

International Car Rentals Information

*Update from TBPC (Texas Building and Procurement Commission)
on August 16, 2006*

For **Avis**, the discounts are: 20% Europe; 10% Africa and Mid East; 15% Asia; 15% Pacific (including Australia and New Zealand); 10% Latin America. The rate does not include insurance. If insurance is needed it would need to be added at the rental counter. The insurance that would need to be accepted overseas is "CDW" (collision damage waiver) and "TP" (theft protection). These items will cover any damage to, or theft of the Avis vehicle.

For **Enterprise**, the rates are 10% off of published rates and they have locations in: Canada, UK, Ireland, and Germany. No insurance coverage is included in that rate so the renter will need to elect additional coverage when renting.
