

**CURRICULUM VITAE****I. COMPLETE NAME**

Masaki Mizuno, Ph.D.  
 Department of Applied Clinical Research  
 University of Texas Southwestern Medical Center  
 5323 Harry Hines Boulevard, Dallas, Texas 75390-9174, USA  
 Tel: +1-214-648-9188  
 FAX: +1-214-648-3566  
 E-mail: masaki.mizuno@utsouthwestern.edu

**II. EDUCATION**

|  |                     |         |
|--|---------------------|---------|
| UT Southwestern Medical Center, Dallas, TX | Postdoctoral Fellow | 05/2011 |
| Waseda University, Tokyo, JAPAN            | PhD                 | 03/2005 |
| Waseda University, Tokyo, JAPAN            | MS                  | 03/2002 |
| Waseda University, Tokyo, JAPAN            | BS                  | 03/2000 |

**III. PROFESSIONAL EXPERIENCE**

## 1. Academic:

|                 |  |
|-----------------|--|
| 09/2020-present | Associate Professor<br>Department of Applied Clinical Research, University of Texas Southwestern Medical Center at Dallas                  |
| 11/2019-08/2020 | Assistant Professor<br>Department of Applied Clinical Research, University of Texas Southwestern Medical Center at Dallas                  |
| 04/2014-10/2019 | Assistant Professor<br>Department of Health Care Sciences, University of Texas Southwestern Medical Center at Dallas                       |
| 06/2011-03/2013 | Instructor<br>Department of Health Care Sciences, University of Texas Southwestern Medical Center at Dallas                                |
| 05/2009-05/2011 | Postdoctoral Research Fellow<br>Department of Physical Therapy, University of Texas Southwestern Medical Center at Dallas                  |
| 04/2009-10/2011 | Postdoctoral Research Fellow<br>Japan Society for the Promotion of Science (JSPS), Research Fellowships for Young Scientists               |
| 09/2008-03/2009 | Part time Instructor (Sports Nutrition)<br>School of Law, Setsunan University  |
| 09/2007-03/2009 | Part time Instructor (Health Science, Sports Sciences)<br>Faculty of Service Industries, University of Marketing and Distribution Sciences |
| 04/2006-03/2009 | Research Fellow<br>Department of Cardiovascular Dynamics, National Cardiovascular, Center Research Institute                               |
| 04/2005-03/2006 | Research Associate<br>Faculty of Sport Sciences, Waseda University   |
| 04/2005-03/2006 | Visiting Researcher<br>Positron Medical Center, Tokyo Metropolitan Institute of Gerontology  |

#### **VI. RESEARCH AND SCHOLARSHIP**

1. Research Grants and Contracts

Pending

Title: The impact of amyloid- $\beta$  on blood pressure variability

Purpose: These studies are designed to determine the effect of amyloid- $\beta$  accumulation on the development of blood pressure variability in Alzheimer's disease.

Funding Agency: Texas Alzheimer's Research and Care Consortium

Funding Dates: 03/01/2022-02/28/2023

Amount Award: \$ 797,407

Principal Investigator: M. Mizuno

Role: PI, 15% effort

Not funded

Title: The role of SGLT2 inhibitors and ketosis in sympathetic regulation of Blood Pressure

Purpose: These studies are designed to investigate Sodium-glucose transport protein 2 inhibitor inhibitors and nutritional ketosis attenuate the excessive rise in blood pressure and sympathetic activation during exercise in both hypertensive humans and rodents.

Funding Agency: NIH NHLBI (R01HL133179)

Funding Dates: 04/01/2022-03/31/2027

Amount Award: \$4,054,148

Principal Investigator: W. Vongpatanasin and M. Mizuno

Role: MPI, 20% effort

Present

Title: Impact of amyloid- $\beta$  accumulation before diagnosis of Alzheimer's disease on blood pressure variability

Purpose: These studies are designed to determine the effect of amyloid- $\beta$  accumulation on the development of blood pressure variability in Alzheimer's disease.

