Biostatistics** provides professional consulting and programming in statistical analysis and database management on a fee basis and instruction in the use of statistical software for the faculty, staff, and students at UT Southwestern and affiliated institutions. Assistance is available to investigators (one hour at no charge) preparing proposals for IRB or IACRAC review.

Statistical consultants provide expertise for design and analysis of simple and complex research studies. Database consultants work on a variety of projects, including determining the best data management approach for a project, selecting an appropriate computer platform, designing a database, creating custom programs for data entry, developing reporting procedures, and retrieving information for subsequent statistical analysis. Faculty offer short courses on statistical and computing topics.

Programmers are available to design websites to support research tasks, including web-based data access, interactive web forms, and other programmable web tasks. The division also offers campus site licenses for SAS software. Technical support is provided for some computer-based statistical analysis programs, including SAS.

The division is responsible for campus testing and evaluation services and also provides expertise in creating and reading scannable forms.

**Information Resources** provides computing, voice, audiovisual, and data-communication services to the UT Southwestern campus, including the hospitals and clinics. IR includes the following services: Administrative Computing manages data-center operations, a centralized operating-systems group; and the development of all administrative computing systems. Client Services oversees the UT Southwestern Help Desk and systems training. The development, management, and procurement of health care-
related systems are managed by Clinical Information Services. Video production and teleconferencing are produced by IR’s Medical Television Center. Network Services designs and manages an extensive data-communication network, including local-area/wide-area networks, connectivity to affiliated institutions, Internet, and Internet2.

Information Resources works with UT Southwestern’s information security officer to manage a comprehensive information security program as an integral component of all computing and communications activities. This program includes education, central access administration, disaster recovery and the formulation of information security policies and procedures.

INTERNATIONAL AFFAIRS helps acquire and maintain valid visa status for noncitizen scholars, students, teachers, researchers, and other employees. Immigration law is complex and changeable. Care is required to bring a person to UT Southwestern with the appropriate documents. International Affairs should be contacted a minimum of four months prior to an international student’s first day of orientation to allow for procession of visa documents, visa stamp application, and timely arrival on campus. For additional information, visit www.utsouthwestern.edu/international.

THE LIBRARY offers a wide range of traditional and digital information services to members of the campus community. With facilities on both the North and South campuses, the Library is open for study, research, and exploration 24 hours a day, seven days a week, with staff available for assistance 68 hours per week. The North Campus Branch Library is also open 24 hours a day, seven days a week with campus ID card access. The Library’s extensive website (www.utsouthwestern.edu/library) is always available. Students have access to more than 30,000 full-text electronic journal subscriptions and 20,000 electronic books, as well as a variety of full-text databases and other information, such as Scopus and Elsevier’s SciVerse.

A computer commons offers convenient access to online curriculum materials and productivity software. There are more than 30 enclosed individual study carrels and 17 group study rooms with computers and white boards, along with open tables and carrels. The Library’s collection of biomedical and scientific journals, books, videotapes, audio tapes, CD-ROMs, and academic reserve materials are carefully selected to encourage self-directed study. The Library offers courses to graduate students, and individual instruction and other classes also are available.

The Library participates in regional and national consortia and networks, which speed interlibrary loan service for books and journal articles, either print or electronic. TexShare cards enabling students to borrow materials from other colleges and some public libraries in Texas are available at the Library’s information desk.

THE OFFICE OF MEDICAL EDUCATION provides academic support services and programs for UT Southwestern’s three schools. For graduate students, Student Academic Assistance Services in the OME has a staff learning specialist, Dr. JoyLynn Reed, who provides consultation to teach learning skills, perform screening for learning deficits, provide strategies for test-taking, and improve general academic performance.

STUDENT HEALTH AND STUDENT MENTAL HEALTH SERVICES, located in the Aston Building, help to maintain and promote good health among all students at UT Southwestern. Care is available for students with medical or emotional problems.

Students may call Student Health Services at 214-645-8690. A health care provider is available full time by appointment. Students may call Student Mental Health Services confidentially at 214-645-8680 for an appointment with a psychiatrist. The staff will arrange for hospital or specialty care for a student when indicated.

After hours and during weekends and holidays, students may call 214-645-8690 to reach the physician on call in General Internal Medicine. If a student is experiencing a medical emergency, he or she should report to the Emergency Care Center at St. Paul University Hospital or any emergency room of choice and identify himself or herself as a student of this
institution. For urgent mental health care, call 214-645-8680 to reach the psychiatrist on call.

The cost of services provided by the staff of Student Health and Student Mental Health Services is covered by a portion of the student services fee and medical services fee. However, payment for hospital care, specialty care, emergency care, X-rays, and laboratory services is the responsibility of the student. For this reason, the student is required to maintain health-insurance coverage.

Medical records of all students seen in Student Health Services are confidential and are subject to the Family Educational Rights and Privacy Act. According to the UT System and the Texas Department of Health, students must be current on the required immunizations prior to matriculation. See Required Immunizations in the Student Information chapter for more information.

THE TRANSPLANT SERVICES CENTER is a clinical and academic service department that procures, processes, stores, and distributes tissues, such as corneas, sclera, skin, musculoskeletal, and cardiovascular allografts. These tissue grafts are provided to physicians, hospitals, or surgery centers for transplant procedures that restore function, improve the quality of life and, in some cases, save lives. Other tissue and tissue-procurement services, including autograft preservation and storage, are available to physicians by individual arrangement.

Research and teaching tissues are available to the medical center faculty and to researchers outside the university on request. The Transplant Services Center strives to contribute to advancements in transplantation technology as well as clinical care through these cooperative efforts.

To meet the medical needs of the community, the Transplant Services Center promotes public and professional education to increase donor awareness. Transplant Services’ mission is “to provide quality tissue grafts for transplantation, teaching, research, and medical need that is responsive and appropriate to both the recipient need and the donor family.”

The award-winning BRYAN WILLIAMS, M.D. STUDENT CENTER provides offerings from structured programs to informal activities, such as intramural sports and sport clubs, group fitness programs, special events, and more than 80 student organizations. The state-of-the-art recreational facility is available for students, residents, faculty, and staff. Membership for students is included in the student services fee. Admission requires a valid UT Southwestern ID card.

SPECIAL PROGRAMS AND ENDOWMENTS

ENDOWED CENTERS

THE WALTER M. AND HELEN D. BADER CENTER FOR RESEARCH ON ARTHRITIS AND AUTOIMMUNE DISEASES was established through a bequest from Mrs. Bader. The Director is Dr. Edward K. Wakeland, Chairman of Immunology.

THE BARRETT FAMILY CENTER FOR PEDIATRIC ONCOLOGY, which seeks ways to prevent and cure childhood cancer, was established through a gift from Bill Barrett. The Center’s Director is Dr. George Buchanan, Professor of Pediatrics and Internal Medicine.

THE DORIS AND HARRY W. BASS JR. CLINICAL CENTER FOR HEART, LUNG AND VASCULAR DISEASE was established by a gift from the Harry W. Bass Jr. Foundation through Southwestern Medical Foundation. Its Director is Dr. John Warner, Associate Professor of Internal Medicine.

THE PAUL M. BASS CENTER FOR NEUROSURGICAL INNOVATION was established by a gift from Annette and Harold C. Simmons, in memory of their friend Paul M. Bass Jr., through Southwestern Medical Foundation.

THE EFFE MARIE CAIN ALZHEIMER’S RESEARCH CENTER and a distinguished chair were established through a gift from the Cain Foundation to support the work of UT Southwestern researchers in Alzheimer’s disease.

THE CAIN/DENIUS COMPREHENSIVE CENTER IN MOBILITY RESEARCH was established by the Cain Foundation to support research into various
causes of mobility impairment, such as spinal-cord injury, neuromuscular diseases, and aging.

THE CHILDREN’S CANCER FUND COMPREHENSIVE CENTER FOR PEDIATRIC ONCOLOGY RESEARCH was established with gifts from the Children’s Cancer Fund and others. The Center has three components – clinical research, translational laboratory research, and basic research.

THE JAMES M. COLLINS CENTER FOR BIOMEDICAL RESEARCH was established through gifts from the James M. Collins Foundation, the Carr P. Collins Foundation and Southwestern Medical Foundation. Research in the Center focuses on pulmonary disease. The Center’s Director is Dr. Jonathan C. Weissler, Professor of Internal Medicine.

THE CRYSTAL CHARITY BALL CENTER FOR PEDIATRIC BRAIN AND NEUROLOGIC DISEASES was funded with proceeds from the 1995 Crystal Charity Ball. The Center is dedicated to improved therapy and prevention of neurological disorders in children.

THE CRYSTAL CHARITY BALL CENTER FOR RESEARCH IN PEDIATRIC CLINICAL CARE was established with funds from the 1997 Crystal Charity Ball. The Center focuses on developing new treatments for life-threatening infections, pulmonary hypertension, and respiratory distress syndrome.

THE HOUSTON J. AND FLORENCE A. DOSWELL CENTER FOR THE DEVELOPMENT OF NEW APPROACHES FOR THE TREATMENT OF HYPERTENSION was established through a bequest from Mrs. Doswell. The Center focuses on new ways to treat this disease that affects more than 75 million Americans. Dr. Robert Toto, Associate Dean for Translational Medicine and Professor of Internal Medicine, is the Director.

THE GILL CENTER FOR RESEARCH ON BRAIN CELL COMMUNICATION was established with a gift from the Pauline Allen Gill Foundation through Southwestern Medical Foundation to study how brain cells communicate.

THE GREEN CENTER TRAINING PROGRAM IN REPRODUCTIVE BIOLOGY SCIENCES RESEARCH, established through a gift from Cecil H. and Ida Green, supports basic, applied, and clinical research into reproductive biology. The Center is directed by Dr. W. Lee Kraus, Professor of Obstetrics and Gynecology and Pharmacology.

THE CECIL H. AND IDA GREEN COMPREHENSIVE CENTER FOR MOLECULAR, COMPUTATIONAL AND SYSTEMS BIOLOGY was established through a gift from the Cecil H. and Ida Green Foundation. The Center’s Director is Dr. Rama Ranganathan, Professor of Pharmacology.

THE BEATRICE MENNE HAGGERTY CENTER FOR RESEARCH ON BRAIN INJURY AND REPAIR IN STROKES, established with a gift from the Patrick and Beatrice Haggerty Foundation, provides support for research on the complex reasons behind neuronal cell death. The Center is directed by Dr. Mark Goldberg, Chairman of Neurology and Neurotherapeutics.

THE NANCY B. AND JAKE L. HAMON CENTER FOR BASIC RESEARCH IN CANCER was established by Mrs. Hamon through Southwestern Medical Foundation. It is directed by Dr. Eric N. Olson, Chairman of Molecular Biology.

THE NANCY B. AND JAKE L. HAMON CENTER FOR THERAPEUTIC ONCOLOGY RESEARCH was established by Mrs. Hamon through Southwestern Medical Foundation. This Center is directed by Dr. John D. Minna, Professor of Internal Medicine and Pharmacology.

THE DOROTHY L. AND JOHN P. HARBIN CENTER FOR ALZHEIMER’S DISEASE RESEARCH was created through a gift from Mr. Harbin. The Center conducts studies aimed at understanding the underlying causes of dementia and discovering means to reverse or prevent the derangements that produce the disease.

THE ROBERT T. HAYES CENTER FOR MINERAL METABOLISM RESEARCH was established through a gift from Mr. Hayes. The Center conducts research to develop better treatments and preventive therapies for osteoporosis and kidney stones.
THE HOFFMAN FAMILY CENTER IN GENETICS AND EPIDEMIOLOGY was established with a gift from Adelyn Hoffman through Southwestern Medical Foundation to support UT Southwestern’s efforts in these two fields.

THE ERIK JONSSON CENTER FOR RESEARCH IN MOLECULAR GENETICS AND HUMAN DISEASE was created with funds from the Excellence in Education Foundation. Director of the Center is Dr. Michael S. Brown, Professor of Internal Medicine and Molecular Genetics and winner of the 1985 Nobel Prize in Physiology or Medicine.

THE KIMBERLY-CLARK CENTER FOR PHYSICAL MEDICINE AND REHABILITATION RESEARCH, established through a gift from the Kimberly-Clark Foundation, studies injuries and illnesses that impair mobility. Dr. Karen J. Kowalske, Chair of Physical Medicine and Rehabilitation, directs the Center.

THE KOMEN/UT SOUTHWESTERN BREAST CANCER RESEARCH PROGRAM, established with a gift from Susan G. Komen for the Cure, plus gifts from Mr. and Mrs. Harold C. Simmons, Nancy B. Hamon and others, is a specialized center affiliated with the Harold C. Simmons Comprehensive Cancer Center.

THE LOWE FOUNDATION CENTER FOR WOMEN’S PREVENTATIVE HEALTH CARE was established by a gift from the Houston-based foundation chaired by Mary Ralph Lowe. The Center is directed by Dr. Karen D. Bradshaw, Professor of Obstetrics and Gynecology.

THE EUGENE MCDERMOTT CENTER FOR HUMAN GROWTH AND DEVELOPMENT and an academic chair were established through gifts from the Biological Humanics Foundation and the Eugene McDermott Foundation to study human development, with special attention on genetic regulation. Director of the Center is Dr. Helen H. Hobbs, Chief of Clinical Genetics.

THE EUGENE MCDERMOTT CENTER FOR PAIN MANAGEMENT was established through gifts from the Biological Humanics Foundation. The Center, directed by Dr. Carl Noe, Professor of Anesthesiology and Pain Management, combines state-of-the-art pain management treatment and patient care with comprehensive basic and clinical pain research.

THE MOBILITY FOUNDATION CENTER FOR REHABILITATION RESEARCH was established with a gift from the Mobility Foundation to Southwestern Medical Foundation. Under the direction of Dr. Duke S. Samson, Professor of Neurological Surgery, it focuses on applied research aimed at developing improved therapies for mobility-impaired patients.

