Postdoctoral Research Scholar Position

A postdoctoral training position is available in the laboratory of Rodney Infante, M.D., Ph.D., in the Center of Human Nutrition at UT Southwestern Medical Center to study cancer cachexia (body metabolism changes that occur in the setting of cancer). Our laboratory has several exciting projects related to Cancer’s effects on adipose wasting and food intake. The lab’s project is working on a collaboration with Pfizer, Inc.

Candidates must hold a Ph.D. and/or M.D. degree. Experience in animal experimentation and molecular biology leading to publication in peer-reviewed journals is recommended.

Information on our postdoctoral training program and benefits can be found in our Postdoc Handbook or at http://www.utsouthwestern.edu/postdocs.

Interested individuals should send a CV, statement of interests, and a list of three references to:
