Postdoctoral positions in Molecular Immunology/Cancer Immunology/T Cell Biology:

A postdoctoral position is available in the laboratory of Dr. Venuprasad Poojary in the Department of Internal Medicine, Digestive and Liver, at UT Southwestern Medical Center. Our lab studies inflammation and cancer in mouse models (Kathania et al. Cell Reports, 2022, Kumar R et al., Trends in Immunol, 2022; Thiess et al., Cell Reports, 2022; Mukherjee S et al. Nat. Immunol, 2021; Singh AK et al. Nat. Commun, 2021; Kathania M et al., Nat. Immunol, 2016, etc.).

Our goal is to identify key regulatory mechanisms in the immune cells that regulate inflammation and to target these pathways in human diseases. Additional information can be found on our lab website, Poojary Lab - UT Southwestern, Dallas, Texas.

The Poojary laboratory is well equipped for in vitro biochemical/molecular/cellular studies and in vivo animal studies in immunology and cancer biology.

For postdoctoral positions, candidates must hold a recent Ph.D. and/or M.D. degree. Experience in cell biology, biochemistry, molecular biology, cancer biology, and immunology leading to publication in peer-reviewed journals is recommended.

Information on our postdoctoral training program, benefits, and a virtual tour can be found at http://www.utsouthwestern.edu/postdocs.

Interested individuals should send a CV, statement of interests, and a list of three references to:

Venuprasad K. Poojary, Ph.D.
Associate Professor of Internal Medicine and Immunology
UT Southwestern Medical Center
5323 Harry Hines Blvd.
