Student Health Services Immunization Requirements

Meningitis – One (1) dose of meningitis vaccine if younger than age 22 prior to the first day of classes. The vaccine must be administered within 5 years and at least 10 days prior to enrollment. See Supplemental Immunization Requirement document for further information.

MMR (Measles, Mumps, Rubella) – Two (2) doses of MMR vaccine or two (2) doses of Measles, two (2) doses of Mumps and one (1) dose of Rubella; or serologic proof of immunity for Measles, Mumps and/or Rubella.

Hepatitis B Vaccination – Three (3) doses of vaccine followed by a QUANTITATIVE Hepatitis B Surface Antibody (titer) preferably drawn 4-8 weeks after 3rd dose. See Immunization Form for further information.

Tetanus-diphtheria-pertussis – One (1) dose of adult Tdap is required. If last Tdap is more than 10 years old, provide date of last Td and Tdap.

Tuberculosis Screening – TB Screening within six (6) months of enrollment is required. See Immunization Form for further information on required documentation.

Varicella (Chicken Pox) – Two (2) doses of vaccine or positive serology or serologic proof of immunity for Varicella. History of chicken pox disease is not accepted.

All immunization requirements must be met prior to registration. Immunizations and testing may be obtained from your current university student health services, private physician’s office, city/county health department or other clinics.

Please call 214-645-8690 if you have any questions regarding the required immunizations.

Send your completed, signed AAMC Immunization Form and the required documents noted on the form along with documentation of meningitis vaccination, if applicable, to Student Health Services.

Mail, fax or email all immunization information to:
