Postdoctoral position in synaptic electrophysiology

A postdoctoral NIH-funded training position is available in the laboratory of Dr. Juan Pascual, in the Department of Neurology and Neurotherapeutics at UT Southwestern Medical Center to study synaptic function in mouse models of neurometabolic disease. Our laboratory has several exciting projects related to brain metabolism and excitability.

Candidates must hold a Ph.D. and/or M.D. degree. Experience in brain slice electrophysiology leading to publication in peer-reviewed journals is required.

Information on our postdoctoral training program and benefits can be found in our Postdoc Handbook or at http://www.utsouthwestern.edu/postdocs.

Interested individuals should send a CV, statement of interests, and a list of three references to:

Juan M. Pascual, MD, PhD
UT Southwestern Medical Center
5323 Harry Hines Blvd.
Dallas, TX 75390-8813
Juan.Pascual@UTSouthwestern.edu

UT Southwestern Medical Center is an Affirmative Action/Equal Opportunity Employer. Women, minorities, veterans and individuals with disabilities are encouraged to apply.
