

GREEN FELLOWSHIPS

Available to UTD

Electrical Engineering (EE) or Computer Science (CS) Majors

to participate in research at UT Southwestern in:

Biological Chemistry

Genetics

Biomedical Engineering

Immunology

Biophysics

Integrative Biology

Cell Regulation

Microbiology

Chemical Biology

Molecular Biology

Computational Biology

Neuroscience

Developmental Biology

Pharmacology

Southwestern Graduate School of Biomedical Sciences

The University of Texas

Southwestern Medical Center at Dallas

OBJECTIVE

To provide a semester-long intensive research training experience that leads to an understanding of the planning, discipline, and teamwork involved in addressing basic research problems in the biological sciences. Green Fellows will pursue individual research projects under the direction of a member of the graduate school faculty at UT Southwestern Medical Center at Dallas. The program will be supplemented with lectures and seminars of general interest to students. Green Fellows will be concurrently enrolled in undergraduate research at UTD but must be available full-time to participate in research at UT Southwestern over an entire semester.

ELIGIBILITY

Applicants must be majoring in EE or CS at UTD and must have completed at least two years of study at UTD. Criteria used in selecting fellowship recipients will include college grades, relevant experience, and letters of recommendation from UTD faculty who can assess the applicant's potential for advanced training and success in biological research. **No research experience required to apply.**

AWARD

Green Fellows will receive a stipend of \$3,500 for the semester period.

HOW TO APPLY

A down-loadable application form is available at www.utsouthwestern.edu/greenfellows. Completed applications and all supplemental materials as outlined in the application must be received by October 9, 2009. The fourth class of Green Fellows will be announced by October 30, 2009 for research during the Spring 2010 semester.
