THE MARGARET MILAM McDERMOTT CHAIR OF ANESTHESIOLOGY SEAL

In April 1966, the Board of Regents of the University of Texas announced the endowment of a Chair of Anesthesiology at Southwestern Medical School by Mr. & Mrs. Eugene McDermott, naming the Chair in honor of Mrs. McDermott. The departmental seal was designed by M.T. Jenkins (circa 1966) to commemorate the establishment of the Margaret Milam McDermott Chair of Anesthesiology.

In the form of the eternal circle, the seal has the initials of UTSMS Dallas at the top. The key in the center symbolizes the key role that anesthesiology plays in the relief of surgical pain. The kidney shape in the hand grip of the key symbolizes the department's dedication to fluid balance in the surgical patient. The locking device of the key is shaped like a shamrock symbolizing the Irish heritage of the McDermott Family. The lone star is the symbol of the state of Texas. On the left is the oriental poppy, the plant source of opium, symbolizing the pharmacologic relief of pain. On the right is the chondrodendron tomentosum, the plant source of curare, symbolizing surgical relaxation. The circle binds the alumni of the program into eternal union with the institution which trained them.

Edward R. Johnson Outstanding Visiting Student Award

Presented by: Amy Woods, M.D.

*The Edward R. Johnson Visiting Medical Student Award is presented by the Department of Anesthesiology and Pain Management in recognition of a non-UT Southwestern medical student who embodies the qualities that are essential for distinguished training in Anesthesiology. Mary Booth Steward, M.D. Memorial Award – CLAUDIA LORENTE, MD

Ravi Bhoja, M.D. & Caroline Cammack

Caroline Cammack, through The Whit Cammack Foundation, has generously established a new award in memory of her mother, Mary Booth Steward, M.D. As the first resident to graduate from the Department of Anesthesiology and Pain Management at UT Southwestern Medical Center, Dr. Steward set an extraordinary standard for all subsequent residents who would train in this program. She completed her residency in the mid-1950s and epitomized this new program that defined the legacy of its founder, M.T. "Pepper" Jenkins, M.D. She subsequently went on to serve the community of Abilene, TX while being the first anesthesiologist ever to represent the Department of Anesthesiology and Pain Management. With this honor, we will recognize a graduating resident who best demonstrates many of the intangible, humanistic qualities which were a trademark of Dr. Steward: compassion, professionalism, patient ownership and empathy.
