Brain Break this Friday!

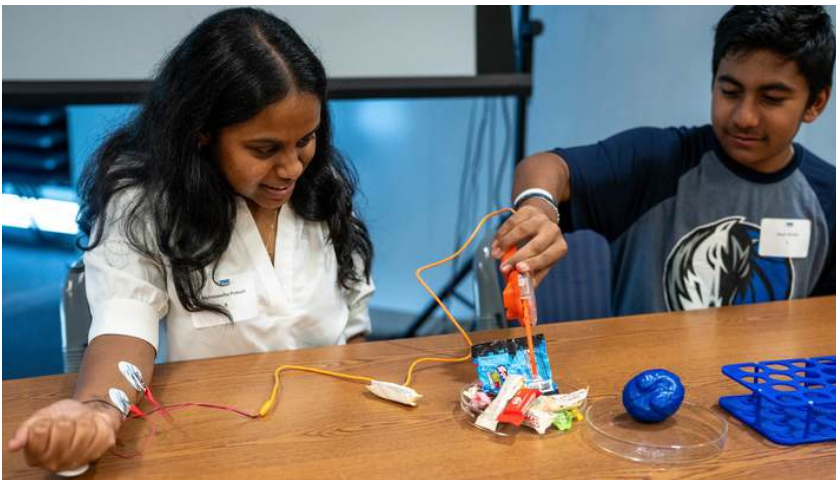

Snacks, drinks and games!

Faculty, students, postdocs, staff, and admins are welcome! Hosted by NeuroCOM

Friday, January 24, 4PM at ND4.218

STARS Neuroscience Day

Our STARS neuroscience outreach event for high school students on October 10, 2024, was a resounding success, fostering curiosity and enthusiasm for research among the next generation of scientists. Over 100 students participated in interactive activities, including hands-on demonstrations, discussions about cutting-edge neuroscience research, and a Q&A session with graduate students and PIs.
