

PATHOLOGY SEMINAR SERIES: 2019 - 2020

All lectures will be held in NB6.132 from 12:00 - 1:00 p.m. except where noted

Date	Speaker	Lecture Title	Host
September 17	Dr. Ana Patricia Gomes Postdoctoral Fellow Weill Cornell Medical College	Age-Driven Mechanisms of Tumor Cell Plasticity	Dr. Diego Castrillon x84032
September 25 CUH - UH02.138	Dr. James S. Lewis Jr. Professor Vanderbilt University	What Has Human Papillomavirus Taught Us About Head and Neck?	Dr. Justin Bishop x36349
September 26	Dr. David Lyden Professor Weill Cornell Medical College	Tumor Exosomes and Exomeres Promote the Systemic Effects of Metastatic Disease	Dr. Srinivas Malladi x84121
October 8	Dr. Michelle C. Barton Professor UT MD Anderson Cancer Center	TRIM24: A Histone Reader Drives Triple-Negative Breast Cancer	Dr. Weibo Luo x57008
October 17	Dr. Adam C. Seegmiller Associate Professor Vanderbilt University	Coordinated Multi-Modality Diagnostic Testing in Myeloid Neoplasms	Dr. Flavia Rosado x80938
October 22	Dr. Matam Vijay-Kumar Associate Professor University of Toledo	Interplay Between Dietary Fiber and Gut Microbiota in Liver Cancer: The Dark Side of Fermentation	Dr. Hasan Zaki x85196
November 26	Dr. Tamas Ordog Consultant Mayo Clinic	It's a Gas: Physiologic Control of Super-Enhancer Choice in Nitrergic Neurons	Dr. Weibo Luo x57008
December 3	Dr. Grzegorz Ira Professor Baylor College of Medicine	Mechanisms of Genome Instability	Dr. Peter Ly x84107
Bennett Lecture December 17	Dr. Joseph C. Sun Associate Professor Memorial Sloan Kettering Cancer Center	Natural Killer Cells in Antiviral Defense	Dr. James Malter x84020
December 19	Dr. W. Stephen Black-Schaffer Associate Professor Harvard Medical School	Cutting Edge Innovations in Pathology Education	Dr. Charles Timmons x63323
January 7	Dr. Nadav Ahituv Professor University of California, San Francisco	Functional Characterization and Therapeutic Targeting of Gene Regulatory Elements	Dr. Ram Mani x57007
January 14	Dr. Arjun Raman Postdoctoral Fellow Washington University	A Statistical Description of the Gut Community Structure in Healthy and Undernourished Children	Dr. Diego Castrillon x84032
January 16	Dr. John Hart Professor University of Chicago	GI Polyposis Syndromes in the Era of Next Generation Sequencing - How Should Cases be Signed Out?	Dr. Yan Peng x36347
January 28	Dr. Jin-Moo Lee Professor Washington University	TBD	Dr. Yingfei Wang x57961
February 4	Dr. Wenyi Wei Professor Harvard Medical School	Targeting Cell Signaling Pathways for Cancer Therapies	Dr. Qing Zhang x54671
February 11	Dr. Dmitry I. Gabilovich Professor Wistar Institute	Myeloid-Derived Suppressor Cells in Regulation of Tumor Progression	Dr. Esra Akbay x84159
February 18	Dr. Russell Broaddus Professor University of North Carolina	Biomarkers of Endometrial Cancer Recurrence Risk	Dr. Diego Castrillon x84032
Weinberg Lecture February 20	Dr. D. Ashley Hill Professor George Washington University School of Medicine	DICER1 Syndrome: At the Borderland of Embryology and Pathology	Dr. Dinesh Rakheja x84018
March 3	Dr. Binghui Shen Professor City of Hope	Hormone-Induced DNA Damage Response and its Synthetic Lethality with PARP Inhibitors	Dr. Yingfei Wang x57961
March 10	Dr. Chad Pecot Assistant Professor University of North Carolina	Dynamic Intrinsic and Non-Cell Autonomous Drivers of Metastases	Dr. Esra Akbay x84159
March 24	Dr. Maria Jasin Member Memorial Sloan Kettering Cancer Center	Protecting the Genome by Homologous Recombination	Dr. Peter Ly x84107
March 31	Dr. Beth Sullivan Associate Professor Duke University School of Medicine	No Junk DNA Here – Finding Function in the Recesses of the Human Genome	Dr. Peter Ly x84107
April 7	Dr. Daphne W. Bell Senior Investigator National Human Genome Research Institute, NIH	TBD	Dr. Diego Castrillon x84032
April 14	Dr. Carla Koehler Professor University of California, Los Angeles (UCLA)	Modulating Mitochondrial Protein and RNA Translocation Pathways in Disease	Dr. Yingfei Wang x57961
Peacock Memorial Lecture April 21	Dr. Richard Blumberg Professor Harvard Medical School	TBD	Dr. James Malter - x84020 Dr. Hasan Zaki - x85196
May 5	Dr. A. Ari Hakimi Assistant Professor Memorial Sloan Kettering Cancer Center	Clinical and Therapeutic Implications of the Tumor Microenvironment in Clear Cell Renal Cell Carcinoma	Dr. Qing Zhang x54671
May 12	Dr. Cyrus Ghajar Assistant Member Fred Hutch Cancer Center	TBD	Dr. Srinivas Malladi x84121
