Course Objectives

This course is designed specifically to provide the orthopaedic resident, athletic trainer, and physical therapist with the level or knowledge of orthopaedics and sports medicine expected of professionals in these fields. Clinically useful topics will address the needs of practicing health care professionals. The course will include a didactic lecture portion, a hands-on cadaver dissection, and a simulated arthroscopy lab. (Approximately 12 CEUs are available for this course.)

Registration

The registration fee of \$375 (Residents)/\$150 (Athletic Trainers/Physical Therapists) includes a course syllabus, continental breakfast, and lunch on Friday and Saturday.
