Postdoctoral Position Available in Gene Regulation and Circadian Clocks

A Postdoctoral training position is immediately available in the laboratory of Dr. Yi Liu, Department of Physiology at UT Southwestern Medical Center. One focus of our research is to investigate the role and mechanism of synonymous codon usage in regulating gene expression and protein structure. The other focus is to study the molecular and biochemical mechanism of circadian clocks. Please see our lab web site (https://www.utsouthwestern.edu/labs/liu-yi/) for details of our research interests.

Candidates must have a Ph.D. degree. Strong background in molecular biology or biochemistry is required. Experience in genomics and bioinformatics is not required but is preferred.

Please send your CV and the names of three references to Yi.Liu@UTSouthwestern.edu.

Yi Liu, Ph.D.
Professor
Dept. of Physiology
University of Texas Southwestern Medical Center
5323 Harry Hines Blvd.
Dallas, TX. 75390-9040

*UT Southwestern Medical Center is an Affirmative Action/Equal Opportunity Employer. Women, minorities, veterans and individuals with disabilities are encouraged to apply.*
