

Molecular Mechanisms of Childhood Cancer Biology

A postdoctoral training position is available in the laboratory of [Dr. Kenneth Chen](#), in the Department of Pediatrics at UT Southwestern Medical Center to study **childhood cancer biology**. Our [laboratory](#) has several exciting projects related to **molecular mechanisms of microRNA biology in childhood cancers such as Wilms tumor, spanning from the molecular genetics of the disease to the discovery of novel therapeutics, using *in vitro*, *in vivo*, and computational tools.**

Candidates must hold a recent Ph.D. and/or M.D. degree. Experience in molecular biology, developmental biology, cancer biology, or genomics leading to publication in peer-reviewed journals is recommended.

Information on our postdoctoral training program, benefits, and a virtual tour can be found at <http://www.utsouthwestern.edu/postdocs>.

Interested individuals should send a CV, statement of interests, and a list of three references to:
