

St. Paul University Hospital, a partner in excellence with The University of Texas Southwestern Medical Center is pleased to offer comprehensive internships in the clinical discipline of your choice.

Our Nursing Internships meet the needs of the graduate nurse and also the experienced RN interested in a change in clinical focus, by providing the combined dynamics of concentrated instruction and hands-on experience. St. Paul has built a level of service to support patients, families and generations to come in a state-of-the-art medical environment.

St. Paul ranks #1 in survival rates for heart transplants in Texas and among the top 5 percent of programs in the country, delivers over 2,600 babies annually in 15 modern, home-like labor and delivery suites and was the first hospital to allow fathers into the delivery room. In addition, St. Paul has Dallas' first accredited Cancer Center.
