What's New in GI 2024

Saturday, April 20, 2024

**Presented by the UT Southwestern Department of Internal Medicine:
Division of Digestive and Liver Diseases and the Office of Continuing Education**

For More information or to Register: <https://tinyurl.com/35y69mb8>

Course Directors

Neha Patel, M.D. and David Fudman, M.D.

Purpose and Content

What's New in GI will provide attendees with practical information that can be applied today in their clinical practice. Discussions will include the latest updates on recognizing symptoms and using current data to establish diagnoses and formulate appropriate treatment plans for the management of gastrointestinal diseases. Several topics will be presented at this one-day symposium through lectures and Q&A session for UT Southwestern experts in the field of gastroenterology. This course is designed for gastroenterologists, GI surgeons, internal medicine physicians, family practice physicians, nurse practitioners, physician assistants and other health care providers with an interest in gastroenterology.

Learning Objectives

1. Describe the benefits of different medications and when to select in treating IBD.
2. Identify diagnosis methods and treatment options for gastroparesis.
3. Explain practical approaches to constipation.
4. Explain the new guidelines on exocrine pancreatic insufficiency.
5. Explain new and relevant updates in the treatment of IBD.

Target Audience

This activity is intended for providers in the specialties of:

- Gastroenterology
- Gastroenterology and Hepatology
- Family Practice
- Internal Medicine
- Surgery - Colon and Rectal
- Surgery - Oncology

What's New in GI 2024

Accreditation and Credit Designation Statements

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the Texas Medical Association (TMA) and the UT Southwestern Department of Internal Medicine: Division of Digestive Liver. The Texas Medical Association is accredited by the ACCME to provide continuing medical education for physicians.  and

The Texas Medical Association designates this live activity for a maximum of 6.25 *AMA PRA Category 1 Credits*[™]. Physicians should claim only the credit commensurate with the extent of this participation in the activity.

ABIM MOC Credit

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 6.0 MOC points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit. 

Evaluations and Certificates

Course evaluations addressing program content, presentations, and possible biases will be available at the conference. Evaluations are an important tool for assessing the effectiveness of this activity as well as for planning future activities. We value your feedback.

Your CME attendance will be documented in your TMA profile portal at the conclusion of the conference.

Maintenance of Certification

To claim ABIM MOC part 2 credit, participants will receive a link to the post conference test via email at the conclusion of the conference. A passing score of 75% is required to pass the post-test. This component must be completed by May 1, 2024, to receive credit.

Disclaimer

This CME program or activity has been planned to be well-balanced and objective in discussion of comparative treatment regimens and allows for the free scientific exchange of ideas. All treatment recommendations in a CME program or activity must be based on evidence that is accepted within the profession of medicine as adequate justification for their indications and contraindications in the care of patients. All scientific research referred to, reported, or used in CME in support or justification of a patient care recommendation conforms to the generally accepted standards of experimental design, data collection, and analysis. Information and opinions offered by the speakers represent their viewpoints. Conclusions drawn by the audience should be derived from careful consideration of all available scientific information.
