Postdoctoral Fellow – Therapeutic Resistance in Cancer

A postdoctoral training position is available in the laboratory of Ganesh Raj, M.D., Ph.D. in the Urology Department at UT Southwestern Medical Center to study mechanisms of therapeutic resistance in breast and prostate cancer. Our laboratory has several exciting projects related to: 1. Deciphering mechanism in therapy resistance. 2. Development of new models. 3. Development of novel therapies.

Candidates must hold a Ph.D. and/or M.D. degree. Experience in next generation sequencing approaches leading to publication in peer-reviewed journals is recommended.

Information on our postdoctoral training program and benefits can be found in our Postdoc Handbook or at http://www.utsouthwestern.edu/postdocs.

Interested individuals should send a CV, statement of interests, and a list of three references to:
