

## Standard Audiovisual Configuration for Rooms Seating 35-60

*Note: A conference or multi-use space that accommodates this size should have a consultation with Media Technology.*

The following are items to be considered when designing this type of room. These are guidelines and are not meant to address specialized requirements.

- Whiteboard if desired size
- 8-10 ft. electrical screen (**consult with Physical Plant electricians**)
- Ceiling mounted graphics projector (**consult with Physical Plant electricians**)
- Lectern (**consult with Media Technology on lectern design**)
- Dedicated Ethernet cable for the lectern computer
- Additional Ethernet drop for laptops at lectern
- Mid-size PA system
- Lighting control
