

UT Southwestern Medical Center
Molecular Biophysics Graduate Program

Molecular Biophysics Discussion Group Calendar Academic Year 2011-2012

DATE	SPEAKER	LECTURE TOPIC	HOST(s)
09/22/11	<u>Taekjip J. Ha, Ph.D.</u> University of Illinois at Urbana-Champaign	single molecule studies of molecular motors	Mike Rosen, Ph.D.
11/17/11	<u>Daniel Rosenbaum, Ph.D.</u> UT Southwestern Medical Center	mechanisms of activation of G-protein coupled receptors (GPCRs)	MB Graduate Program
01/26/12	<u>Ido Golding, Ph.D.</u> Baylor College of Medicine	systems biology	Mark Kittisopikul, MB Student Gürol Süel, Ph.D.
02/23/12	<u>Axel Brunger, Ph.D.</u> Stanford University/HHMI	molecular mechanism of synaptic neurotransmission	Jose Rizo-Rey, Ph.D.
03/22/12	Francis Tsai, Ph.D. Baylor College of Medicine	structural biology of chaperones and AAA-proteinases	Elizabeth Goldsmith, Ph.D.
04/26/12	<u>Karolin Luger, Ph.D.</u> Colorado State University/HHMI	structural biology of nucleosomes	Luke Rice, Ph.D.
05/24/12	<u>Shu-ou Shan, Ph.D.</u> California Institute of Technology	biophysics of protein translocation to the ER	Yuh Min Chook, Ph.D.
