

Hematopathology Rotation - Objectives

Professionalism

- A. **Objectives:** The resident should learn how to communicate with other pathologists, clinicians, technologists, and support staff in a courteous and professional manner, and appreciate how such professionalism is essential to the effective practice of pathology.
- B. **Plan:** The resident will learn professionalism through ongoing interaction with pathologists, clinicians, medical technologists, and support staff.
- C. **Assessment:** Direct observation by hematopathology faculty and fellows.
