

Short Title	GI Alkali Loss in Uric Acid Stone Formers
Study Number	092010-062
Study Title	Potential Role of <i>Gastrointestinal Alkali Loss</i> in Patients with Uric Acid Nephrolithiasis
Disease/Condition Under Study	Kidney Stones
Brief Description of Study	This study is being done to determine whether patients with uric acid kidney stones experience alkali loss through the gastrointestinal tract. This study requires one 4-day inpatient stay.
Participant Eligibility	Normal Volunteers
	Uric Acid Kidney Stone Formers
	Age: \geq 21 years
	Excluded: anemia, chronic alcohol use, chronic liver disease, chronic renal disease, and pregnancy.
Study Drug	None
Study Doctor	Khashayar Sakahee, MD
Location	Clinical and Translational Research Center
Contact Name	Elaine Isaminger, MD
Contact Phone	214-648-0439
