

2024-2025
Basic Science Lectures for Clinical Fellows

Presented by:

The Cecil H. and Ida Green Center for Reproductive Biology Sciences

Wednesdays / **3:00 – 4:00 pm**

F4.118 Conference Room

October 2, 2024	Ed Grow, Ph.D. What every clinician should know about human preimplantation embryos and pluripotent stem cells
October 30, 2024	Ashley Solmonson, Ph.D. Abnormal metabolism during pregnancy: Clinical manifestations and relevance to perinatal complications
January 22, 2025	Cristel Camacho, Ph.D. PARP inhibitors: Extended benefits beyond BRCAness
February 19, 2025	Xin Liu, Ph.D. Chromatin regulation and human disease: Insights from molecular structure and function
March 19, 2025	Ben Sabari, Ph.D. Gene activation in development and disease
April 16, 2025	Haiqi Chen, Ph.D. What we talk about when we talk about sequencing
May 14, 2025	Gary Hon, Ph.D. Genome engineering and its (future) clinical implications