THE W.A. “TEX” AND DEBORAH MONCRIEF JR. CENTER FOR CANCER GENETICS was established with a gift from Mr. and Mrs. Moncrief to support cancer genetics research. The Center is directed by Dr. John D. Minna, Professor of Internal Medicine and Pharmacology.

THE HARRY S. MOSS HEART CENTER is supported by income from a trust established by the late Harry S. Moss. The Center, directed by Dr. Joseph Hill, Chief of Cardiology, carries out an interdisciplinary research program related to cardiovascular diseases.

THE CHRIS AND REECE A. OVERCASH JR. FAMILY CENTER FOR BREAST CARE RESEARCH, IN HONOR OF DR. GEORGE PETERS, was established with a gift from the Overcash family through Southwestern Medical Foundation. Research in the Center focuses on improving treatments for breast cancer.

THE REECE A. OVERCASH JR. CENTER FOR RESEARCH ON COLON CANCER, IN HONOR OF DR. EUGENE P. FRENKEL, was established by the family of the late Mr. Overcash through Southwestern Medical Foundation. The Center’s research is directed at discovering the causes of colon cancer and improving treatment.

THE CHARLES AND JANE PAK CENTER FOR MINERAL METABOLISM AND CLINICAL RESEARCH coordinates the activities of the Robert T. Hayes Center for Mineral Metabolism Research and the Charles Y.C. Pak and Donald W. Seldin Center for Metabolic Research. The Director is Dr. Orson W. Moe, Professor of Internal Medicine and Physiology.
THE CHARLES Y.C. PAK AND DONALD W. SELDIN CENTER FOR METABOLIC RESEARCH, established by Dr. and Mrs. Pak to honor his mentor, Dr. Seldin, supports training of clinical researchers in the area of metabolism and supports the General Clinical Research Center at UT Southwestern.

THE GEORGE N. PETERS, M.D., CENTER FOR BREAST SURGERY was established by friends, colleagues, and admirers of the prominent Dallas breast cancer surgeon who retired from UT Southwestern in 2001.

THE POGUE FAMILY CENTER FOR ADVANCED BRAIN IMAGING IN ALZHEIMER’S DISEASE was created with funds from Mr. and Mrs. Mack Pogue through Southwestern Medical Foundation. The Center provides modern imaging technology for early diagnosis and evaluation of Alzheimer’s disease.

THE LAWRENCE S. POLLOCK JR. CENTER FOR INTESTINAL CANCER RESEARCH was established with a gift from the Pollock Foundation to Southwestern Medical Foundation. Researchers in the Center are studying causes and treatments for this disease.

THE POLLOCK FAMILY CENTER FOR RESEARCH IN INFLAMMATORY BOWEL DISEASE was established with a gift from the Pollock Foundation to Southwestern Medical Foundation to support research into greater understanding of this disease.

THE C. VINCENT PROTHRO CENTER FOR RESEARCH IN BASIC NEUROSCIENCE was funded by the Vin and Caren Prothro Foundation through Southwestern Medical Foundation and provides support for new areas of research in neuroscience.

THE AUDRE AND BERNARD RAPPORT CENTER FOR CARDIOVASCULAR RESEARCH was established with a gift from Mr. and Mrs. Rapoport. Dr. M. Elizabeth Brickner, Professor of Internal Medicine, directs the Center’s study of the pathogenesis and treatment of ischemic heart disease and congenital heart disease.

THE MARY NELL AND RALPH B. ROGERS MAGNETIC RESONANCE IMAGING CENTER was established by Mr. and Mrs. Rogers to support UT Southwestern’s efforts in developing innovative uses in imaging technology.

THE SARAH M. AND CHARLES E. SEAY CENTER FOR BASIC AND APPLIED RESEARCH IN PSYCHIATRIC ILLNESS was established by Mr. and Mrs. Seay through Southwestern Medical Foundation. The Center brings together clinical and laboratory research relevant to mental disorders.

THE SARAH M. AND CHARLES E. SEAY CENTER FOR EMERGENCY PEDIATRIC ORTHOPAEDIC TREATMENT AND RESEARCH was established by
Mr. and Mrs. Seay through Southwestern Medical Foundation. The Center supports collaborative programs at UT Southwestern, Children’s Medical Center Dallas, and Texas Scottish Rite Hospital for Children.

**THE SARAH M. AND CHARLES E. SEAY CENTER FOR PEDIATRIC UROLOGY** was created by a gift from Mr. and Mrs. Seay to study and treat urologic problems associated with early childhood. Dr. Linda A. Baker, Professor of Urology, directs the Center.

**THE SARAH M. AND CHARLES E. SEAY CENTER FOR RESEARCH ON BRAIN AND SPINAL CORD INJURIES IN CHILDREN** was also established by a gift from Mr. and Mrs. Seay.