Funding Agency: Pilot Synergy Grants for Collaborative Research- UTSW

Funding Dates: 03/01/2022-02/28/2023

Amount Award: \$ 100,000

Principal Investigator: M. Mizuno

Role: PI, 5% effort

Title: Amyloid- $\beta$  and abnormal blood pressure control

Purpose: These studies are designed to determine the effect of amyloid- $\beta$  accumulation on the development of blood pressure variability in Alzheimer's disease.

Funding Agency: Overseas Postdoctoral Fellowships, The Uehara Memorial Foundation  
Funding Dates: 04/01/2022-03/31/2023  
Amount Award: \$30,000  
Principal Investigator: A. Fukazawa  
Role: Mentor: M. Mizuno,

Title: Control of blood pressure by gut-derived toxins in muscle sensory neuron  
Purpose: These studies are designed to determine the contributions of gut gram-negative bacteria such as lipopolysaccharides to the development of exercise pressor reflex dysfunction in obesity.  
Funding Agency: SHP Interdisciplinary Research Grant Program-UTSW  
Funding Dates: 09/01/2021-08/31/2022  
Amount Award: \$13,000  
Principal Investigator: R. Ishizawa  
Role: Co-Investigator: M. Mizuno, 5% effort

Title: Targeting Insulin Resistance to Improve Abnormal Cardiovascular Control in Diabetes  
Purpose: These studies are designed to determine the contributions of hyperinsulinemia to the development of exercise pressor reflex dysfunction in diabetes.  
Funding Agency: NIH NHLBI (R01HL151632)  
Funding Dates: 04/01/2020-03/31/2025  
Amount requested: \$ 1,971,528  
Principal Investigator: Masaki Mizuno, 30% effort

Title: Preventing Hypertension and Sympathetic Overactivation by Targeting Phosphate  
Purpose: These studies are designed to determine the contributions of phosphate in the development of hypertension and sympathetic overactivation.  
Funding Agency: NIH R01 HL113738  
Funding Dates: 04/01/2017-03/31/2022 (No cost extension)  
Amount Awarded: \$3,169,816  
Principal Investigator: W. Vongpatanasin  
Role: Collaborator: M. Mizuno, 20% effort

#### Completed

Title: The impact of exercise intensity on brain derived neurotrophic factor in Parkinson's disease: A Pilot study, from the bench to the clinic  
Purpose: These studies are designed to determine the impact of exercise intensity on BDNF and functional outcomes in a parallel model of PD in rats and humans.  
Funding Agency: Interdisciplinary Research Grant Program, UTSW  
Funding Dates: 09/01/2019-08/31/2020  
Amount Awarded: \$10,000  
Principal Investigator: Staci Shearin  
Role: Collaborator: M. Mizuno, 5% effort

Title: Neuroprotective and metabolic effects of geranylgeraniol and  $\delta$ -tocotrienol in streptozotocin-induced Alzheimer's rat models  
Purpose: These studies are designed to elucidate potential impact of geranylgeraniol and  $\delta$ -tocotrienol on A $\beta$ - and metabolic-related disturbances in the Alzheimer's disease animal model.  
Funding Agency: Interdisciplinary Research Grant Program, UTSW  
Funding Dates: 09/01/2019-08/31/2020  
Amount Awarded: \$10,000

Principal Investigator: Hoda Yeganehjoo  
Role: Collaborator: M. Mizuno, 5% effort

Title: The Role of Insulin in Augmenting Exercise Pressor Reflex Function in Diabetes  
Purpose: These studies are designed to determine the contributions of hyperinsulinemia to the development of exercise pressor reflex dysfunction in diabetes.  
Funding Agency: Grant-in-Aid for Scientific Research -Japan Society for the Promotion of Science (JSPS)  
Funding Dates: 04/01/2017-03/31/2020  
Amount Awarded: \$46,800  
Principal Investigator: Norio Hotta  
Role: Collaborator: M. Mizuno, 10% effort

Title: Targeting Insulin Resistance to Improve Abnormal Cardiovascular Control in Diabetes  
Purpose: These studies are designed to determine the mechanisms responsible for the development of abnormal exercise pressor reflex function in type 2 diabetes.  
Funding Agency: Interdisciplinary Research Grant Program, UTSW  
Funding Dates: 09/01/2018-08/31/2019  
Amount Awarded: \$14,000  
Principal Investigator: Masaki Mizuno

Title: Hyperinsulinemia Augments Exercise Pressor Reflex Function in Diabetes  
Purpose: These studies are designed to determine the contributions of hyperinsulinemia to the development of exercise pressor reflex dysfunction in diabetes.  
Funding Agency: Grants for scientific research-The Nakatomi Foundation  
Funding Dates: 04/01/2018-03/31/2019  
Amount Awarded: \$10,000  
Principal Investigator: Norio Hotta  
Role: Collaborator: M. Mizuno, 5% effort

Title: Impact of geranylgeraniol and d-8-tocotrienol on the cognitive function and hippocampal protein biomarkers in streptozotocin-induced Alzheimer's rat models.  
Purpose: These studies are designed to determine effect of geranylgeraniol and d-8-tocotrienol diet on the cognitive function in Alzheimer's disease.  
Funding Agency: SHP Interdisciplinary Research Grant Program-UTSW  
Funding Dates: 09/01/2017-08/31/2018  
Amount Awarded: \$14,000  
Principal Investigator: H. Yeganehjoo  
Role: Co-Investigator: M Mizuno, 15% effort

Title: The Role of Aldosterone in Augmenting Exercise Pressor Reflex Function in Hypertension  
Purpose: These studies are designed to determine the contributions of hyperaldosteronism to the development of exercise pressor reflex dysfunction in hypertension.  
Funding Agency: NIH R01 HL113738  
Funding Dates: 02/01/2013-01/31/2017  
Amount Awarded: \$550,995  
Principal Investigator: W. Vongpatanasin  
Role: Collaborator: M. Mizuno, 20% effort

Title: The Role of Klotho in Sympathetic Regulation in Hypertension

Purpose: These studies are designed to determine the role of Klotho in the development of abnormal autonomic function during physical exercise in hypertensive rats.

Funding Agency: O'Brien Kidney Research Center P&F Grant-UTSW

Funding Dates: 06/01/2015-05/31/2016

Amount Awarded: \$35,000

Principal Investigator: Masaki Mizuno

b. Abstracts (First Author or Senior Author only)

