Postdoctoral fellow in Immuno-oncology

A postdoctoral training position is available in the laboratory of Dr. Esra Akbay, Assistant Professor of Pathology at UT Southwestern Medical Center in Dallas to study lung cancer biology. Our laboratory has several exciting projects characterizing novel immune evasion mechanisms employed by tumors and developing badly needed, immunotherapies for lung and other common cancers. Our recent work can be found here.

Candidates must hold a Ph.D. or M.D./Ph.D. degree. Experience in mouse models, cancer biology, cell culture, flow cytometry, and immunohistochemistry are preferred. Applicants with prior work leading to first author publications are strongly encouraged to apply. Priority will be given to highly motivated applicants who can work independently.

Information on our postdoctoral training program and benefits can be found in our Postdoc Handbook or at http://www.utsouthwestern.edu/postdocs.

Interested individuals should send a CV, statement of interests and a list of three references to:
