

2022-2023 SiNaPS speaker list

- 09/06/2022 **Anda Chirila, Ph.D.**
Ginty Lab, Harvard Medical School
“Mechanoreceptor signal convergence and transformation in the dorsal horn flexibly shape a diversity of outputs to the brain”
Host: Brina Snyder, Ph.D., Department of Anesthesiology & Pain Management
- 10/25/2022 **Han Chow Chua, Ph.D.**
Pless Lab, University of Copenhagen
“Structure and function of the NALCN channelosome”
Host: Mantre Dehnad, M.D., Department of Psychiatry
- 11/01/2022 **Chen Ran, Ph.D.**
Liberles Lab, Harvard Medical School
“Neural coding of visceral senses in the brain”
Host: Yuxiang Liu, Ph.D., Department of Neuroscience
- 01/17/2023 **Husniye Kantarci, Ph.D.**
Zuchero Lab, Stanford University
“Schwann cells promote sensory neuron excitability during development”
Host: Nitin Khandelwal, Ph.D., Department of Neuroscience
- 04/04/2023 **Saumya Jain, Ph.D.**
Zipursky Lab, University of California Los Angeles
“Temporal control of neuronal wiring programs: How do neurons determine which genes to express when?”
Host: Brina Snyder, Ph.D., Department of Anesthesiology & Pain Management