- 1) Juan A. Estrada, Norio Hotta, Gary A. Iwamoto, Han-Kyul Kim, Wanpen Vongpatanasin, Jere H. Mitchell, Scott A. Smith, **Masaki Mizuno**. Brain Insulin Receptor Antagonism Augments the Blood Pressure Response to Activation of the Exercise Pressor Reflex. *69<sup>th</sup> Annual Congress of the American College of Sports Medicine*, San Diego, USA, May-June, 2021. *Medicine and Science in Sports Exercise*. Vol. 53, 8S: 285, 2022.
- 2) **Masaki Mizuno**, Rie Ishizawa, Norio Hotta, Han-Kyul Kim, Gary A. Iwamoto, Wanpen Vongpatanasin, Scott A. Smith, Jere H. Mitchell. Frequency dependent neural discharge of group IV muscle afferents to sinusoidal mechanical stimulation in rats. *69<sup>th</sup> Annual Congress of the American College of Sports Medicine*, San Diego, USA, May-June, 2021. *Medicine and Science in Sports Exercise*. Vol. 53, 8S: 285, 2022.
- 3) Rie Ishizawa, Norio Hotta, Han-Kyul Kim, Gary A. Iwamoto, Wanpen Vongpatanasin, Scott A. Smith, Jere H. Mitchell, **Masaki Mizuno**. Yoda1-induced Piezo1 channel activity in group IV muscle afferents of type 2 diabetic rats. *69<sup>th</sup> Annual Congress of the American College of Sports Medicine*, San Diego, USA, May-June, 2021. *Medicine and Science in Sports Exercise*. Vol. 53, 8S: 285, 2022.
- 4) Ayumi Fukazawa, Amane Hori, Hotta Norio, Juan Estrada, Kimiaki Katanosaka, Kazue Mizumura, Jun Sato, Rie Ishizawa, Han-Kyul Kim, Gary A. Iwamoto, Wanpen Vongpatanasin, Jere H. Mitchell, Scott A. Smith, and **Masaki Mizuno**. Intramuscular Insulin administration potentiates sympathetic and pressor the responses to capsaicin in normal healthy rats. *Experimental Biology 2022*, Philadelphia, USA, April, 2022. *FASEB Journal Vol. 35, S1, 2022*.
- 5) Han-Kyul Kim, Rie Ishizawa, Ayumi Fukazawa, Jere H. Mitchell, Scott A. Smith, **Masaki Mizuno**, and Wanpen Vongpatanasin. Dapagliflozin Reduces Elevated Blood Pressure and Skeletal Muscle Reflex Overactivation in Young Prehypertensive Spontaneously Hypertensive Rats. *Experimental Biology 2022*, Philadelphia, USA, April, 2022. *FASEB Journal Vol. 35, S1, 2022*.
- 6) Amane Hori, Teruaki Nasu, Ryuji Saito, Kimiaki Katanosaka, Kazue Mizumura, **Masaki Mizuno**, Norio Hotta Exposure to Repeated Cold Stress on Potentiates Sympathetic and Cardiovascular Responses to activation of Skeletal Muscle Mechanoreflex in Decerebrated Rats. *Experimental Biology 2022*, Philadelphia, USA, April, 2022. *FASEB Journal Vol. 35, S1, 2022*.

- 7) Rie Ishizawa, Norio Hotta, Han-Kyul Kim, Gary A. Iwamoto, Jere H. Mitchell, Scott A. Smith, Wanpen Vongpatanasin, **Masaki Mizuno**. High-glucose exposure potentiates the response to capsaicin-induced TRPV1 activation in group IV muscle afferents. *68<sup>th</sup> Annual Congress of the American College of Sports Medicine*, Virtual, USA, June, 2021. *Medicine and Science in Sports Exercise*. Vol. 53, 8S: 285, 2021.
- 8) Han-Kyul Kim, **Masaki Mizuno**, Jere H. Mitchell, Johanne V. Pastor, Orson W. Moe, Scott A. Smith, Beverly A. Rothermel, and Wanpen Vongpatanasin. Central Calcineurin Plays a Role in Skeletal Muscle Reflex Overactivity Induced by High Dietary Phosphate Intake in Rats. *Experimental Biology 2021*, Virtual, USA, April, 2021. *FASEB Journal Vol. 35, S1, 2021*.
- 9) Kanji Matsukawa, Gary A. Iwamoto, Jere H. Mitchell, **Masaki Mizuno**, Han-Kyul Kim, Jon W. Williamson, and Scott A. Smith. Exaggerated pressor and sympathetic nerve responses during spontaneously-occurring motor activity in decerebrate spontaneously hypertensive rats. *Experimental Biology 2021*, Virtual, USA, April, 2021. *FASEB Journal Vol. 35, S1, 2021*.
- 10) Rie Ishizawa, Norio Hotta, Han-Kyul Kim, Gary A. Iwamoto, Jere H. Mitchell, Scott A. Smith, Wanpen Vongpatanasin, **Masaki Mizuno**. Role of Piezo channels in group IV muscle afferent fiber mechanosensation in rats. *Experimental Biology 2021*, Virtual, USA, April, 2021. *FASEB Journal Vol. 35, S1, 2021*.
- 11) Rie Ishizawa, Han-Kyul Kim, Norio Hotta, Gary A. Iwamoto, Wanpen Vongpatanasin, Jere H. Mitchell, Scott A. Smith, and **Masaki Mizuno**. Sensory Neuron Sensitization By Pkc-induced Trpv1 Phosphorylation in Type 2 Diabetic Rats. *67<sup>th</sup> Annual Congress of the American College of Sports Medicine*, San Francisco, USA, May-June, 2020. *Medicine and Science in Sports Exercise*. Vol. 52, 7S: 227, 2020.
- 12) Han-Kyul Kim, Rie Ishizawa, Norio Hotta, Gary A. Iwamoto, Wanpen Vongpatanasin, Jere H. Mitchell, Scott A. Smith, and **Masaki Mizuno**. Skeletal Muscle Reflex-Induced Dysregulation of Sympathetic Nerve Activity in Type 1 Diabetic Rats. *Experimental Biology 2020*, San Diego, USA, April, 2020. *FASEB Journal Vol. 34, S1, 2020*.
- 13) Rie Ishizawa, Han-Kyul Kim, Norio Hotta, Gary A. Iwamoto, Wanpen Vongpatanasin, Jere H. Mitchell, Scott A. Smith, and **Masaki Mizuno**. Sensitization of group IV skeletal muscle afferents in type 1 diabetic rats. *Experimental Biology 2020*, San Diego, USA, April, 2020. *FASEB Journal Vol. 34, S1, 2020*.
- 14) Norio Hotta, Amane Hori, Yukiko Okamura, Reizo Baba, Hidehiro Watanabe, Jun Sugawara, Han-Kyul Kim, Rie Ishizawa, Gary A. Iwamoto, Wanpen Vongpatanasin, Jere H. Mitchell, Scott A. Smith, and **Masaki Mizuno**. Insulin resistance is an independent factor to determine an exaggerated pressor response to ischemic rhythmic handgrip in non-diabetic older adults. *Experimental Biology 2020*, San Diego, USA, April, 2020. *FASEB Journal Vol. 34, S1, 2020*.
- 15) Rie Ishizawa, Han-Kyul Kim, Norio Hotta, Gary A. Iwamoto, Wanpen Vongpatanasin, Jere H. Mitchell, Scott A. Smith, and **Masaki Mizuno**. An exaggerated muscle metaboreflex in diabetic rats is mediated by potentiated skeletal muscle afferent responsiveness. *66<sup>th</sup> Annual Congress of the American College of Sports Medicine*, Orlando USA, May-June, 2019. *Medicine and Science in Sports Exercise*. Vol. 51, No. 6: 494, 2019.
- 16) Norio Hotta, Kimiaki Katanosaka, Kazue Mizumura, Rie Ishizawa, Jere H. Mitchell, Scott A. Smith, and **Masaki Mizuno**. Responses to Mechanical and Chemical Stimuli are Augmented by Insulin Administration in Neurons Innervating Skeletal Muscle. *Experimental Biology 2019*, Orlando, USA, April, 2019. *FASEB Journal Vol. 33, No. 1, 540.1, 2019*.

