

Postdoctoral Training Position in Cardiometabolic Health

A postdoctoral training position is available in the laboratory of [Dr. Ambarish Pandey](#) and [Dr. Thomas Wang](#) in the Department of Internal Medicine at UT Southwestern Medical Center to study **the optimal approaches to improving cardiometabolic health and heart failure with preserved ejection fraction**. Our laboratory, [CMRU Cardiometabolic Research Unit](#), has several exciting projects related to the role of the natriuretic peptide system in cardiometabolic health, identifying novel biomarkers, mechanisms of obesity-related cardiac dysfunction, as well as understanding social determinants in cardiometabolic disease.

Candidates must hold a recent Ph.D. and/or M.D. degree. Experience in **patient-facing clinical research** leading to publication in peer-reviewed journals is recommended.

Information on our postdoctoral training program, benefits, and a virtual tour can be found at <http://www.utsouthwestern.edu/postdocs>.

Interested individuals should send a CV, statement of interests, and a list of three references to:

Dr. Michael Mitakidis, Instructor at Michael.Mitakidis@UTSouthwestern.edu
and Dr. Ambarish Pandey, Associate Professor Ambarish.Pandey@utsouthwestern.edu
