

## **Cytopathology Rotation - Objectives**

### **Interpersonal and Communication Skills**

**A. Objectives:**

1. Ability to communicate results to clinicians.
2. Ability to communicate adequacy of FNA material to radiologist performing deep FNAs under image guidance.
3. Develop ability to explain cytopathology findings to others.

**B. Plan:**

1. Documentation of communication attempts on draft copies of cytology reports
2. Presentation of cytology findings at cytopathology conference

**C. Supervision/Assessment:**

1. The residents' interpersonal and communication skills are subjectively assessed by the attending pathologist during the rotation.