- 17) Rie Ishizawa, Han-Kyul Kim, Norio Hotta, Gary A. Iwamoto, Wanpen Vongpatanasin, Jere H. Mitchell, Scott A. Smith, and **Masaki Mizuno**. An Exaggerated Muscle Mechanoreflex in Type 2 Diabetic Rats Is Mediated by Potentiated Skeletal Muscle Afferent Discharge to Mechanical Stimulation. *Experimental Biology 2019*, Orlando, USA, April, 2019. Featured Topic - Regulation of Muscle Sympathetic Outflow during Exercise. *FASEB Journal Vol. 33, No. 1, 860.1, 2019*.
- 18) Rie Ishizawa, Norio Hotta, Gary A. Iwamoto, Han-Kyul Kim, Wanpen Vongpatanasin, Jere H. Mitchell, Scott A. Smith and **Masaki Mizuno**. Enhanced muscle afferent responses to mechanical/chemical stimuli in type 2 diabetic rats in vitro. *9th FAOPS*, Kobe, JAPAN March, 2019. *Journal of Physiological Sciences* Volume 69, Supplement 1, pp 1–314, 2019.
- 19) Norio Hotta, Kimiaki Katanosaka, Kazue Mizumura, Jere H. Mitchell, Scott A. Smith and **Masaki Mizuno**. Insulin Potentiates Neuronal Responses to Chemical Stimulation in Thin Muscle Afferents and Dorsal Root Ganglia. 65th Annual Congress of the American College of Sports Medicine, Minneapolis USA, May-June, 2018. *Medicine and Science in Sports Exercise. Vol. 50, No. 5: 536, 2018*.
- 20) Norio Hotta, Kimiaki Katanosaka, Kazue Mizumura, Jere H. Mitchell, Scott A. Smith and **Masaki Mizuno**. Neural Responses to Mechanical Stimulation in Thin Muscle Afferents and Dorsal Root Ganglia are Sensitized by Insulin. *Experimental Biology 2018*, San Diego, USA, April, 2018. Featured Topic - Battle of the Reflexes: Chemo- versus Baroreflexes during Physiological Stressors, Aging and Cardiovascular Disease. *FASEB Journal Vol. 32, No. 1, 884.1, 2018*.
- 21) Masaki Mizuno, Jere H. Mitchell, and Scott A. Smith. Exaggerated Cardiovascular Response to Muscle Mechanoreflex Activation in Type 2 Diabetic Rats. 64th Annual Congress of the American College of Sports Medicine, Denver, USA, May-June, 2017. *Medicine and Science in Sports Exercise. Vol. 49, No. 5: 66-67, 2017*.
- 22) **Masaki Mizuno**, Jere H. Mitchell, and Scott A. Smith. Exaggerated sympathetic and pressor responses to exercise pressor reflex activation are attenuated by intracerebroventricular insulin administration in type 2 diabetic rats. *Experimental Biology 2017*, Chicago, USA, April, 2017. *FASEB Journal Vol. 31, No. 1, 712.3, 2017*.
- 23) **Masaki Mizuno**, Scott Crawford, Samuel Rosengarden, Jere H. Mitchell, Scott A. Smith and Wanpen Vongpatanasin. Excess phosphorus intake potentiates the skeletal muscle mechanoreflex and metaboreflex in rats. 63th Annual Congress of the American College of Sports Medicine, Boston, USA, May-June, 2016. *Medicine and Science in Sports Exercise. Vol. 48, No. 5: 201, 2016*.
- 24) **Masaki Mizuno**, Seth H. Holwerda, Jere H. Mitchell, Scott A. Smith and Paul J. Fadel. Enhanced skeletal muscle metaboreflex activation in type 2 diabetes. *Experimental Biology 2016*, San Diego, USA, April, 2016. *The FASEB Journal Vol. 30, No. 1, 1004.3, 2016*.
- 25) **Masaki Mizuno**, Scott Crawford, Cooper Carnahan, Jere H. Mitchell, Scott A. Smith, Wanpen Vongpatanasin. High inorganic phosphate diet augments the sympathetic response to exercise pressor reflex activation in rats. *Experimental Biology 2016*, San Diego, USA, April, 2016. *The FASEB Journal Vol. 30, No. 1, 1006.1, 2016*.
- 26) **Masaki Mizuno**, Gary A. Iwamoto, Wanpen Vongpatanasin, Jere H. Mitchell, and Scott A. Smith. Exercise training ameliorates sympathetic overactivity in response to muscle metaboreflex stimulation in spontaneously hypertensive rats. 62th Annual Congress of the American College of Sports Medicine, San Diego, USA, May, 2015. *Medicine and Science in Sports Exercise. Vol. 47, No. 5: 739-740, 2015*.

