

## Journal Club Schedule for 2009-10:

### Information you need:

- (1) **Papers:** paper should be confirmed **1 week in advance** of the presentation. This means that a paper should be suggested **~2 weeks in advance** in case there is a problem. We are going to scrutinize the choices more closely this year for content and suitability for a Departmental Journal club. In addition, we will be emailing a list of papers for the last three topics that can be chosen by the students. These are not prerequisites, just potential suggestions.
- (2) **Food:** Presenter can bring food and beverage for the following weeks JC. You will be reimbursed up to \$20.
- (3) **Attendance:** More than three absences will result in a non-pass
- (4) **Participation:** The more participation the more fun, so please participate.
- (5) **Seating:** Please sit near the front, we will ask for people in the back two rows to move forward if need be.
