Two postdoctoral training positions are immediately available in the laboratory of Dr. Chun-Li Zhang (https://profiles.utsouthwestern.edu/profile/29691/chun-li-zhang.html), Department of Molecular Biology, Center for Regenerative Science and Medicine at UT Southwestern Medical Center. One is to investigate molecular and cellular mechanisms underlying neural injuries. The other is to examine cellular plasticity and neural regeneration following brain and spinal cord injury.

The Zhang laboratory is well equipped for both in vitro and in vivo studies in modern neuroscience. The successful candidate will benefit from exceptional core facilities and a very collaborative environment. UT Southwestern is the home of 6 Nobel Laureates, 22 members of the National Academy of Sciences, and 16 members of the National Academy of Medicine.

Candidates must hold a Ph.D. and/or M.D. degree. Experience in molecular and cellular neuroscience leading to publications in peer-reviewed journals is required. Information on our postdoctoral training program and benefits can be found in our Postdoc Handbook or at http://www.utsouthwestern.edu/postdocs.

Interested individuals should send a CV, statement of interests, and a list of three references to:

Chun-Li Zhang, Ph.D.