- 27) **Masaki Mizuno**, Gary A. Iwamoto, Wanpen Vongpatanasin, Jere H. Mitchell, and Scott A. Smith. Voluntary exercise training attenuates the enhanced sympathetic responses to muscle mechanoreflex activation in spontaneously hypertensive rats. Experimental Biology 2015, Boston, USA, March, 2015. *The FASEB Journal Vol. 29, No. 1, 1055.8, 2015.*
- 28) **Masaki Mizuno**, Gary A. Iwamoto, Wanpen Vongpatanasin, Jere H. Mitchell, and Scott A. Smith. Impaired functional sympatholysis in spontaneously hypertensive rats is normalized by exercise training via a nitric oxide mechanism. 61th Annual Congress of the American College of Sports Medicine, Orland, USA, May, 2014. *Medicine and Science in Sports Exercise. Vol. 46, No. 5: 321-336, 2014.*
- 29) **Masaki Mizuno**, Ryan M. Downey, Jere H. Mitchell, Scott A. Smith, and Wanpen Vongpatanasin. High salt intake and aldosterone independently augment the exercise pressor reflex in rats. Experimental Biology 2014, San Diego, USA, April, 2014. *The FASEB Journal Vol. 28, No. 1, 1165.10, 2014.*

## VIII. TEACHING ACTIVITIES

### 1. Course participation:

#### a. Within department

- 1) ACR 5108, Doctoral Seminar I/II (Fall, 2020~), Department of Applied Clinical Research, University of Texas Southwestern Medical Center

#### b. Intradepartmental/School/University

- 1) HCS 5407, SSHP Human Physiology Block III (Gastrointestinal Physiology) (Summer 2015~), School of Health Professions, University of Texas Southwestern Medical Center

#### c. Other teaching, activities

### Weinberger Laboratory Cardiovascular Physiology Journal Club

- 1) Director, 2016-2019
- 2) Member, 2009-present

### Supervision and direction of postdoctoral fellow

- 1) Juan Estrada (Ph.D, UT Southwestern Medical Center, 2020-present)
- 2) Rie Ishizawa (Ph.D, UT Southwestern Medical Center, 2018-2021)
- 3) Han-Kyul Kim (Ph.D., UT Southwestern Medical Center, 2017-2021)

### Supervision and direction of visiting researcher

- 1) Ayumi Fukazawa (MS, University of Tokyo, 2020-present)
- 2) Norio Hotta (Ph.D., Chubu University, 2019)
- 3) Zeljka Minic (Ph.D, University of Detroit Mercy, 2016)
- 4) Nan Liang (Ph.D, University of Hiroshima, 2011-2012)
- 5) Qinglu Li (Ph.D, University of Minnesota, 2010)

### Applied Clinical Research Ph.D. Program student mentoring/advising

- 1) Victor Blais (Ph.D Student, UT Southwestern Medical Center, 2019-present)
- 2) Novelle Kew (Ph.D Student, UT Southwestern Medical Center, 2019)

### Ph.D Student mentoring/advising

- 1) Aswini Kanneganti (Ph.D Student, UT Dallas, 2015)

## Southwestern School of Health Professions Student mentoring/advising

- 1) Yoko Fujikawa (Clinical Nutrition Student, UT Southwestern Medical Center, 2019-2020)

## Summer Intern Undergraduate Student mentoring/advising

- 1) Blaine Williamson (Summer Intern, UT Southwestern Medical Center, 2019)
- 2) Sarah Massey (Summer Intern, UT Southwestern Medical Center, 2019)
- 3) Scott Crawford (Summer Intern, UT Southwestern Medical Center, 2015)
- 4) Samuel Rosengarden (Summer Intern, UT Southwestern Medical Center, 2015)
- 5) Brandon Cherry (Summer Intern, UT Southwestern Medical Center, 2009)

## **IX. PROFESSIONAL SERVICE**

### 1. Clinical Activities

N/A

### 2. Service to professional societies

N/A

### 3. Editorial services

- 1) Associate Editor, BMC Cardiovascular Disorders (2016~)
- 2) Review Editor, Frontiers in Physiology (2011~)
- 3) Guest reviewers:

