

Standard Audiovisual Configuration for Rooms Seating 15-35 (typically theater or classroom style)

The following are items to be considered when designing this type of room. These are guidelines and are not meant to address specialized requirements.

- Whiteboard of desired size
- 8 ft. electrical screen (**consult with Physical Plant electricians**)
- Ceiling mounted graphics projector (**consult with Physical Plant electricians**)
- Wireless or Ethernet drop for laptops
- Lectern with electrical outlets, computer to projector wall plate
- Audio connections

Optional Items

- Lighting control at lectern or wall
- Small PA system with lectern mounted microphone to provide voice reinforcement and support embedded audio/video clips within PowerPoint presentations.
