

Rheumatic Diseases Division Physician-Scientist

The Department of Internal Medicine, Division of Rheumatic Diseases invites applications for Physician-Scientists. Openings are available at the Assistant, Associate, and Full Professor level based on qualifications. Candidates are expected to have at least 4 years of experience at the fellow and/or Instructor level, and are expected to have or establish an externally-funded research program related to the pathophysiology or treatment of rheumatic diseases. Candidates must have an MD/DO or MD/DO Ph.D. degree, or equivalent, from an approved LCME medical school and satisfactory completion of an Internal Medicine residency program from an ACGME accredited program. Level of appointment will be commensurate with experience. Must be eligible for Texas medical licensure and be board certified in Internal Medicine and board certified / eligible in Rheumatology. The position will provide opportunities for diverse research experiences in a highly supportive environment with potential for growth. Training and supervision of graduate and postgraduate trainees will be required. The position offers an attractive start-up package that includes adequate research space and access to state-of-the art core facilities.

UT Southwestern Medical Center ranks among the top academic medical centers in the world. Our distinguished faculty includes four active Nobel Prize winners. Nearly 4,200 medical, graduate and allied health students, residents and postdoctoral fellows are trained each year. Our physicians provide care to patients at UT Southwestern University Hospitals and Clinics, Children's Medical Center of Dallas and two other affiliated hospitals.

The Dallas area boasts a low cost of living with diverse neighborhoods and great schools. The area has world class quality of life options, with more than 175 museums and art galleries, premier performance halls, numerous parks, lakes, golf courses and seven professional sport franchises.

Interested applicants should submit curriculum vitae and a letter of interest (including description of research area and future plans) and names of three or more references to the attention of: David R. Karp, MD, PhD, Associate Professor of Internal Medicine, Chief, Rheumatic Diseases Division, UT Southwestern Medical Center, 5323 Harry Hines Blvd., Dallas, Texas 75390-8884.
