List of Funding Sources – Pediatric Critical Care Fellowship

External Funding

Salary Funding:

**Pediatric Scientist Development Program (PSDP):**
http://psdp.yale.edu/
Pays for 2-3 years of research training after completing clinical part of fellowship training, and then 2 years as junior attending.

**NIH K Awards**
http://grants1.nih.gov/training/careerdevelopmentawards.htm

Loan Repayment:

**NIH Loan Repayment Programs**
http://www.lrp.nih.gov/about/extramural/index.htm
http://www.lrp.nih.gov/about/lrp-pediatric.htm
Requires a 2-year commitment to research.

Other Research Funding:

**American Pediatric Society / Society for Pediatric Research (APS-SPR)**
http://www.aps-spr.org/

**AAP CATCH Grant**
http://www.aap.org/catch/planninggrants.htm
The Community Access to Child Health (CATCH) Planning Funds program provides grants in amounts from $2,500 to $12,000 for pediatricians to plan innovative, community-based initiatives that increase children’s access to medical homes* or specific health services not otherwise available. These community-based projects should lead to the development of successful CATCH projects that can be replicated in other communities. All CATCH grants are awarded on a competitive basis. A pediatrician must lead the project and be significantly involved in proposal development and project activities.

**AAP Marshall Klaus Perinatal Research Award**
http://www.aap.org/sections/perinatal/klauss.html

**MedImmune Pediatric Fellowship Grant**
http://web.medimmune.com/FellowshipGrant/frmhome.aspx
Follow-up care of the premature infant. $35,000 per awardee.
Thrasher Research Fund
http://www.thrasherresearch.org
The Fund supports clinical/translational pediatric research. Emphasis is placed on projects with potential findings that would be clinically applicable in a relatively short period of time for the prevention, diagnosis and/or treatment of pediatric medical problems. No specific deadline; concept followed by full proposal.

Gerber Foundation
http://www.gerberfoundation.org/
The Foundation's mission focuses on infants and young children. Accordingly, priority is given to projects that improve infant and young children nutrition, care and development from the first year before birth to three years of age. Projects should support a specific nutrition or health intervention and have defined outcome parameters. May round: concept paper by December 1; full proposals due February 15. November round: concept paper by June 1; full proposals due August 15.

Christopher & Dana Reeve Paralysis Foundation
http://www.christopherreeve.org
The mission statement of the Christopher & Dana Reeve Foundation is dedicated to curing spinal cord injury by funding innovative research, and improving the quality of life for people living with paralysis through grants, information and advocacy. Postdoctoral fellowships are available with a maximum funding level of $60,000 per year (indirect costs limited to 10% of the direct). Postdoctoral applicants listed as the primary investigator can request up to $60,000 per year (total funding). Postdoctoral applicants must submit a full CV and letters of recommendation. The next deadline for applications/proposals is December 15, 2010. Applicants will likely be notified of the disposition of their requests in late June 2011.

National Emergency Medical Association Grant
http://www.nemahealth.org/organization/grants.htm
The National Emergency Medicine Association (N.E.M.A.) is a 501(c)(3) non-profit organization founded in 1982. Its mission, and that of its special programs, is the prevention of injury and illness by addressing health and social issues through education, applied research, technology, and equipment. The Association is concerned with emergency at every stage of trauma, with particular attention paid to the excellence of first response at the time and place of emergency.

Grants are awarded by the Association’s Board of Directors each December, or more frequently upon board discretion. In conjunction with the Board of Directors, the Association has selected a Grants Advisory Board, which reviews grant requests, and recommends projects for funding.
Funding at UT Southwestern

Salary Funding:

Physician Scientist Training Program (PSTP)
http://www8.utsouthwestern.edu/utsw/home/educ/pstp/index.html
Pays for 3 years of salary.

Other Research Funding:

Department of Clinical Sciences
Clinical Research Scholar Program:
http://www.utsouthwestern.edu/utsw/cda/dept174769/files/198158.html
Other sources of funding
http://www.utsouthwestern.edu/utsw/cda/dept29530/files/310843.html
http://www.utsouthwestern.edu/utsw/cda/dept29530/files/329015.html

Department of Pediatrics

Funding provided by Children’s Medical Center Dallas or the Children’s Medical Center Foundation will be awarded following a rigorous Peer Review process conducted by the Children’s Clinical Research Advisory Committee (CCRAC). This process is intended to identify the most meritorious and innovative projects that support our aim of improving child health across a wide range of disciplines

Clinical and Translational Research Center (formerly the GCRC)
