

Technology Commercialization

Manages and markets intellectual property developed by university investigator/inventors. Identifies companies best suited for commercial development of intellectual property.

Cooperative and Sponsored Research

Drafts, negotiates and executes all non-royalty bearing legal agreements governing intellectual property transferred onto or off of UT Southwestern's campus.

Venture Development

Researches technologies suitable for entrepreneurial development and assists in developing start-up companies based on those technologies.

Financial Management

Manages the Office for Technology Development's financial portfolio.