*Acta Physiologica, Advances in Medical Sciences, Aging, American Journal of Physiology Heart and Circulatory Physiology, American Journal of Physiology Renal Physiology, American Journal of Physiology Regulatory, Integrative and Comparative Physiology, Annals of Clinical and Experimental Hypertension, Brain Stimulation, Applied Physiology, Nutrition, and Metabolism, Autonomic Neurosciences: Basic and Clinical, Behavioural Brain Research, Brain Stimulation, Canadian Journal of Physiology and Pharmacology, Hypertension, Cardiovascular Research, Circulation, Circulation Research, Experimental Physiology, Exercise and Sport Sciences Reviews, Frontiers in Physiology, Hypertension, Hypertension Research, IEEE Transactions on Biomedical Engineering, International Journal of Sport and Health Science, Journal of American College of Cardiology, Journal of Applied Physiology, Journal of Clinical & Experimental Cardiology, Journal of Molecular and Cellular Cardiology, Journal of Modern Physiological Research, Journal of Neurophysiology, Journal of Physiology, Journal of Physiological Sciences, Journal of Thermal Biology, Life Sciences, Medicine & Science in Sports & Exercise, Neuroscience Letters, Neuroscience, Physiological Reports, PLOS ONE, Scandinavian Journal of Medicine and Science in Sports, Scientific Reports*

### 4. Invited and special lectures of clinical and service relevance

#### Planning, Coordinating and Organizing Seminar

- 1) Marc Kaufman, PhD, Professor, College of Medicine, Pennsylvania State University (2019)
- 2) Kanji Matsukawa, PhD, Professor, Hiroshima University (2019)
- 3) Norio Hotta, PhD, Associate Professor, Chubu University (2018)

### 5. Consultantships

N/A

### 6. Professional service to the community

#### Service to School of Health Professions

- 1) Faculty Assembly Executive Council  
-Member at large (2016-2019)

- 2) Research Advisory Committee
  - Member (2016-present)
  - Grant review sub-committee
    - Member (2019-present)

Service to Department of Applied Clinical Research

- 1) Graduate Studies Committee
  - Member (2019-present)
- 2) Admissions Committee
  - Member (2019-present)
- 3) Curriculum Committee
  - Member (2019-present)

7. Other  
N/A

**X. ADMINISTRATION [College and University Service]**

1. Budget responsibilities  
N/A
2. Personnel management responsibilities  
N/A
3. Facilities responsibilities  
N/A
4. Other  
N/A

**XI. MEMBERSHIPS, HONORS, AWARDS and SPECIAL RECOGNITION**

1. Scholarly, Professional and Scientific Memberships
  - 1) American Heart Association (2015~)
  - 2) American College of Sports Medicine (2009~)
  - 3) American Physiological Society (2007~)
2. Awards, Honors, Special Recognition
  - 1) Outstanding Junior Faculty Award, University of Texas Southwestern School of Health Professions (2019)
  - 2) New Investigator Award, University of Texas Southwestern School of Health Professions (2016)
  - 3) Excellent Young Researchers Overseas Visit Program, Japan Society for the Promotion of Science (2010)
  - 4) Research Fellowships for Young Scientists, Japan Society for the Promotion of Science (2009)
  - 5) Fellowships for Research Abroad, The Nakatomi Foundation (2009)
  - 6) Fellowship for Research Abroad, The Naito Foundation (2009)
  - 7) Incentive Award, 8th Neurocardiology Workshop (2007)
  - 8) Young Investigator Award (1st Prize), 59th Japan Society of Physical Fitness and Sports Medicine (2004)

**XII. PROFESSIONAL GROWTH AND DEVELOPMENT**

- 1) Participant in cardiovascular journal club hosted by Weinberger Laboratory
- 2) Attended Cardiology Grand Rounds lectures
- 3) Attended SSHP Lecture Series and Capra Research Symposium
- 4) Attended Clinical Translational Research Forum hosted by University of Texas at Arlington
- 5) Established research collaborations with faculty in:
  - Department of Applied Clinical Research- Scott Smith, Ph.D.

- Department of Physical Therapy- Staci Shearin, DPT, Ph.D.
- Department of Clinical Nutrition- Hoda Yeganehjoo, RD, Ph.D.
- Department of Cell Biology- Gary Iwamoto, Ph.D.
- Department of Internal Medicine, Hypertension Section- Wanpen Vongpatanasin, M.D.
- Department of Pediatric Nephrology- Matthias Wolf, M.D.

### **XIII. OTHER**
