Postdoctoral Research Scholar

Postdoctoral training positions are available in the laboratory of Dr. Guo-Min Li (https://www.utsouthwestern.edu/labs/li-guo-min/) in the Department of Radiation Oncology at UT Southwestern Medical Center to study cellular mechanisms maintaining genome stability and their impact on human diseases, including cancer and neurodegenerative disorders. Our laboratory has several exciting projects related to diverse areas of cancer genetics and cancer drug discovery. Candidates must hold a Ph.D. and/or M.D. degree and have experience in molecular biology, cell biology, genetics, mice model and biochemistry. Preference will be given to candidates with a strong publication record in these areas. Structural biology, bioinformatics/computational biology experience in any system is preferred but not required.

Information on our postdoctoral training program and benefits can be found in our Postdoc Handbook or at http://www.utsouthwestern.edu/postdocs.

Interested individuals should send a CV, statement of interests, and a list of three references to:
