

A Randomized Phase III Study of Sublobar Resection (SR) versus Stereotactic Ablative Radiotherapy (SABR) in High Risk Patients with Stage I Non-Small Cell Lung Cancer (NSCLC)

“Stablemates Trial”

Patient resources for Stablemates

UT Southwestern has developed an information sheet to educate patients about the basics of clinical trial participation and about the Stablemates trial in particular.

The information sheet will be made available in pdf form in both English and Spanish versions for sites to print out and distribute as needed. We are currently waiting for IRB approval before releasing.

Feedback from our subsites has suggested that some patients can be overwhelmed by the amount of information presented to them at consultation, and

would benefit from having a “take home” sheet to review. This sheet can be used in combination with our patient education video (located [here](#) and on the home page of the Stablemates web site) to help patients understand their treatment options as well as the prandomization process.

We encourage you to identify and share any barriers to patient enrollment you may have encountered so far. If we know about particular barriers patients are facing, we may be able to devise solutions when appropriate.

Subsite update

Active:

- Anne Arundel Medical Center
- CHUM-Notre Dame Hospital
- Henry Ford Health System
- Lifespan Oncology Clinical Research
- Memorial Health University
- Ohio State University
- Penn State (Mount Nittany Medical Center)
- Penrose Cancer Center
- Swedish Cancer Institute
- University of Kentucky
- University of Louisville Physicians
- University of Maryland

- UT Southwestern Medical Center
- West Clinic / University of Tennessee

Completed contracts and IRB approval:

- Boston University
- Intermountain Medical Center
- Mayo Clinic Rochester
- Ochsner Medical Center
- Ottawa
- SUNY
- University of Colorado
- Wake Forest

Completed contracts:

- Metro Minnesota
- Providence Health and Services
- Rutgers Cancer Institute of NJ

Jolt-Ca Study Accrual by Site

Stablemates at NRG

Stablemates investigators met at the recent NRG convention in Dallas in July to review key aspects of the trial with organizers from UT Southwestern Medical Center.
