Overview: This activity provides an opportunity to review and present what is relevant to primary care and up to date information that is applicable to day-to-day practice. In this discussion we will:

1. Define the current United States Public Health Task Force guidelines for: colon, prostate, lung, cervical, and breast cancer screening.
2. Discuss the rationale for changes and updates to cancer screening recommendations as well other organization's views commentary on these guidelines.
3. Recognize the complexity both with the patient-physician conversation regarding the need for cancer screening and patient access to cancer screening testing.

Who should attend? Residents in training, fellows, medical students and other interested health care professionals and physicians at UTSW and Community primary care.

UT Southwestern Family Medicine Grand Rounds provide an updated scientific knowledge foundation which will enhance diagnosis and treatment in the care of our patients.
