Molecular Mechanisms and Translational Research in Kidney Cancer

A postdoctoral research scholar position is available in the Brugarolas lab for highly-motivated individuals to study signaling mechanisms in kidney cancer. The Brugarolas lab is the hub of a prestigious Specialized Program of Research Excellence (SPORE). For more information, please see http://www3.utsouthwestern.edu/brugarolaslab/ and www.utsouthwestern.edu/kidneycancer

Qualifications:

Candidates should be in the last year of their doctoral studies or within 6 months of a Ph.D. degree. A track record of productivity and publications in well-established journals is essential. Successful applicants will have the opportunity to work in a translational research program spanning from the molecular genetics of the disease to the clinic.

Interested candidates should send a CV and a personal statement explaining their interest in the program to:

James Brugarolas, M.D., Ph.D.
Director, Kidney Cancer Program
Sherry Wigley Crow Endowed Chair in Cancer Research
Professor, Internal Medicine/ Hematology-Oncology,
Cancer Biology, Genetics, Development and Disease
Simmons Comprehensive Cancer Center
University of Texas Southwestern Medical Center
5323 Harry Hines Blvd.
Dallas, TX 75390-8852
James.Brugarolas@utsouth.edu

UT Southwestern Medical Center is an Affirmative Action/Equal Opportunity Employer. Women, minorities, veterans and individuals with disabilities are encouraged to apply.
