

**SCIENCE  
STARTS  
HERE**

## **Medical District PK-8 BIOMEDICAL SCHOOL**

Educational Partnership between Dallas ISD  
and UT Southwestern Medical Center

**One-of-a-kind  
educational  
opportunity**

- Enrolling Pre-K (3 and 4 years old) to 1st grade
- Adding a grade level each year, up to 8<sup>th</sup> grade
- 50/50 Transformation School
- Transportation provided to Transformation Schools for students living within District boundaries
- Application window is open November through January

The Medical District PK-8 Biomedical School will offer students a STEM program focused on Biomedical Sciences, which will stimulate curiosity about the wonders of science and also provide children a foundation for future discovery. This unique partnership with UT Southwestern provides opportunities for firsthand exposure to real-world science for students as well as professional learning and educator preparation for staff.

**Opening  
Fall 2022**

**DALLAS**   
INDEPENDENT SCHOOL DISTRICT

**In addition to the instructional highlights, students will also experience:**

STEM and biomedical science-related field trips

Hands-on science activities

Firsthand exposure to real-world scientists

Focus on social and emotional learning

All students engage in robotics and coding

School located on UT Southwestern Medical Center campus
