

September 29, 2021

This Event will be Virtual

1:00 - 3:55 PM

INTRODUCTION

1:00 PM

FEATURED SPEAKERS:

Jin Chen, Ph.D.

1:10 PM

Cecil H. and Ida Green Center For Reproductive Biology Sciences
Beyond the Annotated Proteome and the Canonical Rules of Translation

Benjamin Sabari, Ph.D

1:25 PM

Cecil H. and Ida Green Center for Reproductive Biology Sciences
Nuclear Organization by Biomolecular Condensates

Isaac Chan, M.D., Ph.D

1:40 PM

Internal Medicine
Deciphering the Role of Natural Killer Cells in Metastatic Breast Cancer

Lorena Saelices Gomez, Ph.D

1:55 PM

Center for Alzheimer's and Neurodegenerative Diseases
Closing the Gap Between Structural Biology and Translational Science in Amyloid Disorders

Matteo Ligorio, M.D., Ph.D

2:10 PM

Department of Surgery & Harold C. Simmons Comprehensive Cancer Center
Stromal Microenvironment Shapes the Intratumoral Architecture of Pancreatic Cancer

BREAK

2:25 - 2:45 PM

Andrew Sandstrom, Ph.D.

2:50 PM

Immunology
Uncovering Mechanisms of Effector Triggered Immunity

Benjamin Drapkin, M.D., Ph.D.

3:05 PM

Internal Medicine
Dissecting Cross-Resistance in Small Cell Lung Cancer

Lu Sun, Ph.D.

3:20 PM

Molecular Biology
Mechanisms Underlying Neuron-glia Interactions

CLOSING REMARKS

3:35 PM
