

Molecular Mechanisms and Translational Cancer Research

Are you a dynamic and motivated scientist with a freshly minted Ph.D., eager to push the boundaries of cancer research? If so, we invite you to become a Postdoctoral Fellow in the Brugarolas Lab at UT Southwestern Medical Center!

About Us: The [Brugarolas Lab](#) stands at the forefront of cancer research. By deploying a comprehensive pipeline bridging molecular genetics to clinical practice, our team is committed to advancing our understanding of cancer biology and developing innovative therapies for patients. The Brugarolas lab is also the hub of the [Kidney Cancer Program](#), one of two such programs in the country recognized by a prestigious Specialized Program of Research Excellence ([SPORE](#)) from the National Cancer Institute.

What Sets Us Apart:

- **Translational Excellence:** We bridge the gap between basic research and clinical applications, offering you a unique opportunity to witness the direct impact of your work on patients' lives.
- **Cutting-Edge Research:** We work on groundbreaking projects encompassing genomics, mechanistic studies, biomarkers, animal models, drug discovery, and clinical trials, all under one roof.
- **Collaborative Environment:** We collaborate with a diverse and talented group of researchers, fostering a rich scientific environment where cross-disciplinary ideas thrive.
- **State-of-the-Art Facilities:** UT Southwestern Medical Center offers world-class research facilities, providing you with the tools you need to excel in your research.
- **Career Development:** We are committed to nurturing your scientific career. As a Postdoctoral Fellow, you will have access to a wealth of resources to support your professional growth. Learn more about this [here](#).

Qualifications:

- Recently awarded (less than 6 months) Ph.D. in a related field (cancer biology, molecular biology, genetics, etc.).
- Strong publication record showcasing your research expertise.
- Excellent communication and teamwork skills.
- A passion for advancing cancer research and making a real-world impact.

How to Apply: Interested candidates should submit a current CV, including a list of publications, and a cover letter describing their research interests and why they want to join the Brugarolas Lab as a Postdoctoral Fellow to:

James Brugarolas, M.D., Ph.D.

Director, Kidney Cancer Program

Sherry Wigley Crow Endowed Chair in Cancer Research

Tenured Professor, Internal Medicine/ Hematology-Oncology, Cancer Biology, Genetics, Development and Disease

Simmons Comprehensive Cancer Center

UT Southwestern Medical Center

5323 Harry Hines Blvd., Dallas, TX 75390-8552