**THE SARAH M. AND CHARLES E. SEAY COMPREHENSIVE CENTER FOR PEDIATRIC EMERGENCY AND INTENSIVE CARE** was established by Mr. and Mrs. Seay to provide multidisciplinary focus to the most serious illnesses and injuries of children through collaborative facilities at UT Southwestern, Texas Scottish Rite Hospital for Children, and Children’s Medical Center Dallas.

**THE ANNETTE SIMMONS STEREOTACTIC TREATMENT CENTER** was established by Mr. and Mrs. Harold Simmons to offer the most advanced, noninvasive therapies for brain tumors and extracranial lesions, such as lung, liver, and kidney cancers.

**THE HAROLD AND ANNETTE SIMMONS COMPREHENSIVE CENTER FOR RESEARCH AND TREATMENT IN BRAIN AND NEUROLOGICAL DISORDERS** was established with funds from Mr. and Mrs. Simmons through Southwestern Medical Foundation. The Center enables UT Southwestern to make major progress in basic and clinical neuroscience.

**THE HAROLD C. SIMMONS COMPREHENSIVE CANCER CENTER** pursues new initiatives in cancer research and treatment. The Center brings together a broad spectrum of basic and clinical research spanning a large number of departments in the medical center. Dr. James K.V. Willson, Associate Dean for Oncology Programs, is the Director.

**THE BOB SMITH, M.D., CENTER FOR RESEARCH IN PEDIATRIC PSYCHIATRY** was established through a gift from Dr. Smith, a Dallas pediatrician, and the Dr. Bob & Jean Smith Foundation to Southwestern Medical Foundation. The Center supports UT Southwestern’s research, training, and clinical activities in child psychiatry.

**THE DR. BOB SMITH FOUNDATION CENTER FOR PROSTATE RESEARCH** was established with a gift from the Dr. Bob & Jean Smith Foundation through Southwestern Medical Foundation to boost research efforts into the second-leading cause of cancer death of men in America.

**THE ANNETTE G. STRAUSS CENTER IN NEURO-Oncology** was established through donations from Ted Strauss and other donors as a tribute to the former Dallas mayor. The Center is directed by Dr. Bruce E. Mickey, Vice Chair of Neurological Surgery.

**THE TOUCHSTONE CENTER FOR DIABETES RESEARCH** was established with a gift from Mrs. Lucian Touchstone to support the development of new treatments aimed at ameliorating and ultimately preventing this disease. Dr. Philipp Scherer, Professor of Internal Medicine, directs the Center.

**THE KENT WALDREP CENTER FOR BASIC RESEARCH ON NERVE GROWTH AND REGENERATION** was established through gifts from the Southwestern Ball and the Kent Waldrep National Paralysis Foundation to support basic research in nerve growth, function, and regeneration. The Center is directed by Dr. Luis F. Parada, Chair of Developmental Biology

**THE NEILL WALSDORF SR. BIOTECHNOLOGY CENTER IN MINERAL METABOLISM** was established with funds from Mission Pharmacal Co., which is based in San Antonio. Under the direction of Dr. Charles Y.C. Pak, Professor of Internal Medicine, the Center focuses on translating research from the Charles and Jane Pak Center for Mineral Metabolism and Clinical
Research to patient services, including new drugs and devices to diagnose, treat, and prevent kidney stones and osteoporosis.

**THE JEAN WALTER CENTER FOR RESEARCH IN MOVEMENT DISORDERS** conducts basic and clinical research dealing with involuntary movement disorders, such as blepharospasm, dystonias, Parkinson’s disease, and others. It was established through gifts from Mr. and Mrs. J. Thomas Walter Jr. to Southwestern Medical Foundation and is directed by Dr. Richard Dewey, Professor of Neurology and Neurotherapeutics.

**THE JEAN H. AND JOHN T. WALTER JR. CENTER FOR RESEARCH IN AGE-RELATED MACULAR DEGENERATION** was established by a gift from Mr. and Mrs. Walter to Southwestern Medical Foundation. Directed by Dr. James P. McCulley, Chair of Ophthalmology, the Center focuses on identifying genetic markers associated with AMD and devising therapies to prevent vision loss.

**THE JEAN H. AND JOHN T. WALTER JR. CENTER FOR RESEARCH IN UROLOGIC ONCOLOGY** was created through a gift to Southwestern Medical Foundation from the Walters. Under the direction of Dr. Jer-Tsong Hsieh, Professor of Urology, the Center’s research efforts are focused on treating and preventing malignancies of the urinary tract, kidney, bladder, and prostate.

**THE JEAN D. WILSON CENTER FOR BIOMEDICAL RESEARCH** was established with a gift from Dr. Wilson and his sister, Dr. Margaret Sitton, to promote research in endocrinology. The Center is directed by Dr. Perry Bickel, Associate Professor in Internal Medicine.

**THE WINSPEAR FAMILY SPECIAL CENTER FOR RESEARCH ON THE NEUROPATHOLOGY OF ALZHEIMER’S DISEASE** was established with a gift from Margot and William Winspear to support research into the causes of Alzheimer’s disease. Dr. Charles L. White III, Professor of Pathology, is the Director.

**THE MILDRED WYATT AND IVOR P. WOLD CENTER FOR GERIATRIC CARE** was established by Mr. and Mrs. Wold to improve medical care for this rapidly growing segment of the U.S. population. The Center is directed by Dr. Craig D. Rubin, Professor of Internal Medicine.

**THE CANCER IMMUNOBIOLOGY CENTER** is a specialized research center affiliated with the Harold C. Simmons Comprehensive Cancer Center. The Center is directed by Dr. Ellen S. Vitetta, Professor of Immunology and Microbiology.

**THE CENTER FOR ALZHEIMER’S AND NEURODEGENERATIVE DISEASES**, directed by Dr. Joachim Herz, Professor of Molecular Genetics, Neuroscience, and Neurology and Neurotherapeutics, was established by an anonymous gift to support the recruitment and retention of outstanding faculty to join UT Southwestern’s efforts to prevent and treat Alzheimer’s disease.

**THE CENTER FOR BASIC RESEARCH IN MOLECULAR IMMUNOLOGY** was established through a gift from Mr. and Mrs. Louis Beecherl Jr. to conduct studies in basic immunology that are relevant to understanding and preventing organ rejection following transplantation.

**THE CENTER FOR HUMAN NUTRITION** was established through a special endowment to conduct scientific research on human nutrition, to promote sound nutritional education for health professionals, and to develop useful nutrition programs for lay people. The center is directed by Dr. Scott M. Grundy, Chair of Clinical Nutrition.

**THE NUCLEAR MEDICINE CENTER** conducts research on the circulation of the brain and the heart in health and disease using experimental imaging methods. The Director of the Center is Dr. Frederick J. Bonte, Professor of Radiology.

**LABORATORIES**

**THE EXXON CORPORATION LABORATORIES FOR MOLECULAR RESEARCH**, established with a gift from the Exxon Mobil Corp., provide state-of-the-art equipment for research in oncology and genetics.
THE GIFFORD LABORATORIES FOR DIABETES RESEARCH were created through a gift from the Gifford Foundation. The laboratories are directed by Dr. Roger H. Unger, Professor of Internal Medicine.

THE W.M. KECK FOUNDATION GENE MANIPULATION LABORATORIES were designed and equipped for basic genetic research with a gift from the W.M. Keck Foundation, one of the world’s largest charitable organizations. Nobel laureates Drs. Michael S. Brown, Professor of Molecular Genetics and Internal Medicine, and Joseph L. Goldstein, Chair of Molecular Genetics, direct the laboratories.

THE W.M. KECK FOUNDATION HUMAN GENOMICS LABORATORY was funded by a grant from the Keck Foundation to support research on the role of genetic mutation in human disease.

THE DONALD W. SELDIN, M.D., LABORATORIES FOR NEUROSCIENCE RESEARCH were created through a gift from the Karl and Esther Hoblitzelle Fund of Southwestern Medical Foundation to support UT Southwestern’s efforts in neuroscience research.

THE PAULINE AND ADOLPH WEINBERGER LABORATORIES FOR CARDIOPULMONARY RESEARCH were established through a gift from Mr. and Mrs. Weinberger. Researchers study circulatory and pulmonary reactions to stress. Director of the laboratories is Dr. Jere H. Mitchell, Clinical Professor of Internal Medicine and Physiology.

Other named laboratories at UT Southwestern include:

ASSOCIATES CORPORATION LABORATORY FOR CANCER RESEARCH IN MEMORY OF REECE A. OVERCASH JR.
BANK ONE, TEXAS LABORATORY FOR MOLECULAR RESEARCH
NANCY LEE AND PERRY R. BASS ADVANCED PLASTIC SURGERY AND WOUND-HEALING LABORATORY
THEODORE AND MARY BEASLEY LABORATORY FOR IMMUNOPATHOLOGY RESEARCH
THEODORE AND MARY BEASLEY LABORATORY FOR OCULAR SURFACE RESEARCH
BRET C. BUNNETT LABORATORY FOR HISTOPATHOLOGY
CANCER RESEARCH FOUNDATION OF NORTH TEXAS DNA SEQUENCING LABORATORY
CENTRAL AND SOUTH WEST CORPORATION LABORATORY FOR NERVE REGENERATION RESEARCH
CONSTANTIN FOUNDATION LABORATORY FOR CANCER RESEARCH
DALLAS SEMICONDUCTOR CORPORATION LABORATORY FOR MOLECULAR RESEARCH
JOHN W. DUCKETT, M.D., LABORATORY IN PEDIATRIC UROLOGY
FINA FOUNDATION LABORATORY FOR NERVE REGENERATION RESEARCH
IRMA AND IRWIN GROSSMAN LABORATORY FOR DIABETES RESEARCH
RON AND SANDI HADDOCK IMAGING LABORATORY
HAGGAR FOUNDATION LABORATORY FOR MEDICAL RESEARCH
HALLIBURTON FOUNDATION INC. LABORATORY FOR MOLECULAR RESEARCH
HILLCREST FOUNDATION LABORATORY FOR NEUROSCIENCE RESEARCH, IN HONOR OF MRS. W.W. CARUTH SR.
DAVID M. HOLLAND RESIDENT LEARNING LABORATORY IN UROLOGY
BEN E. KEITH FOUNDATION LABORATORY FOR BIOMEDICAL RESEARCH
KIDNEYTEXAS INC. PEDIATRIC AND ADULT RESEARCH LABORATORY
LABORATORY FOR MOLECULAR RESEARCH ESTABLISHED BY AUSTIN INDUSTRIES AND THE WILLIAM T. AND CHARLES M. SOLOMON FAMILIES
LABORATORY FOR MOLECULAR RESEARCH ESTABLISHED BY CENTEX CORPORATION AND CENTEX BATESON CONSTRUCTION COMPANY
LEUKEMIA ASSOCIATION OF NORTH CENTRAL TEXAS LABORATORY IN HONOR OF JERRY LASTELICK
ERMA LOWE LABORATORY FOR ALZHEIMER’S DISEASE RESEARCH
LEROY “SKIP” MALOUF CANCER RESEARCH LABORATORY
NATIONS_BANK LABORATORY FOR MOLECULAR RESEARCH
OCCIDENTAL CHEMICAL CORPORATION/ROGER AND DOROTHY HIRL LABORATORY FOR NERVE REGENERATION
EVELYN L. OVERTON HEMATOLOGY-ONCOLOGY RESEARCH LABORATORY
J.C. PENNEY CO. LABORATORY FOR MOLECULAR RESEARCH
SUMMERFIELD G. ROBERTS FOUNDATION LABORATORY FOR NEUROSCIENCE RESEARCH
JOSEPHINE RUDMAN LABORATORY FOR ALZHEIMER’S DISEASE RESEARCH
SCHOLLMAIER FOUNDATION/ED AND RAE SCHOLLMAIER AGE-RELATED MACULAR DEGENERATION LABORATORY
T.L. SHIELDS LABORATORY FOR MOLECULAR DERMATOLOGY
EUGENE STRAUS CHARITABLE TRUST LABORATORY FOR DIABETES RESEARCH IN MEMORY OF BETTIE, SAMUEL, SIMON AND RUBY STRAUS
TEXAS COMMERCE BANK LABORATORY FOR BASIC MEDICAL RESEARCH
TOM THUMB FOOD & PHARMACY LABORATORY FOR MOLECULAR RESEARCH
TU ELECTRIC LABORATORY FOR MOLECULAR RESEARCH
ROB E. WALTON LABORATORY FOR NERVE REGENERATION RESEARCH

VISITING PROFESSORSHIPS AND LECTURESHIPS

Fouad A. and Val Imm Bashour Distinguished Visiting Lectureship in Physiology
David G. Beddow Memorial Lectureship
Lyman E. Bilhartz, M.D., AOA Lecture Series
Rupert Everett Billingham, Ph.D., Visiting Lectureship in Cell Biology
Albert Blakes, M.D., Melanoma Lectureship
I.G. Bromberg Memorial Visiting Professorship
Burlington Northern Fund Visiting Lectureship in Trauma
Norman W. Carter Lectureship in Nephrology
Lillian B. Clark Lecture Series in Mineral Metabolism
Dr. Burton Combes Lecture Series in Hepatology
Larry Duffy Lecture Series Fund
Daniel W. Foster, M.D., Visiting Lectureship in Medical Ethics
Dr. Everett C. Fox Endowment Fund
David L. Garbers, Ph.D., Annual Lecture in Biomedical Science
Olin Welborn Gibbons Surgical Lectureship
Seymour Gostin Endowment Fund for Lectures in Ophthalmology
Arthur P. Grollman Visiting Professorship in Experimental Medicine
L. Ruth Guy Lectureship
Pamela Hearn Isom Fund for Lecturers in Hematology/Oncology
Phillip R. Jonsson Visiting Professorship
Ray A. and Robert L. Kroc Lectureship in Diabetes and Endocrine Diseases
Luis Leib, M.D. Ob/Gyn Lectureship
Dr. S.Z. Levine Visiting Lectureship in Pediatrics
Vera and Forrest Lumpkin Surgical Memorial Lectureship
John R. Lynn, M.D., Lecture Series in Ophthalmology
Morton F. Mason Lectureship
William L. Meyerhoff, M.D., Ph.D., Lecture Series in Otolaryngology-Head and Neck Surgery
Ludwig A. Michael Visiting Professorship in Otolaryngology
George E. Peacock Jr. Memorial Lectureship in Pathology
L.R. Pearson Lectureship in Urology
Sam H. Phillips, Jr., M.D., Visiting Professorship in Diabetes in Honor of Dr. Jack Edwards and Dr. Billy B. Oliver
Sam H. Phillips, Jr., M.D., Visiting Professorship in Endocrinology in Honor of Dr. Sam Marynick
Sam H. Phillips, Jr., M.D., Visiting Professorship in Surgery in Honor of Dr. David Vanderpool and Dr. Jim Carrico
Rolland C. Reynolds, M.D., Lectureship in Pathology
William D. Seybold Lecture Series in Surgery
Robert S. Sparkman Lecture Series in Surgery
S. Edward Sulkin Visiting Lectureship in Microbiology
Charles D. Tandy Visiting Professorship in Cardiology
Dr. Alvin Taurog Lecture Series in Pharmacology
Jake Tobolowsky Visiting Professorship in Psychiatry, in Memory of Helen B. Tobolowsky and in Honor of Dr. David M. Tobolowsky
Henry M. Winans Sr., M.D., Visiting Professorship in Internal Medicine
Claude D. Winborn Memorial Lectureship in Otorhinolaryngology
Morris and Edna Zale Pediatric Lectureship
Carol F. Zimmerman, M.D., Lecture Series in Neuro-Ophthalmology

ENDOWED AND OTHER FUNDS

SPECIAL FUNDS

Wilhelmina and Edward Ackerman Endowment Fund
Annelle Ahmed, M.D., Fund for Faculty Scholars in Obstetrics and Gynecology
R. B. Albaugh Fund
Susan H. Albritton in Memory of Jane W. and James D. Heldt Research Fund
Kenneth Z. Altshuler Fund for Psychiatric Education
Ruth and Kenneth Altshuler Fund for Clinical Psychiatry, in Honor of Dr. Eric Nestler
Shirley G. and Norman Alweis Endowment Fund for Vision
Lana and Barry Andrews Fund for Neurological Surgery
Anonymous Endowment Fund for Neuroscience Professor
Arlene Ard Fund
Mr. and Mrs. A. W. Atkiss Fund
Dr. and Mrs. Eldridge F. Avery Student/Alumni Endowment Fund
Bank One Fund for Molecular Research
Bill and Alice Barnett Fund for Research in Alzheimer’s Disease
The Frederic C. Bartter Fund for Young Investigators
Fouad A. Bashour Cardiology Endowment Fund
Carla and Paul Bass Community Medicine Fund
Paul M. Bass Jr. Fund for Clinical Cardiology
Baylor Medical Alumni Library Association
Bernice Beaty Endowment
Julie and Louis A. Beecher Jr. Fund, in Honor of Kern Wildenthal, M.D., Ph.D.
Gil J. Besing Fund
Blanton Fund for ALS Research
Jesse B. Brittain Memorial Fund
Jean Ann and Steve Brock Fund for Medical Science
Alma B. Brown Fund
Kinsler Williamson Brown Fund
Ralph and Bernice Brown Fund
William M. and Gay Burnett Fund for Arthritis Research
Cain Foundation Fund, in Honor of Kern Wildenthal, M.D., Ph.D.
The Cain Foundation Endowment Fund
Effie and Wofford Cain Conference Center
Effie Marie and Wofford Cain Endowed Clinical Research Program
Effie Marie Cain Research Scholar
Lillian and James Cain Endowment in Hearing Loss
Lillian and James Cain Endowment in Vision Loss
Patricia H. and J. Donald Capra Endowed Fund in Allied Health Sciences
Care of the Elderly Endowment
Mr. and Mrs. Richard E. Carlson Fund for Pulmonary Disease Research
Ben H. and Betty Dupree Carpenter Endowment for Cardiovascular Research
Amon G. Carter Foundation Fund for Ovarian Cancer Research
Dianne Cash Research Fund
Center for Human Nutrition Endowment Fund
Centex Corporation Fund for Molecular Research
Frances and Louis Cerf Memorial Fund for Cardiovascular Research
Chi Omega Endowment for Mobile Health Screenings
Elloine and William H. Clark III Fund for Scholars in Alzheimer’s Disease
