Postdoctoral Researcher

A postdoctoral position is available in the laboratory of Drs. Philip W. Shaul and Chieko Mineo in the Center for Pulmonary and Vascular Biology in the Department of Pediatrics at UT Southwestern Medical Center to study vascular biology. Our laboratory has several exciting projects related to fundamental processes in vascular endothelial cells that govern cardiovascular and metabolic health and disease.

Candidates must hold a Ph.D. and/or M.D. degree. Interested candidates must have 1) a strong background in biochemistry, cell biology, molecular biology, or a related discipline, 2) a solid publication record, and 3) scientific curiosity and the desire and ability to work independently. Experience with genetic mouse models and genomic approaches (i.e. RNA-seq) are a plus.

Information on our postdoctoral training program and benefits can be found in our Postdoc Handbook or at http://www.utsouthwestern.edu/postdocs.

Interested individuals should send a CV, statement of interests, and a list of three references to:

Philip W. Shaul, MD  
UT Southwestern Medical Center  
5323 Harry Hines Blvd.  
Dallas, TX 75390-9063
