## OVERVIEW

The McGarry Symposium serves to highlight to the community the major investments the school has made to further strengthen various programmatic aspects of metabolism research. Four tightly interconnected groups interact at many different levels: The Center for Hypothalamic Research, the Touchstone Diabetes Center, the Center for Human Nutrition, and the Lipid Group in Molecular Genetics have established novel programmatic efforts at both the clinical and the preclinical level. In addition, there is a close working relationship with the Simmons Cancer Center at UT Southwestern in the area of obesity and cancer.

## REGISTRATION

Although there is no registration fee, we do require that you confirm your attendance prior to September 15, 2009 to ensure your reservation. Registration entitles the participant admission to the conference, continental breakfast and lunch during the course. Space is limited. For more information and registration confirmation, please contact [cmeregistrations@utsouthwestern.edu](mailto:cmeregistrations@utsouthwestern.edu) or call 214-648-3138
