Bacterial Domain/ Postdoctoral Researcher

A postdoctoral training position is available in the laboratories of Kimberly Reynolds and Scott Saunders, in the Lyda Hill Department of Bioinformatics at UT Southwestern Medical Center to advance our understanding of the bacterial domain of life using high throughput genetics to map the molecular interactions that underly cellular physiology. The Saunders Lab and Reynolds Lab, have several exciting projects related to bacterial genetics, designer mutant libraries, and interaction networks.

Candidates must hold a recent Ph.D. and/or M.D. degree. Experience in Biology and the related fields leading to publication in peer-reviewed journals is recommended.

Information on our postdoctoral training program, benefits, and a virtual tour can be found at http://www.utsouthwestern.edu/postdocs.

Interested individuals should send a CV, statement of interests, and a list of three references to:
